which we quote: Four of these have been brought to light within the last few days. There is the mysterious poisoning case at Umbleton, the history of which reads like the record of a nightmare. Miss Amelia Husband had formed a secret and illicit connection with Mr. George Cole, from whom she received frequent nightly visits at her uncle's house, though without the knowledge of any of the members of her family. At length she found that she would soon become a mother, and communicated the fact to her lover, who at municated the fact to her lover, who at once proposed to marry her. But she declined, on the ground that the alliance would be altogether against the wishes of her friends, and, instead, took a large dose of arsenic, from the effects of which she died. Here we find death deliberates he died. Here we find death deliberates he died. Here we find death deliberates which must, under the circumstances, have necessarily ended in the marriage of the young lady to the man of her choice. But Mr. George Cole seems to be quite as singular in his modes of feeling and action as was Miss Amelia Husband. After the poor girl's death he MEN'S FURNISHING GOODS.

It embodied READYMADE CLOTHING merely an application for the return of a watch and some trinkets which he had given to the young lady during her life, and which, as he held, reverted to him upon her decease. It is difficult to determine whether the conduct of the suicide or her lover is most unaccountable. H. RIGHEY, Merchant Tailor, respectfully an nounces to the citizens of Lebanon and vicinity that has just returned from the city with a fine as sortment of the services of the city with a fine as sortment of the city watch and some trinkets which he had us, a woman drowned herself chiefly for the purpose of casting odium upon a man who had offended her by breaking off an immoral relationship with her. Mrs. Bruce, whose body was washed ashore at Rottingdean last Wednesday, had formed a liaison with Mr. Louis Adolphus, manager to Messrs. Moses & Son, the well-known tailors, but he states that when he saw her off by the Brighton train, on the 8th of November, he intimated to her that this must cease. It is evident that she was in no distress, since her clothing was of a superior description. and she had money in her pocket and a diamond ring on her finger, and her real motive for self destruction is shown by the mode in which she prepared for it. She wrote "my husband" on the back of a carte de visite portrait of Mr. Louis Adolphus, put into an envelope, which she addressed to "My false aud perjured husband, Louis Adolphus," with his address in full, ond, wrapping the whole in oiled silk, placed it in her bosom before she jumped into the sea. Did ever novelist or dramatist depict outraged love conceiving and carrying out a more recondite and intensely romantic scheme of vengeance? It seems evident enough that Mrs. Bruce sacrificed her own life

But her motive for suicide was strong when compared with the incitements which often impel individuals to commit the same crime. Late in last week the body of Amelia Walker, a girl of seventeen, was taken out of Duckett's canal. She had been in service, but two pots of jam and an egg being found in her box, her master told her that she must leave after making the last act of it the writing her master told her that she must leave her situation. She received her wages, walked away from the house, and, instead of going home, drowned herself, the money being found untouched in her pocket. Perhaps the most striking example of eccentricity, however, which has been witnessed for some time is the case of the youth John Budd, who hanged himself a few days since at Millwall. Having while in the service of a butcher in that district, committed some act of violence toward a few boys who had been annoying him, he was under a false impression that a reward had been offered for his apprehension, and so resolved to put an

A class of maladies prevail to a fearful extent in the community, dooming at least 100,000 youth of both sexes annually, to an early grave. Those diseases are very imperfectly understood. JOHN E. BOWMAN,
ELIAS WALBORN,
GEO. ZIMMERMAN, Direc _s of the Poor. May 27. 1863. A WORD ABOUT

AMERICAN WATCHES. AFTER A THOROUGH TRIAL OF MORE FHAN TEN YEARS, the time-pieces manufactured by the American Watch Co., of Waltham, Mass. have gained a firm bold upon the favor of the public and now, no less than 75,000 of them are speaking for themselves in the pockets of the people. From a very insignificant beginning the business has increased until we are justified in stating that WE MAKE MORE THAN ONE HALF of all the watches sold in the Uni-

ted States. Repeated enlargement of our factory buildings, and the labor of 500 operatives, still find us unlings, and the labor of 500 operatives, still find us unequal to supply the constantly increasing demand.—
And we may here observe that notwithstand ing the high price of labor and materials; we actually sell our products at less prices than these current five years ago.

We refer to those facts only for purposes of properly introducing another subject rolative to our manufacture of watches. If thereto our chief object has been to make open watches for the million at the lowest possible price—souncthing to take the place of the make-believe watches called "Ancres," "Lopines," "English Patent Levers," &c., annually thrown upon this market, in countless numbers, by European workshops—watches which are the refuse of their factories, unsaleable at home and perfectly worthless everywhere.

This object wa have accomplished, and answer and priced watches the baye accomplished.

erywhere. This object we have accomplished, and now we have to announce, that we have commenced the manufa ture of watches of the very HIGHEST GRADE KNOWN TO CHRO-

HIGHEST GRADE KNOWN TO CHRONOMETRY,
unequalled by anything hitherto made by oursolves and unsurpassed by anything made in the worl. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filed it with the best workmen in our service. Profiting by our long experience, we have remodelled the form of our watches, introducing such improvements as have been suggested and proved to be good from time to time, and have instituted new and severe tests of isochronism, adjustment and compensation. New mach nes and appliances have been constructed, which perform their work with consummate delicacy and exactitude, and the choicest and most approved materials only are used. Nothing in fact is wanting either in mechanical principles, material of workmanship to ensure perfection in the result.

We continue to manufacture our other well-known qualities under the following names:

"APPLETON, TRACY & CO."

"P. S. BARTLETT."

And the "Soddier's Watch, 1"

"WM. ELLERY."

The letter, the lowest priced watch we make, is a substantial, reliable time-piece, cased in sterling silver—hunting pattern, and is not liable to get out of ordereither in marching riding or fighting. All the above described watches, including the YINEST, which is named "AMERICAN WATCH COMPANT," are sold by watch dealers generally throughout the country.

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Finx, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach, and thus remove all the aerid humors from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength follows as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.
