The officers of the Grand Lodge, A. O. K. of M. C., will arrive in this borough to-day (Saturday) by the 1.10 o'clock P. M. train L. V. R. R.; they will be met at the depot by a committee appointed for that purpose, and conducted to Mantz's Hotel, immediately after partaking of refreshments they will proceed to Reber's Hall, and commence to initiate and confer the degrees upon the members of the Castle. After the ceremony, the members will partake of a supper at the Exchange Hotel. Members will present themselves for initiation at Reber's Hall, as early as possible during the afternoon and evening, in order that the work may be through in time to join the supper party.

The Coal Trade.

The Philadelphia Inquirer of last Monday, comments as follows in regard to the condition to the coal trade; We have no particular change to note in the situation of the coal trade. The retail trade in all the cities has been stimulated by the continued cold weather. The stocks in the yards are gradu-

ally wearing away, and if the winter weather should be prolonged for three or four weeks longer the stocks will admit of an earlier resumption of mining operations than has been expected. At present there are no other mining operations in any of the regions than what are East Mauch Chunk.

A "stag party went out sleighing last Sunday. No doubt it was composed of persons who are noted for their virtues. But we must forbear-don't wish to brag about them even if they have been wrought out of refined dust.

Our blushing damsels still enjoy coasting. Last week, one night, a timid maiden was thrown off her sled head foremost through a board fence. Of

course there were many fragments to be gathered up. But as usual the wouldbe "knights" of East Mauch Chunk were not around to render assistance. Dick Horn is going into the oil busi-

ness. He is shrewd and energetic, and no doubt he will be successful. When you hear Dick's Bugle sound reverberating through the valleys and over the hills trot out your oil cans.

It is said that there will be some commercial changes soon in our "city"they will be duly reported.

Our townsman, John Bieghe, Esq., has contracted to build twenty canal boats during the coming season.

Dec. 20,-0 m. ONSUMPTIVES and those whe experience any difficulty with the throat, lungs, or any of the respiratory organs will consult their own interests by miling at the drug sicres of C. W. Lants and A. J. Durling, and inquiring about Dr. Morris Syrup of Tar, Wild Cherry and Horshound. The medical excellence soft these we detaile productions are well known. Their curative principles have been carefold exceeding by the soft of the soft scientific present, with many other vecetable in-gredentia. This remedy possesses, in a lickly con-centrated form, the very essence of some of the most infailed pulmonia simples known to medical bot-anists. It is a ositive remedy for croup. For sale by all dealers. Our legal magnate, Esq., Beckhart, is gaping around for business. He is an officer of whom any place might feel proud. His speech is eloquent, his logle stout, his legal knowledge profound, his decisions fair. Now this power to do is the result of a healthy body; for his digestive organs are vigorous and his capacity for sour krout unbounded. Our genial friend, Mr. Edward Smith, of Philadelphia, is in town. We are pleased to see him looking so well. Mr. Smith was formerly in business in this

place. Some silly girls abused a customer in

the cornor store one day last week. Girls behave yourselves. Shame. LEW SWING.

necessary to supply the local trade and to fulfill contracts on the line. The Trevorton Collieries are being worked on a limited basis by the Reading Coal and Iron Company at the reduced schedule of wages. The men in all the Tegions are quiet, and seem to fully understand the necessities and exigencies of the situation. The folly of continuing production while the monstrons stocks at tide-water and in the cities are unsold, would only result in a severe breakdown in the spring. The trade must pay a profit, or mining operations cease until it does. Operators cannot afford to continue mining at a ruinous loss. There has been no aun ouncement of the perfection of an agreement for the current year. A consulation was held last week in N. York by the representatives of the different companies, but no conclusion, it has leaked out, was arrived at. Another meeting is to be held this week. There is no doubt that an arrangement will be made that will prove satisfactory to all interested in the trade.

The supply sent from all the regions for the last week was 134,175 tons anthracite, and 26,766 bituminous; for the week 170,941 tons, against 264,188 for the corresponding week last year; decrease, 93,247 tons.

The supply sent from all the regions so far this year is 1,330,581 tons, against 1,519,709 tons to corresponding week last year; decreased so far this year, 189,121 tons, of which 178,576 tons are anthracite.

Up to the close of last week there had been transported south from Mauch Chunk, over both the railroads, since the 1st of January, 73,480 12 tons.

The corresponding period last year 78,472 09 tons were sent south from here, and the total for last year to this church.
