The Army of the Potomac is still burried in deep mud, though its advance may be anticipated in a very the "Democratic" party is questionshort time. Nearly everything seems ed, and whon the term Copperhead to be in readiness for the movement. is used to distinguish disloyal persons. General Bunnside's portion of the exmedition, however, is not yet prepared to move. The first portions of his western reinforcements, which will pathy with the rebels, and all their amount in all to perhaps ten thousand actions go to encourage those wicked men, passed through Pittsburg last week, bound for Annapolis, where will be some days before he will be ready to sail, and this will very likely detain the column on the Rapidan. Culpepper is to be made a permanent depot of supply, and is to be surrounded by fortifications. It is almost certain that GRANT will divide his army in the attack sgainst Richmond - part Culpepper

It is the general impression that depredations.

A parcel of rowdies lately attacked the house of a Democrat in Clearfield, provided with tar, feathers, &c., intending to tar and feather him. Failing to gain an entrance into the house, they broke the doors and windows, stoned the house hitting the children in the inside, and then fired a pistol at his wife. He stood inside the door with an axe, the sharp edge of which prevented them from carrying out their designs. Next day he prosecuted them, and at the last term of the Court they were convicted, but immediately on the rendering of the verdict a pardon from Governor Curtin set them at liberty. Comment is unnecessary, only the were punished.

It is said that owing to the scarcity of copper the U. S. "Government" intends hereafter to use brass in the coinage of cents. "Our government" is smart at expedients, and generally successful. Its a pity that Jeff Davis don't pattern after us. If he did he would have gone to the dogs long ago.

Of course this is a free country, -people, especially the military people, are allowed to do just as they please, which is freedom in the estimation of the abolitionists. If freedom does not mean to do as you please, they contend it is not worth having, and does not the Declaration of Independence say that "all men are created free! If an abolitionist desires to oppress a "Copperhead" and is not at liberty to do it, he is not free. As they are carrying on the war to free every man, woman and child in this free country, it is not surprising that they sometimes practice the freedom they are fighting for. Last week a Massachusetts regiment passed through Philadelphia. They desired to gut-out a tavern on their route. At once the Colonel ordered it to be gutted-out. After they had executed that "freedom," they ironed the proprietor and took him along to Baltimore, shaving his head on the way, for the fun of the thing, we presume, and to carry out their ideas sumption, of the abolition party of of freedom. The abolition papers are assuming that if Richmond is captured in the coming campaign that the rebellion will be squashed, but if it should be a failure that peace will follow and that McClellan will be our next President.
