THE VIRTUES OF BORAX -The Washerwomen of Holland and Belgium, so pr werbially clean, and who get up their linen so beautifully white, use refined borax as a washing powder instead of soda, in the proportion of a handful of borax-powder, to about ten gallons of boiling witer; they save in soap nearly half. All the large washing establishments adopt the same mode. For laces, cambrics, &c., an extra quantity of powder is used, and for crinolines (required to be made very stiff) a strong solution is necessary. Borax, being a neutral salt, does not in the slightest degree injure the texture of the linen ;its effect is to softin the hardest water, and therefore it should be kept on every toilet table. THE THOUGHTLESS MOTHER.-'Mother,' said a delicate little girl, "I have broken your china vase."

"Well, you are a careless, troublesome little thing always in some mischief; go up stairs and stay in the closet till I send. for you."

And this was a christian mothers' an. swer to the tearful little culprit who had struggled with and conquered the temptation to tell a falsehood to screen the fault.

With a disappointed, disheartened, and saddened look, the child obeyed, and at that moment was crushed in her little heart the sweet flower of truth, perhaps never again in after years to be revived to life.

"LET HER Go."-"I was," said a rev. erend gentlemen; "attending divine service in Norfolk, several years ago, during a season of excitement. While the officiating clergyman was in the midst of a most interesting discussion, an old lady D. S. RABER'S among the congregation arose and clapped her hands and exclaimed : "Merciful Father, if I had one more feather in my wing of faith, I would fly to glory." The worthy gentleman, thus interrupted, immediately replied :

"Good Lord, stick it in and lef her go, she's but a trouble here." That quieted the old lady.

What a noble instinct is that which prompts the individual, when filled with the comforts of life, to feel for the sufferings of others less favored than himself! As illustrative of this virtue, a con temporary relates that the other night he came across a young man standing well braced against a lamp post, -soliloquizing] thus: What will the poor (hic) do this hard (hic) winter ? Gin is (hic) ten cents a (hic) glass, and brandy (hic) ditto !-Lord help the (hic) poor !

Instead of being made of several hundred little pie-ces. rerewed together, the body of the American Watch is formed of SOLID PLATES. No jar inter-feres with the harmeny of its working, and no sudden shock can throw its mach inery out of gear. Secession of one part from another is unknown to its constitu-tion, and in riding or any business pursuit, it is all held together as firmly as a single piece of motal.
