HOME AFFAIRS.

On Wednesday evening the up-Passenger Train was thrown off the non railroad, about a mile west from this shifting of a switch. The locomotive, tank and baggage car were upset and House of Refuge. smashed—the car running its whole length into a field. The engineer, Thomas Gabel, was severely scalded.— To look at the wreck, the small space he was confined in, with the smashed and down at the creek," was tried at our last broken wood and iron above, below and Court, and, notwithstanding the assistaround him, the great wonder is that he escaped with life and without the breaking of limbs. No one else was hurt, but tiary. no doubt the passengers were greatly alarmed, as they had good occasion to be. It was fortunate that the accident occurred where the railroad was even or nearly so, with; the surrounding surface -Had it occurred in a cut or on an embankment there would probably have been a great loss of life. As to the fiend in disguise of man, who turned the switch, hanging attention of our competent citizens to the would be too good for him, and it is hoped that he may be discovered and punished according to his deserts. He portion of the amount required has been first broke the lock, before he was enabled to move the switch. A reward of \$500 is offered for his apprehension, or such information as may lead to the apprehension and conviction of the vile perpetrator of the deed.

To the Citizens of Lebanon Co. The undersigned have been designated as the committee for Lebanon county, on Labor, Income and Revenue, to aid and assist the General Committee of the proposed Sanitary Fair to be held in June, next, at Philadelphia. SANITARY COMMISSION. OFFICE OF THE COMMITTEE ON LABOR, INCOME AND Revenues, No. 118 South Seventh Street. PHILADECPHIA, APRIL 478, 1864.

The Committee on "Labor, Incomes and Revenues," invite co-operation with them in the particular work for which they have been appointed. As no portion of the people are more patri-olic than the working men and women of the country, it is but just and proper that they should alike have an opportunity to contribute to the objects of the Fair. The most equable plan for objects of the Fair. The most equable plan for accomplishing this, and, at the same time the easiest one, is to ask for the contribution of a single day's Labor from all classes in the consimunity is Many will contribute a day of their labor willingly, who would not subscribe their money. To reach every department of industry and art will be a work of great labor, but, if attack will be a work of great labor, but, if attained, will be productive of immense results.
The success of the plan will depend upon the bearty co operation of every element of influence within our limits, and we invite all the guardi-ans of the industrial interests, and all others, to take hold with us in furthering this great work of pairiotism and humanity.

The Committee is charged with the following.

duty, to wit:
Finst.—To obtain the contribution of "one day's labor," or earnings, from every artisan and laborer, foreman, sperative and employee; presreach from 4000 to 50000 bils, mostly good extra family, at \$888 25 per bol.—

THIRD.—To obtain the contribution of one day's income from every retired person, and person of fortune—male and female—living upon their means, and from all clergymen, lawyers, physicians, dentists, editors, authors and profesever pall other persons engaged in the learned or other professions.

Much of this work must be performed by the

perhonal influence and efforts of ladies and gen lemen associated with the Committee in carrying out this plan.
The Committee feel the responsibility of the

work they have undertaken, which, to be successful, will require a very perfect ramification of their plan, and they therefore call upon all earnest people, to assemble themselves together in every town; township, and county, and form organizations of ladies and gentlemen to do op-erate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts, —especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of their country in the armies of the nation.

The work of this Committee may be prosecu-ed where no other effort can be made for the Fair, as in the mines of the coal regions. A day's earnings of the miners, and a day's pro duct of the mines, can be obtained, where no portuble article could be procured for transportation. Indeed there is no part or section of these States where the day's labor may notibe obtained, if organizations can be formed to reach

iem.
The Committee cannot close without urging upon all Proprietors of Establishments, the duty of taking prompt and energetic action to recure the benefit of the day of Labor from all within their contrel.

The Committee deem it unnecessary to do more, thun thus to present the subject to the peo-ple of the three States named. In the coming compaigns of our armies, the labors of the "San itary Commission", will be greatly augmented.— By the first of June 700,000 men—one of the largest armies of modern times—will be opera-ting in the field. So large a force, keattered over regions to which the then are thoscolimated, must necessarily carry along with it a large a-mount of sickness, suffering and death, to say othing of the gathered horrors of the battle-

These sufferings, it is our bounded duty, as men and Christians, to relieve. A great and en-lightened people, enjoying the blessings of a governicant of their own making, cannot refuse as-sistance to men suffering to maintain its authority, and we will not believe that the "GREAT CENTRAL FAIR," drawing its products from the three States of Pennsylvania, New Jersey and Delaware, so affluent in all mineral, agricul-tural and industrial wealth, shall fall behind any similar effort which has yet been made for the relief of the Nation's children.

As it is desirable not to multiply circulars;

no further authority than this circular will be necessary for any employing fifth or company, or any respectable committee of ladies and gentle men, to proceed at once, in the work of the Com mittee; and it is hoped that under it, organiza tions will spring up in all the towns and busy regions of the States of Pennsylvahia, New Jersey and Delaware.
Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia; and it is very

desirable that they commence soon, as each fresh acknowledgment will stimulate effort in other loca lities. All-ubscriptions should be addressed to JOHN W. CLACHORN, Trensurer, office of the "Committee on Lubor, Income and Revenue," No. 118 South Seventh Street, Philadelphia.
