

## The Carbon Advocate.

H. V. MORTIMER, . . . . . EDITOR.

LEHIGHTON, PA.

SATURDAY MORNING JUNE 6, 1874.

### Emery vs. Tanite Wheels.

The Tanite Co. takes this means of assuring the Public that even the possession of Patent for a Perfect Solid Emery Wheel would not suffice for the successful introduction of the goods, unless the Patent was backed by expensive Machinery, by years of experience, by chemical and mechanical skill unfalteringly applied, by a wide practical knowledge of all the countless manufacturing processes of the day, and by the employment of men skilled in all the Manufacturing Arts.

The above is an extract from an advertisement in the Mauch Chunk Democrat of May 30th, and is conclusive proof that the Company is getting scared about the Emery Wheels manufactured by Messrs. Butterfield, Marsh & Co., at their works in Weissport. The advertisement in question shows in all its features a spitefulness of purpose against the Weissport Emery Wheels which the most obtuse individual could not fail to perceive; and the more especially is this feeling evident in the following paragraph from the same advertisement:

All these qualifications the Tanite Co. possess, and if users, would be users of Emery Grinding Machinery, want to avoid the failures, and obtain the advantages of such goods, they will buy standard goods of an established maker, regardless of price, rather than risk the poor economy of untried, low priced goods.

"Untried, low priced goods," is a decidedly cool expression, in face of the fact, that a test of the Lehigh Emery Wheel against the Tanite Company's and the Excelsior Wheels had just been made, and that the Lehigh came out ahead in all the tests made, which the following paragraph, copied from the Monroe Democrat, (the home of the Tanite Co.) of May 27th, abundantly proves:

THE LEHIGH EMERY WHEEL.—Mr. A. Marsh, formerly with the Tanite Co. of this place, was in town last week and paid some of his friends a visit. He had with him some of the Emery Wheels they manufacture at Weissport. The name of the firm is Butterfield, Marsh & Co. Mr. Butterfield was also formerly of the Tanite company they are both reliable men. A party of gentlemen tested the Lehigh Emery Wheel along with the Tanite Co's and the Excelsior Wheels, and of the three the Lehigh proved to be the best cutting wheel, on the tests they were tried. This new company no doubt make a superior article and we hope they may meet with much success. They merit it.

The advertisement of the Tanite Co. is too transparent not to be seen through, published here in Carbon County right after the tests of the wheels had been made, and when they were well aware that those tests had fully shown that the Lehigh Emery Wheel had proved a successful competitor.

### Philadelphia Letter.

PHILADELPHIA, May 29, 1874.

**PAID FIRE DEPARTMENT.**  
For many years this city possessed a volunteer fire department which was celebrated for its promptness and efficiency. Every company was independent in itself, and in the latter days of the department's existence, disgraceful fights frequently took place, and lives were lost on these occasions. The continued abuses that prevailed, led to the formation of the paid fire department, and now there is an effort to reorganize it also, on account of alleged irregularities in its management. The repairs to the apparatus cost more last year than would have been paid for entirely new engines!

It seems strange that so much dishonesty prevails among our public men. There are seven commissioners managing this department, and not one receives any pay for his services. The proposition now is to have a responsible head, and to give him a competent salary. By this arrangement it is expected that the department will be kept in better working order, and the expenses will be reduced. Our system costs far more than the London fire brigade, and the appropriations are increasing every year.

**BILLY STRIKES.**  
Philadelphia turns out a greater number of yards of carpet than any other place in the world. Many men and women have been constantly employed in the numerous mills, and the 19th ward was always bustling with the wheel of machinery. Recently some evil spirit seems to have taken possession of certain persons employed, and they determined to strike for higher wages. Not content with staying from work, they attempted to keep others from going to the mills, and in some instances they injured several by attacking them with cobble stones. The situation became so threatening that the police were obliged to protect the willing workmen from bodily harm, and comparative quiet has been restored.

How foolish it is for men to continue these strikes! The effect of the present movement is to stop some of the mills altogether, and to reduce the work in others, thus depriving Philadelphia of being able to boast that she is the largest carpet weaving city in the world. The war between labor and capital seems never to end.

