HOME AFFAIRS.

Some malignants, suspected to be the same who have been bedoubing the property of our citizens with paint, setting fire to barns, on our citizens with paint, setting are to barns, and stoneing houses after midnight, have, during the last few days been engaged in sending, aconymously, and caps to Democrats. So far as we are concerned their malice is regarded as lightly as the idle wind. We despise and spit upon them, and all they do, politically and otherwise.

Now that the time has arrived for the use of stoves and grates, too much care can-not be taken to guard against fire. Your stove pipes should be carefully examined, and, where necessary, repaired, while particular care should he taken that there is no wood work in contact with them. Defective flues should also be examined and put in order, and care taken that the cinders and ashes are deposited in such a way as to prevent the possibility of accident from this

Broke His Leg.-Mr. John Mc-Laughlin, of North Lebanon, fell from his wagon on Friday, the 16th inst., and broke his leg be-low the knee. He has been suffering severely.

For once, we take pleasure in calling the attention of our renders to an advertise-ment—that of Hows & Stevens' "Family Dye ment—that of Haws & Stevens' "raminy Dye Colors," in this day's paper. These Dyes have become a household necessity, and so general in their use that many a well dressed lady finds that many an article once rejected as out of date, is, by the nid of these Dyes, made as good as new.

THE SLAVES OF PREJUDICE.

pears nonner or his Prey.
There are queer people in the world; people with the most abourd, unreasonable, and indefensible prejudices. For example, we have met with individuals who had a morbid antipathy to anything that was extensively advertised, no matter what suight be its actual claims to the confidence of the public. These eccentries look ad with especial disfavor on advertised medicines. They could not see, for example, in Dr. HOLLOWAY'S conguificent system of advertising, covering, as it does, all the mediums of publicity which the world affords, anything but a gigantic scheme of mero speculation. True, they could not gainery the testimony pouring in apontaneously from the highest sources, in favor of his incomparable Pills and Ointment, but still they shook their heads and muttered "humbug." Of course, there is no possibility of arguing with men who won't reason. The best way is to let them alone. Fortunutely, such specimens of stupidity are "few and fur between" in this cotightened era. The general feeling is, that if a thing is in itself excellent, its virtues should be proclaimed to the four winds of heaven for the general benefit of mankind. Hence, the proclamations made by Dr. Holloway. through the entire newspaper press of the world, of the properties and operation of his remedies. meets with the cordial approval of thinking men. The value of the preparations as specifies for the various internal and external complaints peculiar to different climates, or common to the world at large, is conceded, not only by the masses, but by governments, men of science. and cazdid observers in every walk of life. Can such remedies be too widely known? Im possible!—Cin. "Dollar Columbian."

The very best medicines in use among us are those prepared by Dr. J. C. Ayer & Co., of Lowell. He is a graduate of the Penn. University, whose connexion with that celebrated College of Medicine has conferred more distinction upon it, than its Diploma has upon him. tion upon it, than its Diploma has upon that His remedies have become household words not only in this country, but in almost every region of the earth inhabited by man. Their extraordinary fame has arisen from their extraordinary fame has arisen from their extraordinary. virtues, and these are certified by men of the highest station. We publish in our issue to-day, a document signed by the Mayors of the great cities in the United States, Canadas, Mexico, Peru, Chili and Brazil, each of whom certify that the physicians and druggists of their respective due little have signed. spective localities have given their assurance of the uniform good effects and superior virtues of Dr. Ayer's preparations. This is evidence which should satisfy the most sceptical, of their efficacy, and we begour readers to refer to it. Especially do they speak with glowing praise of his Sarsaparilla—the beneficial effects and truly remarkable cures that have been roalized from its use. [New York Sunday Times.]

Measles are prestrating the Volunteers by hundreds, the hospitals are crowded with them. Soldiers, he warned in time. HOLLOWAY'S PILLS are positively infallible in the cure of this disease; occasional doses of them will preserve the health even under the greatest expoaures. Only 25 cents per box.

Ans.—He takes Photographs from miniature to life-size, plain or colored. His card pictures have heen pronounced more truthful and life like than some than have been taken in our large cities. His Ambrotypes are beautiful, and can't be beat. He also excels in copying pictures from small Daguerreotypes, end enlarging them almost to any size.

Quest.—Where is this Gallery? I must give him a call too.

Ans.—Just come along with Nancy and I, and we

No diap-trap operation to gull the public, but a genuine money making thing; Read the Circular of instruction ours only, and you will understand it perfectly, A Lady has just written to me that she is making as highles TWENTY DOL-LARS SOME DAYS! giving instructions in this art.— Thousands of Soldiers are making noney rapidly at it. No person has to be urged to patronize it. It is a thing that takes better than anything ever before of-

thing that takes better than anything ever before offered. You can make money with it home or abroad—on steamboats or railroad cars, and in the country or city. You will be pleased in purining it, not only because it will yield a bandsom informe. In the country to start with.

There is scured, one person out of, thousands who ever pays any attention to advertise that it is kind, thinking they are humbugs. Consequently those who do send for instructions will have abroad field to make money in. There is a class of pessons in this world who think that because they have been humbuged out of a dollar or so, that everything that is advertised as a humbug. Consequently those try no more. The person who succeeds is the one that keeps on trying unit in high in the continuous middless a humbug. Consequently they try no more. The person who succeeds is the one that keeps on trying unit in his something that pay him.

This art cost me one thousand dollars, and I expect to make money out of it—and all who purchase the art of me will do the same. One Dollar sent to me will insure the Prompt return of a card of instructions in the art. The money will be returned to those not satisfied.
