LEHIGHTON, PA.

Another calamitous flood occurred on Saturday evening last at Wrenthala and Norfolk, in Massachusetts, cassing destruction of property to the estimated extent of \$157,000. The disaster was occasioned by the breaking of reservoir know as Whiting's pend, at the head of Mill river, a small tributary of the Charles. Two large mills were destroyed, several bridges and dams carried away, and great damage done to railroad and other property.

Sepor Mariscal, the Aexican minister at Washington, having stated that the outrages on the Texas border were perpetrated by American citizens, wostly ex-Confederate soldiers, a meeting of citizens at Brownsville appointed a committee to investigate the matter. This committee, which includes three general officers of the United States army, have made a report emepatically denying that American citizens, ex-Confederate or other, have had any part in these raids save that of victims. The report shows that cattle-stealing and thieving expedition have crossed into our territory from Mexico frequently during the past ten years; that cattle have been stolen by the hundred thousand head, and that citizens of Texas, scattered over a wide and undefended extent of country, have suffered these and other losses without the possibility of redress. The committee recommends the appointment of another committee, with instructions to investigate and report to the Secretary of State.

The Centennial celebration at Concord and Lexington took place Monday with imposing civic and military ceremonies. The day was begun by the firing of military salutes; then followed a procession of military and civic bodies and citizens, addresses by distinguished speakers, the unveiling of statues, banquets, etc. At Concord, after an address by Ralph Waldo Emerson and the reading of a poem by Lowell, the oration was delivered by George W. Curtis. At Lexington, statues of John Hancock and Samuel Adams were unveiled by Hon. Chas. Hudson, and the oration was delivered by Richard H. Dana, Jr. At the banquet which followed, a letter was read from Mr. Gladstone, the ex-Premier of England. The gathering included the President, the Vice President and the Cabinet officers, the Governors of the New England States, Speaker Blain, General Hawley, and a host of persons distinguished in public and private life. It is estimated that 100,000 citizens attended the celebration.

The Miners Strike.

Wilkesbarre, Pa., April 18 .- The first open demonstration by the miners of this section took place yesterday. At an early hour in the afternoon a procession of 1000 men from Sugar Notch, Warrior Run and Nanticoke marched through a part of the city. Their ap-proach had not been beraided, and neither the authorities nor any one else in the city knew anything of their movements until they were on their way into the city. They were a motley and roughlooking crowd. Their officers were mounted, and the commander was dress-ed in a grey uniform, the same worn by the milita of this State. They had a groun corps, two brass bands, and carried the Stors and Stripes and a large number of banners bearing various devices, some of which were profane and obscene. Following are some of their mottoes:—"If union is strength, Sugar Notch is a Samson;" "Our cause is just and we will win;" "While we've a crust we'll not give in;" "Traitors should be branded with the mark of Cain;" be branded with the mark of Cain;"
"Bribers and betrayers are useless; our
union is noble and strong;" "No surunion is noble and strong;" "No surrender till hell freez-s over, and then
we'll crawl out under the ice." Two
men caraied a maininture scaffold with
an efflgy dressed in a n-iners garb suspended from it by a robe around the
neck. It bore the inscription, "A model
betrayer and blackleg." One banner had a representation of a man being
shot from behind, and above were the
words, "A traitor's doom." The procession did not stop in the city, and no
riotous conduct was manifested. The
men bore no arms that were visible. It
is not known whether all in the procesis not known whether all in the procession were there of their own free will, or whether, as in the Hazleton section, whether willing or not. This demon-stration was for the purpose of intimidat-ing such as are tired of the strike and wish to go to work. Following the threats at Kingston, as it does, it will have a strong effect. The strikers claim that they have a full treasury, and that movey is sent to them every few days from Hyde Park and other sections. The prospect of resuming work before

The prospect of resuming works the summer months is very poor.

Harrisburg, April 18.— Sheriff Kirkendall, of Luzerne county, on Friday night had a long conference with Governor Hartranft, and the statements, papers and affidavits submitted by the pers and amagins submitted by the miners and operators were carefully considered, and a after review of the whole situation, it was the opinion of the Sheriff, in which the Governor concurred, that it would be inexpedient at present to withdraw the troops from Hazleton and vicinity. To be assured of the propriety of this step, the Sheriff at once proceeded to Luzerne county, and to-night his opinion remains un

changed.

