THE CORNER.

New Tax Hems.

It is thought that the Abolition members of Congress will put the following items in the new Tax bill: For speaking disrespectfully of Mr. Lincoln, two hundred dollars and confiscation of your property. For thinking against Mr. Lincoln, one

hundred dollars. For dreaming disrespectfully of Mr

Lincoln, fifty dollars.

For taking the name in vain of any Aboliition office holder, twenty-five dollars.

For speaking disrespectfully, of private Republicans, ten cents each.

E

For voting a copperhead ticket, twen-'ty-five cents.

Every Democratic office holder, taxed thirty cents a day, (Sundays included) Every man not drafted to be taxed ten

dollars. For every white male child born alive.

eten cents.

For every white female child born alive, eten cents.

For every negro male child born alive, a premium of twenty cents.

For every negro female child born a-»live, a preminm of ten cents.

For not believing Mr. Lincoln to be whe Government, a tax of five hundred · dollars-

For talking against the right Republi-Cans have to steal, a tax of fifty cents for each offence.

For dying, a tax of one dollar a head, free of charge.

Boosted People.

People who have been bolstered up and People who have been bolstered up and thevered up all their lives, are seldom good for anything in a crisis. When misfortune comes, they look around for some body to cling to or lean u on. If the prop is not there, down they go. Once down, they are as helpless as capsized turtles, or unhorsed men in armor, and they cannot find their feet again without asBecault and Apothecary. Chomist and Apothecary. Construction of the very liberal patronade to every effort to please all. Around the property of the down they go. Once down, they are as helpless as capsized turtles, or unhorsed men in armor, and they are constructed to suit the times. Remember the Address, the suit the times. Remember the Address the suit the times. Reme cannot find their feet again without assistance. Such silken fellows no more resemble self made men who-have fought their way to position, making dificulties their stepping stones, and deriving determination from their defeat, than vines resemble oaks, sputtering rush lights the stars of heaven. Efforts persisted in to achievements train a man to self reliance; and when he has proven to the world that the can trust himself, the world can trust LEBANON VALLEY INSTITUTE. him. We say, therefore, that it is unwise to deprive young men of the advantages which result from energetic action by 'boosting' them over obstacles which they ought to surmount alone. No one ever swam well who placed his confidence in a cork jacket; and when breasting the sea of life, we cannot buoy ourselves up and stry to force ourselves ahead by dint of our own energies, we are not worth salwage, and it is of little consequence whether we "sink or swim, survive or perish,"

A New York paper says that the negro wenches are to have a National Convention to insist on having Fred. Douglass put on the Republican ticket Douglass put on the Republican ticket for Vice-President, and that, if this request is refused, they mean to punish Summer, Beecher, Wilson, and, in fact, the men of the Republican party generally, by put-ting their backs dead against miscegena-tion.

WEAKNESS OR DEBILITY INDUCED BY OVER FATIGUE, Will soon disappear by the use of these invaluable Pills, and the Solidier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon. It may seem strange that Hollo-way's Pills should be recommended for Dysentery and Flux, many persons supposing that they wou'l increase the relaxation. This is a great mixtake, for these Pills will correct the liver and stomach, and thus remove all the acrid humors from the system. This medicine will give tone and vigor to the whole organic system hower-er deranged, while health and strongth follow as a mat-ter of course. Nothing will stop the relaxation of the Bowels so are as this funous medicine. VOLUNTEERS ATTENTION 1 INDISCRE-TIONS OF YOUTH!

A FEW REASONS WHY THE

AMERICAN WATCH

IS THE BEST. It is made on the best principle, while the foreign ratch is generally made on no principle at all.

Let zs look at the contrast. The foreign watch is mostly made by women and boys, by fland. While their labor is cheap, their work is dear at any price .--Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party mo

signed only to sell, and the buyer is the party mo theroughly sold. These who have kept "ancrea," "do pines" and "Swiss levers" in professed repair for a few years will appreciate the truth of our statement. THE PLAN OF THE AMERICAN WATCH. Instead of being made of several handred little pie-ces, screwed together, the body of the American Watch is formed of SOLID PLATES. No jar inter-fores with the harmony of its working, and no sudden shock can throw its much inery out of gear. Secession of one part from abother is unknown to its constitu-tion, and in riding or any business pursuit, it is ful held together as firmly as a single piece of modal. It is just phat all machinery should be--lst. ACCURATE. 2d. SIMPLE.

but that for its real value it is sold for one-half the price. OUR SOLDIER'S WATCH [named Wm. Ellery] is what its name indicates—Solid, Substantial, and al-ways Reliable—waverrauted to stand any amount of Marching Riding or Fighting. OUR NEXT HIGHER QUALITY OF WATCH (nam-ed P. S. Hartlett) is similar is size and general ap-pearance; but thas more jewels, and a more elaborate finish. OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to REEP TIME. OUR YOUNG GENTLEMAN'S WATCH is near, not large and just the thing for the pocket of Young Amer-ica.

large and just the thing for the pocket of Young Amer-ica. The PROOF of the merits of our Watch may be found in the fact that we now employ over five hun-dred workmen in our factories, and that we are still unable to supply the constantly increasing demand. OUR THIRE QUARTER PLATE WATCH is thin-ner and lighter than the other we have described--its fine chronometer bailance is delicately adjusted to correct the variation caused by changes of temperature. These Watches are chronometerically rated, and are the fut is of the lated experiments in chronometry and are made by our best workmen, in a separate de-partment of our factory. For the fineat time keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers. **BE ALMENS & ADD LEGORE**.

A WORD ABOUT

AMERICAN WATCHES. AFTER A THCROUGH TRIAL OF MORE

AFTER A THOROUGH TRIAL OF MORE THAN TEN YEARS, the time pieces manufac-tured by the American Watch Co., of Walthum, Maes., have gained a firm hold upon the favor of the public, and now, no less than 75,000 of them are speaking for themselves in the pockets of the people. From a very insignificant beginning the business has increased un-til we arejustified in stating that WE MAKE MORE THAN ONE HALF of all the watches sold in the Un-ted States. Repeated onlargement of our factory build-ings, and the labor of 500 operatives, still find us un-cqual to supply the constantly increasing demand. And we may bree observe that . notwithstanding the high price of labor for the these current fave years of the states prices?

products at toss prices that these chirchet how years ageo. We refer to these facts only for purposes of proper-ly introducing another subject relative to our manu-facture of watches. Hitherto our chief object has been to make good watches for the million at the lowest pos-sible price-something to take the place of the make-believe watches called "Ancres," "Logines," "Eng-lish Pattent Levers," & c., nuually thrown upon this market, in countless numbers, by Europeau work-rhops-watches which are the refuse of their facto-ries, runsalenble at home and perfectly worthless ev-erywhere.

rywhere. This object we have accomplished, and now we hav o aunounce, that we have communeed the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRO-

HIGHEST GRADE KNOWN TO CHRO-NOMETRY, unequalled by anything hitherto made by oursolves and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have orested an addition to our main buildings expressly for this branch of our business, and have filled it wilt the best workmen in our service. Frofting by our long experience, we have remodelled the form of our watches, introducing such improvements as have been suggested and proved to be good from time to time, and have instituted new and sovers tests of isochro-nism, adjustment and compensation. New machiness and have instituted new and sovers tests of isochro-nism, adjustment and compensation. New machiness and appliances have been constructed, which perform their work with consummate delicacy and exactitude, and the choicest and most approved materials only are and the choicest and most approved butter in souly are used. Nothing in fact is wanting either in mechani->1 principles, material of workmanship to ensure per-fection in the result.