The coopers and stavedores employed by the Atlantic Storage and Petroleum Company, six hundred in number, are on strike. The strike is not for higher wages, but has been caused by the company withholding \$3.00 per week from

each of their employees' wages until the amount reaches \$30, so as to preclude the men from striking. If any one left their employment without good reasons, he forfeited the \$30. The men have rebelled against this and hence the strike. They say: "We claim that we have as good a right to combine for our protection as the oil men have to combine to make a 'corner' in oil by stopping production, and thus advancing prices."

In New York 1,000 coopers are out of work from the same cause.

**IMPORTANCE OF MANUFACTURES.**  
The growth of cities is due to the number and variety of their industries, and to this cause our Northern and Western cities owe their great population. Philadelphia has 11,000 manufacturing factories, which turn out \$400,000,000 of manufactured goods per annum, and a population of a million, living in 120,000 houses, of which 40,000 are the residence of working people. There is hardly any city which cannot improve its condition by some industry. Since Chattanooga and Atlanta began to manufacture, they have made such distinguished headway that their examples second that of Philadelphia. The advantage differs in different conditions, but the principal remains and operates everywhere. Manufacturers will build up any city, and Philadelphia is the largest manufacturing city in the United States. This accounts for her prosperity and also her rapid increase in population.

**CURIOUS PERFORMANCES.**  
Signor Benedetti and Mr. J. B. Johnson, members of Schumann's Transatlantic Novelty Company have been astonishing our citizens by the difficult feats they perform. Signor Benedetti appeared before a large class at the Jefferson Medical College and performed some difficult feats of sword swallowing, thrusting as many as six swords in his throat at one time. Another feat consisted of thrusting a very heavy musket with bayonet attached down his throat, he swallowing the entire bayonet 16 inches in length, and then without placing his hands to the musket, he slowly bent his body until he let the weapon assume a horizontal position. He also swallowed a Spanish sword twenty nine inches in length. The opinion of the professors was that the blade displaced the stomach partially, tilting and passing on the left side of it. Mr. Johnson's performances include smoking, eating, and drinking under water, and remaining under the water for about three minutes at one time. All these performances he faithfully carries out. The smoking under water is done by inserting the lighted end of the cigar in his mouth and ejecting the smoke from his nostrils.

**SHOOTING CASES.**  
When will people learn that fire arms are not to be trifled with? Chas. Jetter, a young man much given to sky larking, called on Miss Lizzie Tampion, and while teasing her conceived the bright thought of original idea of pointing a pistol at her and telling her to "look out." Much to the surprise of Jetter the pistol was discharged wounding the unfortunate young lady. Charles immediately started for a physician, and a policeman in turn was soon desiring an "interview" with Charles. Miss Tampion will lose an eye and probably her life. Both parties state that the shooting was purely accidental, Jetter says "he was not aware the pistol was loaded."

We had another shooting case on Wednesday morning last, this time with murderous intent. Simon A. Franks shot his wife Christina three times, at their residence, 304 Green St. Jealousy was the cause, and the woman will probably die.

**FOREIGN FRUIT.**  
Our city has in the last few years become quite a port for the importation of Foreign Fruit. One firm with which we are acquainted are now receiving their cargoes a week of choice fruit from the West Indies. The Schooner Matoka recently arrived with 3,800 bunches of Red Bananas and 78,000 Cocoanuts. Of course this vast quantity of fruit is not all consumed here, but is re-shipped all over the country. Bananas are a very perishable fruit, and are not in much demand outside of large cities. As there at present no Government duty on this class of importations prices are low, and Bananas which formerly could not be purchased at retail for less than one dollar a doz., are now a drug here at 25 cents. Pine Apples, Oranges and fruits can be purchased at equally low prices.

**DEATH OF J. EDGAR THOMSON.**  
John Edgar Thomson, long and favorably known as the President of the Penna. Railroad, died at his residence in this city, at an early hour, on Thursday Morning, from a complication of diseases. Mr. Thomson has been at the head of the Penna. Railroad since 1852, and was considered one of the greatest railroad men of the world. The result of his administration of the affairs of the Pennsylvania Railroad Company is augmenting its business and establishing its credit is before the public. He assumed the duties of his office without a dollar in the treasury of the company, and now its financial resources are almost unlimited. The deceased was born in Delaware Co., Pa., in 1808 and at his death had amassed a large fortune.

