"Omnibus quae present sequimur," or "we la-bor for the goed of all," is the inscription on one of the chime of bulls given by Dr. J. C. Ayer & Co. to the city of Lowell. That fuvored place may have the bells, but they cannot monopolize the Doctor's skill which is made available by his Cherry Peeteral and Cathartic Pills to all alike ngtonly in this couptry but in all countries where zivilization and commerce have gone.-While we admire the liberality and taste of these sain gentlemen in such a donation to their native

town, we will remind our readers of the hallow-ing influence a chime of bells spreads over the whole; community that bears them. They are few in this counity, and their influence is little known, but ask the exile from his home in Germany, France, England, whether the chime on Trinity church does not make his beart leap in-to his mouth, and his eyes swim in the recollection it brings of the solemn notes his childbood, his boyhood, aye, and his manhood loved to hear she soft approach of evening in his native and:

We wish our generous townsmen whom God has blessed with means would consider whether we too cannot add this one more attraction to make our children and ourse lves love dearer and stronger and longer the place we 'call our home. [Madison, Ind. Banner.]

## FAST LIFE AND SWIFT DECAY.

The only Countercheck. The times in which we live teem with won-ders. Nothing scems impossible; for the im-possibilities of one year become the common-place events of the next. Lightning presses, instantaneous communication between the most distant points, and innumerable inventions for compressing vast amounts of business into small spaces of time, and for curtailing the processes apaces of the and manufacture, are among the matyels of this marvelous era. Under such cir-cumstances, we may truly be said to live a "fast life.". But whether the whirl and rush by which we are borne along is really conductive to our

happiness is another question. "Certain it is, that the average duration of hu-man life is decreasing in the m idst of this ex-citement. The modern phrases of disease seem to wazle and baffle the faculty, and with two 'emarkable 'exceptions, viz., Horloway's Pills and Holloway's OINTMENT, no medicines ap-pear to make the desired impression upon in-terical or external disorders. These two celebra-ted remedies are said, howsver, to' be jecom-plaint and diseases of the stounch and bowels, which in a majority sf cases, aro profuced by over exertion, and 'over excitement in business, yield to the Pills when all the resources of the stournet in business, yield to the Pills when all the resources of the stournet in business, yield to the Pills when all the resources of the stournet in business, yield to the Pills when all the resources of the stournet in business, yield to the Pills when all the resources of the stournet in business, yield to the Pills when all the resources of the stournet in business, yield to the Pills when all the resources of the stournet. We con-gratulate Dr. HotLoway on the signal success of his great medicines in this country. From what we know of the usan, we have no doubt the profits derived from that success. happiness is another question. Certain it is, that the average duration of buwhat we know of the man, we have no doubt that the profits derived from that success will afford him far less satisfaction than the know ledge of the good his remedies have affected.-N.
