He desires us to inform the people of this section that he has hitherto been in the habit of disposing of his shoats for cash, but that the system don't seem to work well, and that hereafter he will sell for the money. On these terms he will give you bargains.
The popular young druggist, Mr. H. A. Peters, who has been in attendance in the store of Hon. A. J. Durling during the past winter, resigned his position on Monday last, and returned to Statington. Mr. P. has made a host of friends during his stay in Lehigh by his affable and gentlemanly deportment, and takes with him their warmest wishes for his future success in life.

We learn that there is now being circulating in Pittsburgh and along the Pennsylvania railroad, one of the most dangerous and best executed counterfeits of our national currency that has yet made an appearance. The bill is of the denomination of five dollars, on the Traders' National Bank, Ill. We have not heard that any of our business men have yet been victimized, but it would be as well to give five dollar bills of the above bank a most rigid scrutiny before accepting any of them.
E. H. Rhodes has opened a grocery and provision store, in his building opposite the "Advocate" office, and is now prepared to sell goods as low as any other man. See advertisement in another column.

T. W. Renshaw, the popular druggist of Summit Hill, was in town Thursday night. He reports all quiet among the miners at that place, and says there has not as yet occurred any occasion for the services of outsiders to maintain order. We gather from his remarks that the men go about their business quietly and orderly, but with the determination to "stand firm till the bitter end"—that they will succeed in getting what they claim as their just rights.

Fatal Gunning Accident.
Powell Billman, a young married man, residing in West Penn township, went out pigeon shooting on Saturday morning last; standing around waiting for the pigeons to put in an appearance, he stood near an old stump, resting the stock of the gun thereon and leaning over the muzzle with his body, when the gun slipped from the stump, the hammer being drawn from the nipple in the decent of the piece and springing back upon the nipple the gun was discharged, the contents entering the unfortunate man's bowels after passing through his hand which he held over the muzzle. After receiving the charge he ran about two rods when he fell dead. The funeral took place on Tuesday.

Religious.
The Lehigh Evangelical Mission will hold their worship on next Sunday evening in the Presbyterian church, which they have rented, and will thereafter hold their services regularly every Sunday. Divine Services in the Academy, Rev. L. K. Durr, pastor. Confirmation and preparatory service for Communion this afternoon, at 1 o'clock. Communion on Sunday morning, 10 o'clock. English service in the evening at 7.

Borough Council.
The borough council met on Monday evening last and organized as follows:
Wm. Wagner, Esq., the burgess elect, took his seat and was duly qualified. Wm. M. Rapheer, Esq., was appointed Secretary, and Wm. Miller, Treasurer, with instructions to file bonds in accordance with law and Geo. Shultz was appointed Street Commissioner, when Council adjourned to meet on the first Monday of May, 1875.

Special Police.
One hundred and fifty special policemen from Phila. arrived at Hazleton Tuesday evening. They will do duty as engineers and firemen, and prevent the mines from filling with water. One of the mines at Audenried was flooded on Sunday by the breaking in of a creek, and as the Union would not allow its men to assist in turning the course of the stream, the superintendent and office clerks were obliged to do it.

Parryville Items.
Henry Rau, of Bowmansville, while out walking Monday, March 29th, slipped and fell, fracturing his knee bone very badly. Dr. J. A. Koch, of this place, attended him and he is now doing quite well.
Mr. G. F. Anthony, justice of the peace, of this place, has taken out his commission and is now ready to attend to all who may need his services. Look out for squalls.
Rev. L. Bryfogel, pastor of the Evangelical church, moved into town last week.
Rev. L. B. Brown, of the M. E. church, who has been attending conference at Norristown for the last two weeks, returned last Saturday. We are glad to see Mr. Brown back amongst us again, and hope his stay may be a long one. ONEY JOHNS.

