LEHIGHTON, PAS SATURDAY MORNING AUGUST 22, 11874.

A National sportsmen convention will be held at Niagara Falls on the 16th of September 1874, and an invitation is extended to editors and sporting men generally to attend. This convention was fixed by the N. Y. State sporting convention at its late meeting in Oswe-

Four persons were killed and 19 others wounded by an accident on the Pa Railroad, near Trenton, on Saturday night. As the wrecked train contained 500 people, it was not the fault of the man who misplaced the switch that more lives were not lost.

The Jeffersonian thus speaks of our estimable citizen, A. J. Durling, the next member of the Legislature from this district: "A. J. Durling, of Lehighton, a Stroudsburg product, is spoken of as the Democratic candidate for the legislature for Carbon county this fall. If a Democrat is to be chosen from that county, which we very much doubt, we would as soon see Andrew elected, as any one that we know of."

The Republican State Convention assembled at Harrisburg, on the 19th inst , and after an animated discussion J. S. Rutan of Beaver county was elected permanent President, with one Vice President from each Congressional District. The Hon. E. M. Paxon was nominated for Judge of the Supreme Court on the first ballot. A. G. Olustead of Potter county was nominated for Lieutenant-Governor on the third ballot. The Hon. Harrison Allen of Warren county was unanimously nominated for Auditor-General on the first ballot, and Col. R. B. Beath of Schuylkill county was nominated by acclamation for Secretary of Internal Affairs.

The proceedings of the Investigating Committee examining the charges of Mr. Theodore Tilton against the Rev. Henry Ward Beccher, have been made especially noteworthy the last week by the presentation by Mr. Beecher of his statement of all the facts in the case. He traverses the entire ground, gives explanations to his letters, puts in a definite and unqualified denial of each and every charge. He further explicitly charges Mr. Tilton with having blackmailed him through one F. D. Moulton, to whom he says he has at different times paid money to the amount of \$7,-000. It is expected that the present, or at the farthest the ensuing, week will give the public the conclusions of the Committee.

## Charlie Ross.

A Philadelphia dispatch dated August 19th says, an extensive correspondence by telegraph has been progressing between Mr. Ross and the authorities at Odell, Ill., regarding the child there supposed to be Charlie Ross. A number of inquiries were put to the child, but his answers were so unsatisfatory that it was resolved to have his photograph sent here for identification by the father and mother before taking further steps in the matter. The photograph cannot reach here before to-morrow, if taken promptly. The parents have been so often excited by false hopes that they have no expectation that this supposed discovery will lead to any better result than those which have preceded it. Lewis Durgan, the man arrested at Odell. proves to be, in fact, a resident of this city, who formerly owned and drove an express wagon. He has telegraphed to his friends here for credentials as to his character, Durgan some time ago went on a visit to the West, taking with him his housekeeper, a Mrs. Coles, and two children of James Henderson, now employed on the steamer Edwin Forrest. Mrs. Cole holds the relation of aunt to these children, one of whom is a girl named Alice, and the other a boy named Jimmie, who was mistaken for the lost Charlie Ross. Like nearly all children of his tender age, Jimmle wore a frock, and this may have been regarded by the Western folks as evidence of an effort on the part of Mr. Durgan to conceal the boy's

On June 8 the Italian vessel Napoleon Camarero sailed from Macao with a crew of forty men, and having on board 663 coolles for Callo, and 8,000 packets of fireworks. After a lapse of two days, the interpreter discovered a plot among the emigrants to seize on the ship. The captain immediately ordered one-half of them to be confined in the hole, but the next day those who remained on the deck armed themselves with knives, balaying pins, pieces of wood-in short, anything they could lay their hands on, and attacked the crew, who defended themselves with muskets and revolvers, The coolies

the pumps to extinguish the flames. During that time they had also freed their comrades, and murdered the few sailors they could get hold of. The captain, seeing what they were doing, ordered the boats to be lowered and left the ship with the remainder of his men. Some sailors who remained on board, with the doctor, the magazine-man, and the interpreter, were unable to prevent the flames from reaching the fireworks, and the ship blew up, scattering the fragments of the mutineers in every directon, under the very eyes of the escaped crew.

#### Mountain Grove.

To the Editor of THE CARDON ADVOCATE: On Saturday morning a trio of us left home on the 11.00 passenger train, on the L. V. R. R., bound for Mountain Grove camp ground. After passing up the valley to Hazleton, and thence to Tombicken, we reached the D. H. & W. R. R., which winds its way down a slight grade, through a very rugged and romantic valley, running along the mountain slope; the scene is delightful, a magnificent stream of water, clear as crystal, flows along the base of the mountain studded on both sides with majestic pines and hemlocks, some of which look as though they had stood the storm of ages. Hurrying along, we pass Gowen, and Rock Glen, and reach Wolfton at 2.12 P. M. which station is on the edge of the grove in which the camp is held. A description of which I will attempt to give you. From the station there is a fine foot-walk, 6 feet wide, all the way into the camp ground, a distance of about 1500 yards; at the terminus is the Secretary's office, Telegraph office and barber shop; on the left side, a little further on, is the boarding housethis is a large two-story building, the first floor is used for a dining ball, in which 300 persons can be seated at once; the second floor is used for lodgings, on the right of the terminus of the walk is the entrance to the camp, which is composed of 52, 2-story houses, 20 by 25 feet, built so as to form a hol-low square—all fronting inward. In the center of the lower side is the Preacher's stand, in front of which are arranged seats capable of accommodating over 2000 persons. From the upper side of the square there are avenues running out, on which there are houses on both sides, the houses all being givided into four departments, at the end of the centre avenue the tabernacle is located, which is a building about 50 by 150 feet; in this building the smaller meetings are held being well shaded by heavy timber, principally chesput, and is bountifully