Yours truly, Monoc.

### Philadelphia Markets.

Friday Evening, May 29th.

The money market, as we have noticed for some time past, continues very quiet at about former rates. Call loans rate at 4 to 5 per cent. First class mercantile paper ranges from 5 to 6 per cent. per annum.

There was considerable excitement in the Stock market and on Third street, owing to the death of Mr. J. Edgar Thomson, President of the Pennsylvania Railroad Company, and prices generally were unsettled.

About 30,000 shares of Pennsylvania Railroad sold, opening at 47, declined to 46, advanced and sold at 47, closing at 47, a slight advance on the opening. Reading sold at 55, no change; Lehigh Valley at 60, a slight decline; Oil Creek at 6, no change; Minehill at 53, no change; Catawissa preferred at 51, no change; and Little Schuylkill at 45, no change.

The Flour market continues dull, and prices are unsettled. Super-fine, \$4.75 to 5.50, extras, \$5.50 to 6.25; Spring Wheat, extra, family, \$6.75 to 7.50; and higher grades at \$8.25 to 10.25.

Wheat continues dull, and prices favor buyers. Common and Choice Red, at \$1.40 to 1.55; Penna. do do, at \$1.60 to 1.62; White Spring, at \$1.45; and No. 1 Spring, at \$1.43 to 1.41.

Corn is lower. Sales of 4000 bushels yellow at 84 to 85c.; 8000 bushels do at 83c.; 6000 bushels western mixed at 83 to 84c.; and 10,000 bushels on private terms.

Oats are less active. Sales of 4500 bushels western white at 60 to 68c.; and mixed at 65c.

Rye comes in slowly, and may be quoted at 98c. to \$1.

Cloverseed is dull at 8 1/2 to 10c. for fair to good, and 9 1/2 to 10 1/2 for prime.

The Butter market is quiet, receipts being lighter than usual at this season, but as the volume is increasing we look for a further decline in prices. We quote Bradford County Prime at 28 to 32c.; York state 28 to 30c.

Lard is firm; sales of western and kettle rendered at 11 1/2 to 12c.

Eggs are firm at 16 to 16 1/2 for State and Penna.; and 14 to 15c. for Western.

The New Hampshire Legislature convened on the 3d inst. In joint convention the committee for the count of votes for Governor reported the whole number cast last March to be 71,893; necessary for a choice, 35,947; scattered: 44; Blackmer, Prohibition, 2,097; McCutchins, Rep., 34,147; Weston, Dem., 35,608. There being no choice by the people, the convention proceeded to elect by ballot. The vote stood: Weston, Democrat, 182; McCutchins, Republican, 151.

Under the New Constitution and the election law passed by the last Legislature, of 1874, there are no longer any ten day assessments to be made. The county commissioners will soon send out copies of the new law to their assessors for information. The registration of voters is to be finished sixty days before the election, and to be returned to the commissioners, and taxes must be paid thirty days before the election. There are several other changes in regard to registration and voting.

The resignation of William A. Richardson, Secretary of the Treasury, has been accepted by the President, and Benjamin H. Bristow, of Kentucky, nominated for the position. Richardson is nominated to fill the vacancy in the Court of Claims.

The jury in the case of Wintermute for the murder of Gen. McCook, in Dakota, in September last, returned a verdict of manslaughter in the first degree, after being out 21 hours.

The Republican State Convention will meet at Harrisburg, on Wednesday, August 19th.

### NOTICE is Hereby Given.

That an Application will be made under the Act of Assembly of the Commonwealth of Pennsylvania, entitled "An Act to provide for the Incorporation and Regulation of certain Corporations," approved April 24th, 1874, for the charter of an intended corporation to be called "The Lehigh Valley Emery Wheel Company," of Weissport, Pa., the character and object of which is to Manufacture Emery Wheels and Artificial Stones of all kinds, and Machinery of various descriptions for the purpose of Mounting the same for use, and for these purposes, to have and possess and enjoy all the rights, benefits and privileges of the said Act of Assembly.