Big Creek Items.
Big Creek items were among the missing last week on account of overcrowded business, but, as the robin and blue birds are making their appearance, I will try and do likewise.
The Poho Poho Creek was very high last week, it overflowed its banks—flooded some of our neighbors' meadows, carried off fences, saw logs, mills, boats and washed off a good deal of soil; so much that the stones are visible in the meadows, and cleaned the creek entirely of all its ice, &c.
The Spring is very backward, and farmers will find just as much work as they will be able to do to be in time for the early seeding, etc.
Mr. John Boyer, who was on a visit to his many friends at this place during the winter, has left again for his home at Lawrence, Kansas.
Wild geese in quite large numbers were seen flying through this valley during last week; several flocks made a short stop on Big Creek, but not a single feather was captured this year.
Judging from your paper of last week items are as scarce in other localities as in this.
Mr. Amos Solt, of this place, moved on Tuesday of last week into the house owned by Wm. Thomas, situated on the road leading to MacKerelton. We are sorry to part with him as he was a kind friend and a very obliging neighbor.
Alex Solt has moved to one of Mr. D. Prince's houses at the paint mill.
Amandas Beer, of this place, will move to one of El Koch's houses, near Weisport, ere long.
Moving day, that great terror of housekeepers, with all its bustle and confusion is passed and gone and once more, those of us who were so unfortunate as to be compelled to make a change of residence are safely ensconced in our new homes, and can now breathe free—at least for another year.
The lumber men of Carbon county, are preparing for a brisk trade the coming Spring.
The schools of Towamensing are all closed with the exception of Shoemaker's, No. 5, which will end on the 17. There will be services in the Solt's church, to-morrow, (Sunday), at 10 a. m. Services by Rev. S. Dreyfogel, of Parryville. W. E.

Trotting Stallions.
Dr. Joshua Kern, of Siegersville, announces to the owners of horses, that he will rent the Hotel of J. W. Raudenbush, in this borough, and his celebrated stallions, "Toronto Chief, Jr.," "Mambrino Pilot, Jr.," and "George M. Patchen, Jr.," on Tuesday and Wednesday, April 29 and 30, and every alternate Tuesday and Wednesday during the season.
Toronto Chief, Jr., was sired by the fast Stallion Toronto Chief. He is out of Royal George, called "Warrior" before he came to the States. By referring to the Turf Register you will find his coat of arms with Dexter and Gen. Butler, and that he trotted on the Fashion Course, on the 19th of July, in 2:19. The dam of Toronto Chief was the trotting mare Fatty Jenks, remarkable for her great speed and endurance, having trotted her thirteen miles in 2:57.
Mambrino Pilot, Jr., is a handsome dark brown stallion, no white, one of the most beautiful shaped horses ever seen. He is well broken and a splendid driver, looking most magnificent when going. He trotted last Fall in double harness, on the Guttsville track, a half mile, in 1:35. This was remarkably good time for a five year old colt, considering the chance he had, for he was not broken to harness until he was past four years. Mambrino Pilot, Jr., is of modern family that rivals the Hambletonians, is composed of the descendants of Mambrino Chief—a horse that was bred in the East and taken to Kentucky by James B. Clay in 1854.
George M. Patchen, Jr., as a trotter is fast rising into celebrity. He is handsome, white in color, and sixteen hands high. He has good blood in him, for he was got by the celebrated trotting horse George M. Patchen, by Cassius M. Clay, who was by old Henry Clay, and his dam was by a young horse who was own brother to Trustee who first trotted twenty miles within an hour in harness. The dam of George M. Patchen, Jr., was the gray mare Durock Messenger.
Parties desiring further information are requested to call upon J. W. Raudenbush or the groom at the stable.

