Resigned.

Mr. Samuel Thomas, the popular President of the Thomas Iron Company, at Hokendauqua, we understand has resigned said position. Mr. Thomas intends visiting Europe, and will probably be absent several years. He is a son of David Thomas, the pioneer in the manufacture of anthracite iron in the Lehigh Valley, and was one of the originators of the Hokendauqua Company. Through his able management the Thomas Iron Co. has become one of the most prosperous in the State, and the Works the most complete in the Lehigh Valley. His many friends will wish the retiring President a pleasant voyage and safe return home.—Allentown Democrat.

Bloomington Trout Pond.

Within about 8 or 9 miles of this place, is a beautiful and romantic place, a very Paradise for sportsmen, and is called, and better known as Dreisbach's Dam, and is owned by Dreisbach & Beck. The dam is one mile in length, and at some points, 400 feet wide. They have a beautiful meadow all covered with water. The water is about 12 feet deep, and is full of very fine trout. It is the resort of a great many of the disciples of Sir Isaac Walton, from New York and Philadelphia.

This dam is surrounded by beautiful trees of different varieties, and the woods in close proximity, abound with game, and it is not only a good place to fish, but an excellent place for hunting, in the proper season. There are 8 springs of excellent water, three of them beautiful Sand Springs within the bounds of the lands surrounding the dam.

The proprietors contemplate forming a large Park for fishing, hunting and sailing purposes, and think of erecting suitable buildings on the grounds, for refreshments, &c., and enclosing the dam and forming a park for Summer. To accomplish this purpose they will issue a number of shares at \$50 each, and after disposing of them, will form an Association of share holders, who shall open the place for visitors during the Summer, and offer all its advantages and attractions to ladies and gentlemen from the towns and cities, who may visit the place for a certain length of time, at a nominal rate. They think the park would be crowded with visitors.

They purpose closing the dam next August, and keep it closed for several years, to give the fish and game an opportunity to "increase and multiply," after which it will be formally opened.

Mr. C. W. Moister is the agent for the proprietors, and will offer shares to our citizens soon. The following plan for the payment of shares has been proposed: 10 per cent. on organizing the Association; 15 per cent. in 30 days thereafter; 25 per cent. in sixty days from payment of second instalment, and 25 per cent. of balance every 60 days until full amount shall have been paid. After the payment of the first 25 per cent. of

amount, a deed of the property will be executed in favor of the share holders. Persons desirous of availing themselves of the opportunity to fish with the fly will please do so before the 1st of July, as after that no more fishing or hunting will be allowed, until the time specified has expired. The roads leading from Mauch Chunk and Tamaqua are in excellent condition, and it is a beautiful drive from here to that place. Each person is furnished with a boat, and allowed to fish 3 hours for \$1.50 in this dam. Judge Strong, of Philadelphia, caught 53 trout in 3 hours last season, and they footed a total in weight, of 43 pounds.

We think this an excellent opportunity for our citizens to secure a perpetual title to splendid skating, hunting, and fishing Park; where their friends, after a brisk drive of an hour, in Winter can have real sport in skating, and in the Fall season they can take a chance at the rabbits, pheasants, ducks, otter, &c., that are so plenty in that vicinity.—Tamaqua Courier.

A Terrible Thunder Storm.

A terrific thunder storm passed over Wilkes-Barre, Monday afternoon, causing considerable damage. George Werner, a miner in the Moffit mines, was struck by lightning, when a mile and a half under ground, and severely, though not fatally injured. The lightning followed the railroad track into the mines. A workman in the gas house was also scorched by the lightning. The Memorial Church was struck, and the roof end somewhat shattered. The South street wire bridge seemed to be a blaze of fire for a short time.

The telegraph office in the First National Bank was visited by the fluid, and the operators considerably frightened by balls of fire which in quick succession entered by the wires and harmlessly exploded. During the storm the wind blew down the scaffolding around the Court House, and it fell with a terrible crash. Hundreds of trees all over the city were either uprooted or broken, causing a complete blockade of some streets. The storm lasted but 15 minutes, the thermometer before standing at 100° in the shade. It afterward fell to 80°.

Our School House for Church Purposes.

To the Editor of THE CARBON ADVOCATE:
Sir,—I would like to ask through the medium of your columns why a room in our school house was refused to the Evangelical body of this place? I have been informed that an arrangement had been made to allow them to have it at \$81.00 per year, and afterwards refused; for what reason we have not been able to learn. No doubt the School Board know. It seems to us that our taxes will be sufficiently oppressive to justify our School Board in using all reasonable means to make them easier. We do not think that the building would materially suffer by such an arrangement, any more, if as much as by letting the Hall for lodge purposes; and yet if we are not much mistaken they were willing to do that. We are not a member of the body in question, but as one only indirectly interested, we ask for light on the subject. The Board can doubtless give it; at least, the refusal to adopt my reasonable measure to lighten the taxes should be followed by an explanation.

Call and see the original and only worm destroyer, or send for a circular which will give a full description and treatment of all kinds of worms, enclose 3c. stamp for return of the same. Dr. E. F. MERCHANT TAILORING.

When in the course of wear and tear of every day life it becomes necessary to dissolve our connection with the suits that have done us so much services in keeping us warm and free from exposure, there is one place where we can find consolation and a friend indeed in our distress. Yea, a place where we can safely put our trust—where there is no need of fear that we shall be cheated, unsuited or unsatisfied—where the fabric is strong and the manufacture superb—where the prices are just and the style all that can be desired. There is a charm about an easy, glove-fitting, elastic suit, that is seen and observed by all men. "Where did you get that superb suit of clothes?" "Where did you secure such a splendid fitting garment?" is often asked. There are many tailors, and a number of them are undoubtedly fair samples of the genus homo and also a credit to the craft; but how generally tailors fail in the fitting of garments to the human form; how often a good piece of goods is spoiled in the fit; how sadly and dejectedly many a man wanders about the streets, feeling the shame the tailor has caused him, in allowing a poor job to go out of his shop, and he the wearer of it! Perhaps his lady love has even jilted him in consequence of his forlorn appearance. "Dress makes the man; The want of it the fellow." Not that a man is less a man for wearing plain clothes, but when he is "dressed up" he should indeed be dressed not having his clothes hang like bags around him, and wrinkled and distorted in all sorts of shapes, but that he should be clad in fitting garments. Taste should be shown both in the colors and make-up of his suit. Many high priced goods are as such outlandish colors and styles that a man's character is judged by his foolishly selecting those odd goods. A man is known by the company he keeps, and if he insists upon fraternizing with ill-looking and ill-fitting clothes, he will not make his "mark," as a man of taste, that's positive. To be looked upon as possessing the requisite attainments of a tasty gentleman, he must select cloths of suitable colors for his clothing and have them made up in first-class style by Laury & Peters, (post office building), Lehighton, Pa., who have a splendid stock to select from, and where you will obtain that symmetry of fit so necessary to the adornment of the person. Call and examine the most beautiful assortment of cloths, cassimers and Vestings, ever brought into Lehighton, and leave your measure with Laury & Peters. March 14, 1874.