June 6th, 1874.—w3

### WONDERFUL, BUT TRUE!

Whenever I get a Bottle of Bloom of Youth or Magnolia Balm, Rose Tint, a Box of Lilly White, or anything in that line to beautify the complexion, at Durling's Drug Store, it seems to be nicer and better than I can get anywhere else.

**JUST** look at her Hair! Why I thought it was turning Grey? So it was; until she got a Bottle of that new Hair Restorer at Durling's Drug Store.

### WASHING MACHINES.

We have for years been watching all improvements in Clothes Washers, hoping to find a real labor-saving and practical machine—one worthy to be classed and sold with Colby's Premium Wringer. It has been our determination to offer our friends and customers such a Washer as soon as found, and to have nothing to do with Washing Machines till we had one right in every particular. And not till we obtained the

### Colby Little Washer!

have we seen one which would answer all our requirements. At first sight of this little machine we were impressed of its usefulness, and expected much from it. All our trials, experiments and investigations have only strengthened our opinions. We have improved it in many respects, and now offer it as the

### Best Washer in the World.

It has been put to every test, and comes out of every trial with uniform success. It is winning new honors and highest praise as fast and as far as it becomes known, being everywhere declared the most Perfect Practical Washing Machine made. It is easily worked, light to handle, can be attached to any tub and removed in one minute. It costs only Five Dollars, and we urge our friends everywhere to try it. Manufactured by the COLBY WRINGER CO., Waterbury, Vermont.

GEO. SCHOONOVER, Agent,

### HOME LIFE

### IN THE BIBLE.

By the author of "Night Scenes in the Bible" and "Our Father's House," of which nearly 200,000 have been sold. "Home Life" is commended by ministers of all churches as "the author's best book," "full of precious thoughts," "Truths precious as gems," "a choice book for every family," &c. Best engravings, rose tinted, paper, binding, and for rapid sale unsolicited. AGENTS, YOUNG MEN, LADIES, TEACHERS and CLERGYMEN, wanted in every county; \$75 to \$150 per month. Send for circulars.

SUBSCRIBER'S NAME

615 Arch St., Philadelphia.

### New Advertisements.

### AGENTS WANTED FOR

### Prof. FOWLER'S Great Work

On Manhood, Womanhood and their Mutual Inter-relationships; Love, its Laws, Power, etc.

Agents are called for from 15 to 25 copies a day. Send for prospectus in packs and terms to Agents, and see why it sells faster than any other book. Address, NATIONAL PUBLISHING CO., Philadelphia, Pa.

### THE AMERICAN

### Loan and Trust Company

OF LEAVENWORTH, KANSAS.

CAPITAL—\$500,000.

Will negotiate LOANS ON IMPROVED REAL ESTATE worth at least twice the amount loaned thereon.

Interest 12 per Cent. per Annum.

Collections of Principal and Interest Guaranteed.

Principals and interest payable in New York if desired. Send for circular. Address, G. A. MOORE, Sec., Leavenworth, Kansas.

### THE LAST NEW BOOK OUT.

The subject is all important, yet a puzzling one. It replenishes the Government Treasury and impoverishes the people; makes the rich poorer and the poor richer; makes fools of wise men; exhibits the wisdom of Legislation; makes men run mad and women feel sad. The crusade has begun; on to victory. Men or women wanted to canvass every town. Address, L. STEADMAN, Hartford, Ct.

### FLORENCE

The Long-continued Sale of the

FLORENCE SEWING MACHINE CO.

against the Singer, Wheeler & Wilson, and Grover & Baker Companies, involving

Over \$450,000.

Is finally decided by the

Supreme Court of the United States

in favor of the FLORENCE, which alone has

Broken the Monopoly of High Prices.

### THE NEW FLORENCE

Is the ONLY Machine that sews backward and forward, or to right and left and SIMPLY—CHEAPEST—BEST!

SOLD FOR CASH ONLY. SPECIAL

TERMS TO

Clubs and Dealers.

April, 1874. FLORENCE, MASS.

### 1874

### "DOMESTIC"
