THE CORNER.

THE LABORING MAN.

When the party now in power were laboring to overthrow those national and constitutional doctrines which for so many years had given happiness and prosperity to the American people, they exhausted every means to bring the poor laboring man to their support, promising high wages, prosperous times, light taxes, "treedom of person. speech and press," "national peace, and numerous other great improvements upon the wise and good national government which had given us a surfeit of prosperity." But "Now fares the poor man to-day. Where are the high hopes inspired by the treach-erous promises of the authors of ruin?" Their labor. in many cases injured or destroyed. Their approximate the interval of the avenue of my great to the state of the avenue of the ave destroyed. Their pay is in depreciated currency, and for every yard of muslin, pound of coffee, or other articles of con-sumption. they are forced to pay an increase, in some cases twice or three times. the amount that they used to pay in former times. Suppose they labor "for one dollar per day and buy muslin at 40 cents per yard, they can get 2¹/₂ yards the amount that they used to pay in for their labor. Two years ago, their day's work, at one dollar would have brought them eight yards of muslin of the same material. Here then is the differ. Persons applying for same, will please state the kind of work meded. ence, and what is it but a reduction of work their wages from 8 to 21. But again, their freedom is usurped, and they themselves are forced to leave their homes or give the last means they have to gain exemption from the field. The conscription falls upon them. The rich speculator, who can profit by their reduced labor, can buy his exemption and not feel the loss, but the poor man whose family nèeds his support, must leave them per-haps homeless and endure the hardships and perils of war. Can it be that labor-this ever changing and yet nameless, and soulless party, that are now in power. It matters not what his been your previ-tous political sentiments your own forceide and soulless and what his been your previ-tions and shoes and shoe sould be punctual, and will en Advantage and endure the hardships and perils of war. They protect the poor and rich alike. Can any man mistake his duty ? Is not the fearful present argument enough that a change is indespensable. *Government Justice*.—We were wait. *Government Justice*.—We are wait. *Government Justice*. time the old fashioned white element will be rooted out and retired from circulation; and we will behold in all places, high and low-in the army, the departments and in the chair of State-the classic features of the unadultereted Sambo. That will be the Abolition millenium. "White men will have no "put in"-Caucasians will please take de back seat.

What. We Owe to Abolitionism -When the tax collector comes around with his warrant. When we have to go and buy a stamp to put upon a deed, note, &c.

When we have to take out a license ouy or sell. When we go to a store and pay forty cents a pound for coffee instead of ten. When we look at our public debt and "find it accumulating at the rate of over \$2.000,000 per day. When we look at our sons and brothers dragged from their homes to fight in a war which has been degraded from a glorious struggle for Nationality and Union, into a war for negroes, and. When we look at the vacant chairs, or new-made graves of those who have died. let us remember that all these we owe to the foul sectional spirit of Adolitionism. which would not "let well enough alone." Voters Read !- All the prominent and many of the nobodies who are on the stump throughout the State for Curtin, 'are office holders, drawing pay out of the National or State treasuries! This fact dare not be denied. Voters, this is where your taxes are going to support a lot of sinecure officials to instruct you how to vote and keep them in office ! Vote for Woodward and hurl the corrupt crew from power, plunder and influence. . Another Draft .- The New York Post has a dispatch from Washington, stating that another draft is probable and very soon, owing to the repulse in Georgia. and the small amount of men raised under the recent draft, the number not amounting to 75,000. The next draft The Stabling and Shedding, will probably be for 600,000 men, and the surgeons will not be allowed to be so exacting. States preferring to raise the required quota by volunteering will be allowed to do so. OT THE friends of ANDREW G. CURTIN publicly announce that "it is better to lose a battle in the field than the election in Pennsylvania." This is the CURTIN platform. No matter how many precious clives are lost -- no matter how much hard. earned treasure is expended-no matter what victories are gained by the rebels -no matter how much ruin and misery and bloodshed are scattered through the land-they are all preferable, in the eyes of the Abolition fanatics, to the deleat of the shoddy candidate. Let the freemen of Pennsylvania ponder well upon this fearful picture ! 如此爱望. A Wide Awak conscript in Massachusetts came out of the Provost Marshal's office with a receipt for \$300. "Boys," said he, "I've paid that oil bill. My storch was filled up five times in 1869, at the expense of the Republican party: They said the oil was free; but I call \$300 for five pints of oil a darned steep Service of price !