Rescue Hook & Ladder Co.
On Monday morning last members of the above organization from Mauch Chunk, presented themselves at the carriage Works of Messrs. Romig & Hofford, in this borough, for the purpose of taking possession of their new truck just built for them by this firm. The truck was transported from Lehigh to Mauch Chunk over the L. & S. R. R. In speaking of its reception in the latter place "Echoes" in the Herald says:
On arriving at Mauch Chunk at half past 10 a. m., a large crowd awaited the delegation of Rescue boys, and in a short time the truck was placed on terra firma, the rope stretched out, and away they went like the wind up street, and stopped in front of Jas. J. Armbuster's cigar store, who by the way is the President of the Company. The truck was in a short time surrounded by an examining crowd and the universal verdict: "She is a perfect beauty!" could be heard on all sides. Of course "Echoes" was on hand and made the following memorandum: Total length of truck 40 feet. The running gear and body painted a brilliant red, and striped black, with faint of white and green relief, and Rescue in large letters, shaded on both sides, and figure 1 at each side end of the ladder rest. The wheels are also gold striped. The ladders are dark green heavily striped with yellow, giving them a solid and substantial appearance, of the following lengths: 1 stiff, 20 feet, 1 extension, 40 feet; 1 do., 60 feet. The goyng on the front axle, left side, is automatic in movement, and of good tone. Four large poles with hooks laid on top of ladders, painted, of light shade. The beautiful lamp is fixed in an upright frame over the front axle, and was the subject of very favorable remarks. It is gold plated, of hexagonal shape, and the glass of three colors—white, wine and purple—two panes of the same shade. The front has Rescue 1 blown in the glass, and the right and left angle following, a ladder and pole-hook, engraved in the same way. Taking it altogether, it is one of the neatest, noblest, and best looking trucks in the Lehigh Valley and costs only \$500. It will remain for a few days where it now stands, and will be housed as soon as the new room the Market House building is completed.

A Note from Parryville.
DEAR EDITOR.—I am in for it now I suppose. Two weeks ago an article written by your humble servant appeared in your paper in regard to Parryville lock up or as your correspondent "Serious" says I am pleased to call it "Jug." I did not think it was going to be so hard for some of the "law abiding people second to none in State," to swallow, (I mean the article not the lock up); there is just where I missed it. He goes on to say that it is news to him to hear that Parryville is a borough. Cheese it, "Serious," draw it mild, we know what you are hinting at—perhaps every body did not know it all. He also says that it is my brief "that we can not have a borough without a lock up, or a Jug, perhaps he is correct. Let me ask him a question: What was the first business the Town Council cussed and discussed? Nothing more or less than the fore-said lock up or "Jug." "Aint I right, eh? Now does it not look like as if some one else besides myself thought the same, namely, that a borough was not a borough without a lock up? He ends his epistle by saying, "I take such an interest in their affairs." Does he want me to believe he is one of the Town Council by saying their affairs? For he must not forget that I am one of those "law abiding people second to none in the State." ONEY JOHNS.

The Coal Trade.
The Philadelphia Ledger of Monday last, in speaking of the condition of the coal trade says: As we can report no adjustment of the differences between the coal operators and the working people at the mines, we of course have no change to report in the coal trade, which remains almost precisely the same as reported a week ago. The lawless turbulence in the Schuylkill and Lehigh coal regions reported daily in our news columns shows no signs of abatement. There is no coal mining in either region of any consequence, and the supply is necessarily becoming very limited. What, however, was stocked over of last year's coal, and what is being produced in part of the Wyoming and in the Shamokin regions, has thus far served to prevent a total famine or famine pieces of coal. As the demand for current consumption continues light a close economy in the use of anthracite coal and an increased use of bituminous coal have kept prices steady. Special kinds of coal and of particular sizes may have been advanced in some few instances, but the general market is unchanged in supply and demand and also in prices. The associated carrying companies, although they have issued no scale of prices for the month of April, adhere, so far as we can learn, to those announced. We see the intimation sometimes thrown out that the present suspension of coal production is with the connivance and encouragement of the coal operators, with the view of affording opportunity to entirely clear the market of last year's var - supply. It is possible that strikes and suspensions of production may, some time in the past, have been characterized by some such collusion and juggle, but we are quiet confident that nothing of the sort enters into the present dispute and unsettled condition of the anthracite trade. In the bituminous coal regions there are unusual efforts making to press the largest amount of that coal possible into the market.