supplied with water. The whole arrangement is complete and certainly reflect great credit upon its managers, and most especially upon the worthy secretary, G. M. Shoop, of Danville, who appears to be the leading spirit in the management; his untiring efforts has left nothing undone to make it a success—for a success we pronounce it in every way, both spiritual and tem-poral. Having arrived at the ground, we wended our way into the camp in search of the secretary, who had se-cured accommodations for us during our stay, but learned that he had gone down to Danville, and would not return until 6.30 P. M., but that lodging had been secured for us at the Mountain Grove House, a public temperance house on the outer edge of the grove, which is also owned by the association —their charter forbids the sale of liquor within 3 miles of their grounds; having learned this, we proceeded to the childern's meeting which was then being held, conducted by Bro. Howk; after which we enjoy sermon, by Bro. E. J. Moore, from the text "And devout men carried Stephen to his burial," followed by an exhor-tation from Bro. Creighton, formerly pastor at Danville. We then went to the Mountain Grove house and had tea; after which we returned to camp, and attended experience meeting; which attended experience meeting; attended experience meeting; which was followed by a public service, conducted by Bro. Stein, who delivered an able discourse from the text "Mary hath chosen the better part," Prayer meeting followed the public service, at which two ladies, were converted. Afwhich two ladies were converted. the service was ended, we were conducted to our quarters by Bro. Shoop, he having arrived on the ground during the evening, as also did another of our townsman, thereby forming a quartette from the Lehighton M. E. Church. After enjoying a night's rest, we are at 5.30 a. M., proceeded to camp, and attended the 6 a. M. meeting; after which we were met by our friend and guide, G. M. Shoop, who took us in charge, and during our stay left nothing undone to make our visit as pleasant as vessible, for which we for ant as possible, for which we feel deep-ly indebted to him. At 8 a. m. a general experience meeting was hold; and here a scene took place which pen cannot describe; an aged lady, Sister Ger hardt, was relating her experience stating that she had been 60 years in the service of the Lord and in the church, and while she was exhorting the young people to serve the Lord an aged man came tottering out of the aged man came tottering out of the crowd towards her; they metin front of the preacher's stand, where they fell upon each others neck and wept, prais-ing God; when one of the ministers arose and announced that they were brother and sister. The aged brother as helped upon the stand, and he related his experience, having been a fol-lower of Jesus for 65 years, and a

class leader for 40 successive years. We afterwards learned that his name was

Bowman and an uncle of Bishop Bow-

man. The experience meeting was followed by public worship, when one

that the crew would set to work at the text, "Things present," which was listened to by an audience of over 3000. At one P. M., both old and young, assembled as a Sunday School, the exercises being conducted by Bro. Howk, assisted by Bros. Evans and Dormett; at 3 P. M., we had another good sermon delivered by Bro. DeMoyer from the text "Having, therefore, brethren, boldness to enter into the holiest by the blood of Jesus." A young peoples' meeting was held at 6 P. M., conducted by Bro. Howk, who appeared to be the leading spirit among the young folks; after which public worship was conducted by Bro. Riddle, pastor of Dan-ville church, who delivered an able dis-course from the text, "For whatsoever a man soweth that shall be reap." Prayer meeting was held after service. during which ten penitents presented themselves at the alter. Thus ended the Sabbath. Having enjoyed a good night's rest, we arose as 5.35 A. M. and wended our way to the campagain, and attended the 0 A. M. meeting; after which we partook of a hearty breakfast, and proceeded to the depot where we took leave of our friend Shoop, who, we are sorry to say, was suffering from a severe cold and was compelled to go home, but we hope that he will speedily recover that he may return to the camp and enjoy the results of hislabor. At 8 50 A. M., we took our departure for home, where we arrived just in time for dinner, feeling that we had been enjoying ourselves in a profitable manner. In conclusion, we would say that all of the arrangement at Mountain Grove are complete and the services well conducted by the very able Pre-siding Elder, Buckingham.

Yours,

# Philadelphia Letter.

PHILAPELPHIA, August 15, 1874. After several weeks of pleasant weather, the thermometer has again gone up among the nineties, and our citizens experience much discomfort from the intense heat. Each departing train and boat carries a way with them sweltering humanity, who go to join the thousands who are rusticating in the mountains

THE ZOOLOGICAL GARDEN in our Park has, since it opened, received a number of consignments of animals from different parts of the world. Six giraffes were recently added to the col-lection. These animals were captured in the interior of Africa, by a band of hunters, composed of upwards of one hundred men, who make a speciality of securing these animals. The giraffes arrived in good condition, and average from six to twelve feet in height. They are from one to two years of age, and cost \$3,000.

The success of the Zoological Garden has exceeded the expectations of its most sanguine projector. Over fifty thous-and persons visited it last month, and ociety contemplate making extensive improvements at an early day.

THE CHILDREN'S EXCURSIONS
are still being carried on, and are productive of much good. On Wednesday last, the largest excursion of the season took place. No less than 1438 persons, including 400 bables, went out to Rockland and spent the day. As on previous occusions there was a band of the season previous the season previous there was a band of the season previous the season previou occasions, there was a band of music which played frequently during the day, and appreciative audiences delighted by three "Punch and Judy" performances A larger amount of re-freshments were issued than at any of the other excursions, the report showing the issue to have been as follows: 1525 buttered buns, 1525 sandwiches, 175 pounds of sponge cake, 240 pounds of ginger cake, 280 quarts ice cream, and 1525 bags nicknacks. Also, a large quantity of milk.

THE PRESENTERIAN HOSPITAL has been a "new departure" in that construction of hospital buildings. It was found, during the war, that patients, who were under the surgeon's care. were more likely to recover when treat-ed in a hospital tent, than when treated in a closed building. Their recovery was attributed, in a great degree, to their having perfect ventilation and the patients not being crowded together. The trustees of the Presbyterian Hospi-tal are building a one-stary resulting by Bro. Howk; The trustees of the Processory pavilion ed an excellent tal are building a one-story pavilion that ward upon their grounds. They have contracted for a building which will ac-commodate from 28 to 32 beds, giving to each bed 1500 cubic feet of space, with a window on one side. The building will be of brick, 143 feet in length, and with the first floor five feet above the ground. There are at present about

fifty patients in the hospital.

This hospital, although carried on by
the Presbyterian denomination, is open for the reception of patients of any race, creed or color, from any portion of the State.

THE JEFFERSON MEDICAL COLLEGE has been neatly fitted up and repaired, preparatory to the opening of the Fall session which commences on the 7th of beptember. The dissecting room has also received a number of improvements. In consequence of the recent election of Dr. William Paneoast to the chair of anatomy, this department of instruction will devolve upon Dr. Thomas H. An-

The University of Penna. (Medical Department) has completed their new buildings in West Philadelphia, which are imposing structures, and are quite an ornament to that portion of our city. Preparations are being made for a large class of students, and the indications thus far are very favorable in tha

BASE BALL IN ENGLAND. The Athletic and Boston base ball clubs have created quite an excitement in England among the sporting classes. Base ball, although much played in this country, is little known in Europe, and the game being a novelty, has drawn large crowds. The Englishmen, very generously have given the visiting clubs all the gate money which has been re-ceived, and there is no doubt but that our clubs will find their visit a paying The London newspapers speak very highly of our ball players, and take great interest in the matches which they are playing. The Athletics return home about September 1st.

CENTENNIAL NOTES. then massed themselves on the forecastle and set fire to the vessel, hoping Dickison Seminary, Williamsport, from The Centennial Committee of the Independent Order of Bhai Brith have approved of a design for a monument to

be executed in Rome, by Mr. Ezekiel, a young American sculptor, of Cincin-nati, and unveiled in Fairmount Park during the Centennial celebration, and afterwards removed to Washington, to be placed in the Capitol grounds, as a free-will offering of the Israelites of America to the cause of liberty and re-

The work of construction at the Centeunial grounds is progressing rapidly, and the number of men employed is be-

ing gradually increased.

Proposals were invited for furnishing the wrought-iron beams needed in erec-ting Memorial Hall. Beams of foreign make were offered, at one half the price of American beams, but preference was given to our home made iron, as it is intended that the Centennial buildings shall be constructed of American ma-

Yours truly, Monoc.

# Philadelphia Markets.

Friday Evening, August 14th. The money market is moderately ac-tive but easy in tone for first-class bor-

rowers. There has been some little improvement in trade circles since our last re-port, and the merchants are as hopeful as ever of an active and satisfactory fall trade. The harvest has proved most bountiful, and with an abundance of capital at low rates of discount there can be no impediment to a large distri-

bution of merchandise.

The Flour market has been unmis-The Flour market has been unmistakably dull during the week, and at the close the medium and low grades dropped off 25c. per bol. Superfine, \$3 50 to 4 25; extras, \$4 50 to 5 25; Sp'g Wheat, extra family, \$6 00 to 6 50, and his her grades at \$8 to 9.

The receipts of Wheat continue libberni and being largely in gross of

The receipts of Wheat continue lib-beral, and, being largely in excess of the demand, prices have again fallen off 2 to 3c. Sales of 35,000 bushels, at \$1, 20 to 1.30 for common and good new red; \$1.35 to 1.40 for new amber, \$1.50 to 1.55 for choice old amber, and \$1.35 to 1.55 for new white.

Corn is firm. Sales 140,000 bushels southern and Pennsylvania yellow at 80 to 84c, and western mixed at the same figures.
