A WORD ABOUT AMERICAN WATCHES.

HIGHEST GRADE KNOWN TO CHRONOMETRY,
unequalled by anything hitherto made by ourselves and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We, have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. Profiting by our long experience, we have remodelled the form of our watches, introducing such improvements as have been suggested and proved to be good from time to time, and have instituted new and severe tests of isochronism, adjustment and compensation. New mach nee and appliances have been constructed, which perform their work with consummate delicacy and exactitude, and the choicest and most inproved materials only are used. Fashionable Tailoring. . THE NEW BAKERY,

A FEW REASONS WHY THE AMERICAN WATCH

It is made on the best principle, while the foreign watch is generally made on no principle at all. Let us look at the contrast. The foreign watch is stly made by women and boys, Br HAND. While their labor is cheap, their work is deer at any price. Such watches gre'made without plan, and sold with our guarantee. They are irregular in construction, and quite as irregular in movement. They are 'designed only to sell, and the buyer is the party mo

sign ed only to sell, and the buyer is the party mothoroughly sold. Those who have kept "ancrea," "lepines" and "Swiss levers" in professed repair for a few years will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH.
Instead of being made of a several buildred little fricces, screwed together, the body of the American Watch is formed of SOLID PLATES! No jar interferes with the harmoniver its working, and no sudden shock can throw its mach inery out of gear. Several no four part from another is unknewn to its constitution, and in riding or any business pursuit, it wall held together as fringly as a single piece of metal. It is just what all machinery should be—
