Another Great Outrage.—On Saturday evening last a regiment of New Jersey volunteers, passing over the Lebanon Valley railroad for Harrisburg, were detained at Missimer's Station, when they took occasion to "gut" the Hotel of Jacob P. Fessler at that place, occasioned by his refusal to give them the liquor they wanted. They broke into the bar, carried off the bottles and liquors, stole the money in the drawer, clothing and everything else they could lay their hands up in worth taking, broke the furniture, smashed in the windows, and created a gener al terrorism over the whole neighborhood. The officers did not care, or were unable, to interfere and maintain order. They also stopped people and compelled them, by flourishing pistols, to give them their money. Mr. Fessler's loss is estimated at near \$100. Such outrages are becoming every-day matters, and it is high time that the people should learn to know the remedy for them. Are we obliged to submit to them, or is there a responsibility, where a redress for grievances of this kind, and damagess, may be obtained -The people are just now giving their millions upon millions in free-will offerings to the soldiers, by means of sanitary fairs and otherwise, and not withstanding that, they are subjected to outraged that would shame the rebels themselves ...

The standard staple preparation for the hair warranted in all cases to restore fided and gray hair, and whiskers, to their original color. It does not claim to make the hair grow in where it has fallen out; nothing will do that whatever may be advertised to the contrary, but it will prevent it from fall ing out, make it soft and sliky. cleanse it and the scalp from impurities and himmors, and entirely acreeme bad effects of previous use of preparations containing sulphur, sugar of lead, &c. It requires no scaping, washing, and hours for its application, nor will it stain the skin, but is as easily applied and wiped from the skin as any hair dressing. It restores the natural shuding of one hair with another, which gives it a lively appearance instead of the dull uniform black of dyes.

A WORD ABOUT

A WORD ABOUT

AMERICAN WATCHES.

AFTERA THEROUGH TRIAL OF MORE
THAN TEN YEARS, the time pieces manufactured by the American Watch Co., of Waltham, Mass.,
have gained a firm hold upon the favor of the public,
and now, no less than 73,000 of them are speaking for
themselves in the pockets of the people. From a very
insignificant beginning the business has increased until we are justified in stating that WE MARK MORE
THAN ONE ITALY of all the watches sold in the United States. Rejüsted enlargement of our factory buildlugs, and the labor of 500 operatives, still find us unequal to supply the constantly increasing demand—
And we may here observe that notwithstanding the
high price of labor and materials; we seturally sell our
products at less prices than those current five years
ago.

ago.

We refer to these facts only for purposes of proporty introducing another subject relative to our manufacture of watches. Hitherto our chief object has been to make good watches for the million at the lowest possible price—something to take the place of the makebelieve watches called "Aricres," Lepines," English Patent Levers," &c. anticulty thrown upon this market, in countless numbers, by European workshops—watches which are the refuse of their factories, unsaleable at home and perfectly worthless everywhere.

erywhere.
This object we have accomplished, and now we have to announce, that we have commenced the manufacture of watches of the very
HIGHEST GRADE KNOWN TO CHRO-

ture of watches of the very

HIGHEST GRADE KNOWN TO CHRO
NOMETRY,
unequalled by anything hitherto made by circelved and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. Profiting by our long experience, we have remodelled the form of our watches, introducing such improvements as have been suggested and proved to be good from time to time, and have instituted new and severe tests of isochroinism, adjustment and compensation. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactitude, and the choicest and most approved materials only are used. Nothing in fact is wanting either in mechanical principles, material of workmanship to ensure perfection in the result.

We continue to manufacture our other well-known qualities under the follow up names:

"APPLETON, TRACT & CO."

"P. S. BARTLETT."

And the "Solder's Watch."

The latter, the lowest priced watch we make, is a substantial, reliable time-piece, cased in sterling silver—hunting pattern, and is not liable to get out of order either in marching riding or fighting. All the above described watches, including the Finesr, which is named "APPLETON, Tarse sold by watch dealers generally throughout the country.
