To our Subscribers :

Owing to the heavy advance in the price of printing paper, and everything necessary in conducting a newspaper, our subscribers would greatly oblige us by paying a son of Daniel Nye, of Apnville, and was aged about 20 years. He had enlisted up. We do not intend, as yet, to this spring. increase the price of Subscription to the Anvertiser, but we must inall fliose back a year or more at once bring, or forward by mail, the money due us. We do not even demand, advance payment when inconvenient, but we desire the millions upon millions by Sanitary to the money due when inconvenient, but we desire the millions upon millions by Sanitary to the money due to the time crowded, so I said to Nancy we are just on our way to Baily's Photograph Gallery, to have our pictures taken. He takes splendid pictures, and his Gallery is nearly all the time crowded, so I said to Nancy we will go early this morning before any body else, gets there, or we will have to come away again without gotting any ting millions upon millions by Sanitary is nearly all the time crowded, and so why don't you answer this call as good Democrats and dying soldier cannot even obtain a should, and sustain us as is their cup of coffee. The rules were "tea and dity, and no doubt pleasure. Of course this is not to be read by and probably only, desire, supplied. In those who have paid up.

U. S. 10-40 Bonds.

These Bends are issued under the Act of Congress of March 8th, 1864, which provides that all Ronds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority. Sub criptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDERMED IN COIN, at the pleasure of the Govern ment, at any period not less than ten nor more than for-ty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds'for not over lone hundred dollars an nually and on all other Bonds semi-annually. The interest is payable on the first days of March and Sep-

tember in each year. Subscribers will receive either Registered or Coupon Sonds, as they may prefer. Registered Bonds are re corded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for mmorcial uses.

Subscribers to this loan will have the eption of having their Bonds draw interest from March 1st, by paying the accrued interest in cein-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from the date of subscription and deposit. As these

Exempt from Municipal or State Taxation, their value is increased, from one to three per cent. per annum, according to the rate of tax levies in vari-

ous parts of the country.

At the present rate of premium on gold they pay Over Eight Per Cent Interest currency, and are of equal convenience as a perma

nent or tomporary investment.

It is believed that no securities offer so great induce. ents to lenders as the various descriptions of U.S. Bonds. In all other forms of indebtedness, the faith or ability of private parties by stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both

principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted in-

to money at any moment, and the holder will have the benefit of the interest. It may be useful to state in this connection that the otal Funded Debt of the United States on which interest is payable in gold, on the 3 d day of March, 1864; was \$766,965,000. The interest on this debt for the coming fiscal year will be \$45,987,126, while the curtoms revenue in gold for the current flacal year, ending Juns 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum. So general has the use of this remedy become, and so goneral has the use of this remedy because, and so popular is it everywhere, that it is unnecessary to recount its virtues. Its works speak for it, and find utterance in the abundant and voluntary testimony of the many who from long suffering and settled discass have by its use been restored for pristing vigor and health. We can present a mass devidence in proof of our assertions, that CANNOT BE DISCREDITED.
