

WEEKLY DEMOCRATIC PRINCIPLES... LEONARD, PA. WEDNESDAY, MARCH 16, 1865.

The President has issued a Proclamation notifying all deserters that they will be pardoned if they report within sixty days from the date of said Proclamation.

Mr. Meek, editor of the Bellefonte Watchman, who was arrested, a week ago, and imprisoned by the "government," has been released and sent home.

THE CHARGES.—Quite a number of "copperheads," we presume, were recently arrested in the southern and centre portions of the State and tried by Court Martial.

1. In that the said Miller declared that "Abraham Lincoln was a fool and had no sense."

On such nonsensical trash this man was dragged from family, imprisoned for weeks, put to great expense, and in the end sent home with the "assurance that the grave charges were not sustained."

When a man gets too much old Bourbon into his head, instead of saying he is drunk, as heretofore, he is now said to be "Johnstonized," in compliment to "Joyal" Andy Johnson at the inauguration.

The Abolitionists say that the administration is the "government." Andy Johnson, a leg of the government, is known to have been drunk at the inauguration.

The following statement is interesting when it is considered that the 6th, 8th and 10th Districts are Democratic, while the 7th and 9th are excessively "loyal," but not too much so as to prevent them cheating the government to a considerable amount.

Our Charleston correspondence shows that the work of registration has already begun in that city.

Yes, while free schools are being established for the niggers in the South, by the power of the sword, the same power is depriving the white children of the north, of that benefit.

"LOST OR STOLEN."—The Senate Committee of Finance are said to have made the discovery that during the past year there were lost from the office of the Register of the Treasury, on one occasion, public securities of the value of \$1,200,000, and on another of the value of \$30,000.

Horace Greeley, Speaker Colfax and family, passed over our railroad to New York, last week, in one of the gaudy private cars, built for the "government" at an immense expense.

Mr. BIGHAM announced the death of the Hon. George Davis, for twelve years a State Senator, and offered a series of appropriate resolutions; which were adopted.

"PASSING AWAY."—The old "Democrat" institutions about Washington are rapidly passing away.

It is very strange that the abolition Senate managed to worry along with this "old Democratic institution," for four years, and until Monday of last week!

One of the correspondents of the New York Tribune, who was a prisoner in the South, and escaped, says, through the Tribune, that the reason there is not a general exchange of prisoners is entirely owing to Secretary Stanton, who is opposed to exchange at all, but submits it partially to hoodwink the people whenever there is a draft.

To do things in accordance with well established forms of monarchical and tyrannical governments, the inauguration of old Abe could not be allowed to pass off without an "attempt at assassination."

The Grand Inauguration Ball at the Patent Office building, Washington, last Monday evening, was a brilliant success.

Yes, the ball, the supper, the dance and all, were no doubt "elegant." The hundreds of thousands of suffering widows, orphaned children, and childless parents, won't think it very "elegant" however.

A SECOND SOLOMON.—In Quincy, Illinois, lately, two men claimed a calf. Both proved their ownership in the living veal, by clouds of witnesses, and the botched judge decided to place the calf on the street, at an equal distance from the home of each claimant, and let him go home.

Could it be Floyd, the thief, as he is dead.

Pennsylvania Legislature.

The Legislature re-assembled at Harrisburg, on Tuesday last, after its inauguration spree at Washington.

Mr. BIGHAM announced the death of the Hon. George Davis, for twelve years a State Senator, and offered a series of appropriate resolutions; which were adopted.

Mr. FLEMING read a bill granting a pension to Andrew Croone, of Dauphin.

Mr. CHAMBERS, a supplement to the Bounty law, allowing an increase to \$450 to be made in Lancaster county.

Mr. NICHOLS called up the act to promote safety on railroads and to punish negligent and careless employees.

Acts were passed requiring brokers to pay additional license; Authorizing railroad companies to purchase connecting roads;

The evening session was occupied in the consideration of the bill repealing that which gave the proceeds of the public lands donated by Congress in July, 1862, to the Centre County Agricultural College.

Mr. BROWN stated that if any man was so simple as not to know that this was the opening wedge to the whole thing, he was too simple to bother.

In the Senate on Thursday, Mr. CONNELL presented a petition from members of the Philadelphia bar, asking for the passage of an act amending the law of evidence.

Mr. CONNELL called up the further supplement to the bill allowing joint tenants, tenants in common and other holding mineral lands, to develop the same, passed.

At the very moment, says a Washington letter writer, that Mr. Pomeroy was offering his resolution in the Federal Senate, to stop the facilities which army officers enjoy of procuring spirituous liquors, "ten per cent. of the Senate was on the verge of delirium tremens, and four per cent. of it had been dead drunk for three months."

The Washington Chronicle, speaking of the reception at the Executive Mansion says: "Many colored persons appeared to pay their respects to the President and lady, among whom were Fred Douglass and wife."

SINGULAR.—It is said that the rose of Florida, the most beautiful, emits no fragrance; the bird of Paradise, the most beautiful of birds, gives no song; the cypress of Greece, the finest of trees, yields no fruit; dandelions the thinnest of men, have no sense; and fall-room belles, the prettiest of creatures in the world, are very fond of ditto—only more so.

A REMINISCENCE.—From the News of Peace was Received in 1815.

The office of the old Gazette was in Hanover square, Boston, near the corner of Pearl street.

The gentlemen lost their breath as fast as the pilot gained his. Directly the pilot was able to say— "An English ship is below, with news of a treaty of peace!"

The windows flew up—for families lived there then. No sooner were the inmates sure of the sweet sound of peace, than the windows began to glow with brilliant illuminations.

No one engaged whether even the national honor had been preserved. The matters by which the politicians had irritated the nation into the war, had lost all their importance.

Never was there such joy in the city. A few evenings after there was general illumination, and although the snow was a foot deep and soaked with rain yet the streets were crowded with men and women, eager to see and partake of everything which had in it the sight or taste of peace.

THE OVERTHROW OF A GOVERNMENT THE WORK OF INFERIOR MINDS.

The fanatical Abolitionists of the North after years of persevering labor have succeeded in subverting the liberty of the white race in their mad zeal for securing the freedom of the black or inferior race.

It is very strange that the abolition Senate managed to worry along with this "old Democratic institution," for four years, and until Monday of last week!
