THE CORNER.

RATHER CUNNING .- A country gentleman arrived at Boston, and immediately repaired to the house of a relative, a lady, who had married a merchant of that city. The parties were glad to see him, and invited him to make their house his home, as he declared his intention of remaining Fin the city only a day or two.

The husband of the lady anxious to show his attention to a relative and friend of his wife, took the gentleman's horse to a livery stable, in Hanover

Finally his visit became a visitation, and the merchant after the lapse of eleven days found, besides his lodging and boarding the gentleman, a very considerable bill had run up at the livery sta-

Accordingly he went to the man who keeps the livery stable, and told him would pay the bill.

Very good, said the stable keeper, understand you?

In a short time the country gentlem in went to the stable, and ordered the horse to be got ready. The bill was presented to him.

"Oh," said the gentleman. 'Mr.will pay this.'

'Very good, sir,' said the stable keep. er; please to get an order from Mr. -, it will be the same as money.' The horse was put up again, and down went the country gentleman to Long-

wharf where the merchant kept. Well, said he, I'm going now. "Are you?" said the gentlemen, well

good bye, sir.' But about my horse, the man said the bill must be paid for keeping.' Well, I suppose that is all right.'

'Yes, but you know I am your wife's cousin. 'Yes,' said the merchant, 'I know you

are, but your horse is not.'

A ROMANTIC SELL.—A romantic incident occurred in Allegheny county N. Y., a short time since. A couple were married The bride was beautiful—eyes like the sun, and all that. The husband was patriotic; he enlisted—went to war. A libertine from Chatauque county saw the beautiful wife, sought her society, and apparently won her confidence. He proposed an elopement. She assented. He gave her ten \$50 greenbacks to make necessary arrangements. (Must have been a contractor or else very "loyal.") This she accepted. The hour was set.-The willian went to his hotel to smoke the tardy hours away, when the following tender note was put into his hands:

A FEW REASONS WHY THE AMERICAN WATCH is the best.

It is made on the best principle, while the foreign watch is generally made on no principle at all.

Let us look at the contrast. The foreign watch is nostly made by women and boys, fr HAND. While their labor is cheap, their work is dear at any price.-Such watches are made without plan, and sold with out guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most

signed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "ancres," "lepines" and "Swiss levers" in professed repair for a few years will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH.
Instead of being made of several jundred. Jittle pieces, screwed together, the body of the American Watch is formed of SOLID PLATES, "No jar interferes with the harmeny of its working, and no sudden shock can throw its much inery out of gear. Secession of one part from another is unknewn to its constitution, and in riding or any business pursuit, it is all held together as firmly as a single piece of mefal. It is just what all machinery should be—

1st. ACCURATE,

3d. STRONG. ad. STRONG.

4th. ECONOMICAL.

We not only secure CHEAPNESS by our system, but QUALATY: We do not pretend that our Watch can be bought for less mouey than the foreign that EMELTEVES, but that for its real value it is sold for one-half the bought for less money tourn, and sold for one-half the but that for its real value it is sold for one-half the price.

OUR SOLDIER'S, WATCH [named Wm. Ellery] is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Hartlett) is similar in size and general appearance, but has more jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare, beauty and workmanship, is quite small, but warranted to keep time.

OUR YOUNG GENTLEMAN'S WATCH is neat, not already and workmanship, is quite small, but warranted to keep time.

OUR TRUSSES! TRUSSES!

The PROOF of the "merits of our Watch may be the PROOF of the "merits of our Watch may be make the hair grow, to cleanse the head, and to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if you do to prevent falling on to f the hair; if y

large and just the thing for the pocket of Young America.

The PROOF of the "merits of our Watch may be found in the fact that we now employ over five hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE QUARTER PLATE WATCH is thin ner and lighter than the other we have described—
Its fine chromometer ballance is delicately adjusted to correct the variation caused by changes of temperature. These Watches are chromometrically rated, and are the fruits of the latest experiments in chromometry and are made by our best workmen, in a separate department of our factory. For the finest time keeping qualities they challenge comparison with the best works of the most famous English and Swiss, makers.

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach, and thus remove all the acrid humors from the systim. This medicine will give tone and vigor to the whole organic system-however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels to aure as this famous medicine:
