She has left seven children and a large number of friends to mourn her early death. **A New Lead.**

How many times does 50 go into 250,000! It goes 5,000 times. Well, that is a good per cent. even for California. Will the best "lead" ever pay as much? Certainly not. But there are strong probabilities that an investment of fifty dollars made in the last Grand Gift Concert, in aid of the Public Library of Kentucky, will pay that per cent. to somebody. Why not to one of us? And then we have only to wait till the 30th of November for the result.

**Lehighton Institute.**

The Institute was called to order by the president. Opening exercises conducted by Mr. Barnett. The roll called, Messrs. Barnett and Allem, and Misses. Weaver, Yarnal and Nead responding to their names. The minutes of previous meeting read and approved.

Under general exercises Messrs. Barnett and Allem and Miss Nead gave short accounts of different schools they had visited, the reports were both interesting and beneficial. Mr. Barnett thought it were well if all teachers would visit schools whenever an opportunity would present itself.

The subject of Primary Arithmetic was next taken up, it was thought best to teach but one figure at a time, when pupils know nothing at all of numbers. Addition and subtraction to be taught together by means of subjects. Geography being next on the programme, Mr. Allem opened the discussion; by request, he gave the Institute his method of teaching map-drawing, he said he first required pupils to draw rivers, lakes, islands, mountains, &c., separately, then combine them and form outlines of counties. After which followed a discussion on the value of mental science to the teacher, to orator, as relating to our own personal interest, and as a mental discipline. A referred question. What constitute man? elicted an interesting discussion from nearly all present; some taking the ground body and soul, others body and spirit, and others body, soul and spirit.

Adjourned to meet Saturday Oct. 24., 1874.

**Hook & Ladder Co's Ball.**

The Initiation ball of Lehigh Hook & Ladder Co., in the new school hall, on Friday evening of last week, was a success. Among those present were a large delegation from Mauch Chunk, Catasauqua and Allentown; all of whom agreed that it was one of the most pleasant and agreeable affairs they had attended for a long time. The music furnished by the Eureka Orchestra, of Allentown, was of the very best, and elicited the admiration of the entire assembly. The Company "tripped the light fantastic toe" until about four o'clock in the morning, when they dispersed highly delighted with the night's entertainments. During the evening a beautiful prize cake, presented by Mrs. T. S. Beck, was disposed of—33 tickets being held at 25 cts. each; J. W. Raudenbush proved to be the holder of the lucky number, and received the prize a handsome 18 caret gold ring; another cake, presented by Mrs. Dr. N. B. Reber, was also disposed of, Miss. Hoxworth, of Allentown, holding the lucky number.

**Pursuing a Horse Thief.**

A dispatch, dated Milford, Pa., says: On the 4th inst. a young man named John Hurbut of Carbondale hired a $500 horse and carriage at Williams's livery stable, in Olyphant, below Carbondale. He said he was going to Scranton. Subsequent circumstances led the proprietor of the stable to believe that Hurbut intended to steal the property. Williams started in pursuit of him on the 5th. The country was searched for fifty miles around, but no track of the thief or property was found until Saturday last. The trial was followed to Ira S. Rosencrans's, twelve miles west of Milford. There Hurbut had traded horses with Rosencrans and started on. He was traced to Lackawaxon, on the Erie Railway; thence down the Delaware and Hudson Canal to Summitville, Sullivan county, N. Y. The pursuers were a week behind time. At Summitville he traded off the horse and carriage for a silver watch. The horse was there, but the wagon had been sold some days previous to a stranger passing through.

After disposing of the horse and carriage, Hurbut went to Wentsboro, where he was arrested for drunkenness, and sentenced to twelve days in Monticello jail. His pursuers went to that place yesterday, to have him arrested for horse stealing, his time lacking two days of expiration. Arriving at Monticello, it was learned that Hurbut's sentence had been remitted about two hours before, and that he had quit the place. He was traced to Middletown, and thence into Sussex county, N. J., where his track was lost. He is a notorious horse thief, and is believed to be a member of a gang who are operating in northwestern Pennsylvania and southern New York. Jim Reed, proprietor of a hotel at Summitville, has been arrested and lodged in Monticello jail, on charge of being a member of the gang. It is believed that he receives the stolen property and disposes of it for the gang. Several thousand dollars worth of horses and wagons have been stolen in this region during the past few months. Several missing horses have been traced to the neighborhood of Summitville and Wentsboro. A reward of $300 is offered for the arrest of Hurbut.

CONSUMPTIVES and those who experience any difficulty with the throat, lungs, or any of the respiratory organs will consult their own interests by calling at the drug stores of C. W. Lentz and A. J. Durling, and inquiring about Dr. Morris' Syrup of Tar, Wild Cherry and Horehound. The medical excellencies of these vegetable productions are well known. Their curative principles have been carefully combined by the most painstaking scientific process, with many other vegetable ingredients. This remedy possesses, in a highly concentrated form, the very essence of some of the most infallible pulmonic simples known to medical botanists. It is a positive remedy for croup. For sale by all dealers. Sept. 17th, 1874.-ly.

## Special Notices.

**A SUBSTITUTE FOR QUININE.**—For years, quinine was regarded as the only specific for malarious diseases and immense quantities of the drug were annually consumed throughout our western country, more particularly along the river bottoms and adjoining low lands.

With the fall months malaria, in all its varied forms, stalks like an epidemic through the land, and whole districts are prostrated with chills and fever, the entire population shaking with ague. Heretofore, quinine was regularly resorted to; but while it frequently failed to effect a cure, it invariably deranged the stomach, producing nausea, vertigo and fugitive pains in the head to such an extent that months elapsed ere the system recovered from its effects. These objections to its use were so marked, that the introduction of Mishler's Herb Bitters was hailed as a triumph in medicine. Infinitely more certain in its beneficial effects than quinine, it possessed none of the demerits of that drug. Instead of nauseating, it tones and invigorates the stomach, and while speedily expelling the noxious humors, increases the appetite and facilitates digestion; thus rendering the system stronger, and better fitted to resist the attacks of disease. In fact, a judicious use of Mishler's Herb Bitters at this season of the year, will prevent the recurrence of this disease, even in those who have never passed an autumn without it. An experience of twenty years proves it to be the greatest ANTI PERIODIC known to medical science.

There are, perhaps, no diseases so subject to climatic changes as affections of the Kidneys. Hundreds of our farmers, mechanics, and laboring men, strong and hardy in all other respects, suffer continual inconvenience, and occasionally excruciating pains in the back and across the loins; experience a frequent desire to pass water, pain during its passage, and frequent stoppages in its flow. These are manifestations resulting from some strain or heavy lift (perhaps years ago), and aggravated by every change in the weather. Every slight cold flies direct to this one weak spot, and unless promptly attended to the disease becomes chronic, and the once strong man a miserable wreck. Mishler's Herb Bitters is the *only certain* remedy for this class of diseases. It has a peculiar tendency to the kidneys, stimulates them to healthy action, and removing the cause, prevents the formation of brick-dust deposits, which, if permitted to continue, will by cohesion form gravel stone, necessitating a painful operation for its removal. Many of the ingredients entering into its composition, are universally recognized as specifics for all complaints of the urinary organs. In Liver Complaint, Dyspepsia, all disorders of the Bowels, and affections of the Throat and Lungs, it is equally certain and efficacious; while, as a remedy for the complaints peculiar to the female sex, it has no equal. LADIES, old and young, married and single, in every condition of life, will find this GREAT FEMALE REMEDY *prompt, safe, certain and reliable*. The pale, sallow complexion is replaced by a blooming, healthful countenance, and its occasional use enables Nature to perform her functions REGULARLY AND WITHOUT INCONVENIENCE. Sold only in bottles by all Druggists and general dealers. Aug. 8-4m.