15 was reported at Pottsville Monday

that must dissatisfaction existed among the misers in the northern portion of the Schurkill coal region, in consequence of a rumor that the President of their oganization had advised some men to resume work, "and make the best terms they could for themselves." Indigna-tion meetings have been held at Girard-ville, Shenandoni and Mahanoy City, at which the President has been accused of collusion with the operating com-panies. Some dwellings of miners of the Reading Coal Company at AshianJ have been burned, it is supposed by incendiaries. Special police still guard the branch roads in the county, and coal and freights pass without interruption. The strike in the Clearfield coal region, it is stated, has been caused by a refusal of an increase in wages. The manufac-turers who have heretofore been supplied from this region, will now be supplied by the Pennsylvania Railroad from the Cumberland region. It is announcthe Cumberland region. It is announced that the Pennsylvania Railroad Company will not suffer for want of coal itself, as it has on hand a stock sufficient to supply its locomotives for two months.

ST. NICHOLAS FOR MAY .- There is fun enough in the May number of St. Nicholas to keep the children laughing till the next number comes out—if children are as jolly as we take them to be, First of all is Rose Terry's poem of "Poll Tedpole," which has a very seasonable flavor at this time of the meand of tadoples in particular. Almost any one would laugh at the picture of "Poli," taken as he was lying at ease in his puddle, not dreaming that he would soon become a "discontinued baby-frog." Then there is a capital neture by Church full of this artist's picture by Church, full of this artist's picture by Church, full of this artist's humor. A move graphic expression of the comic effect of a new-comer's entrance has rarely been penciled. The stranger is ac anned as closely by his fellow-prisoner's as a new boy at a boarding school. In the poem "Poor Puck," the humor even goes over into Fairyland, and our admiration of Puck's andective in transpression is consider by audacity in transgression is equaled by our respect for Queen Mab's tactics and our respect for Queen Mab's tactics and clever way of punishing the trespasser. And, as if this were not enough, the "Very Little Folks" have their sharo too,—a story, illustrated with five pictures, which, if the baby see them first, will carry the laugh all around the circle to grandpa. Last, but not least, is Jack-in-the-Pulpit, who is always funny. But St. Nicholas knows now to be se-But St. Nicholas knows now to be se rious too; and no girls' story could be sweeter than Susan Coolidge's delight-ful May-day narrative of "Queen Blossom," with its beautiful illustration by Fredericks. The three illustrated stor-les by Rebecca Harding Davis, Elsie Gorham, and the author of "Rutledge" will interest everybody, and the practical articles will well repay all who read them, especially the two entitled "About Heraidy" and "The Feast of Flags," the illustrations of which are novelties. But we cannot name all the good things; we only envy the children the monthly happiness of such a magazine. Prize \$3 per annum. Address Scribner & Co., 743 and 745 Broadway, New York.

The meeting of Delegates of the Mi-ers' National Association and the Miners' and Laborers' Benevolent Association to organize a General Council of the Eastern Division of Penusylvania, was held Tuesday, at Hazleton. A report was adopted organizing a council, to be called at present the General Council of the Schuylkili and Lehigh regions, and action was taken looking to a union of all the miners and laborers in the anthracite regions, for the purpose of maintaining the strike. Richard Williams was elected President of the new council.

The London Lancet recommends a new remedy for coughs, viz., resistance of the desire to cough until the phlegm has accumulated in large quantities, when there will be something to cough against, and the phlegm may be brought up with much less effort. The Lancel says that a great deal of the backing, hemming and coughing in invalids is purely nervous or the effect of habit, and that an exercise of will is needed to prevent the wasteful exercise of power in clearing the throat. Experiments in hospitals have shown this to be true.

The New York market for dry goods The New York market for dry goods has been quiet and firm throughout the week, with a fair amount of sales in nearly all departments. The volume of trade compares favorably with the corresponding period of the previous year. The sales have been principally of assorted lots, in moderate amounts, distributors buying cantinusts and distributors buying cantinusts and disdistributors buying cautiously and du-plicating orders to supply immediate wants only. The demand from the West has shown a better feeling among dealers in that section of the country,

and a desire to avoid speculative purchases to any large extent.

Eleven years ago. says an exchange, Mr. Chauncey Lewis, of Union, Erig county, lost his pocket book containing \$1300 in notes and currency. Two years afterwards he received a letter enclosing him the notes and securities amounting to nearly \$1000. Last week Father Lonergan, of Corey, sent for him and handed him \$360 in currency, the same identical money that was in his pocket book at the time he lost it. The pocket book had been picked up by a man in his employ, a Catholic, whom he did not suspect of dishonesty, and for eleven years the unhappy thief wrestled with his uneasy conscience until he could keep his guilt secret no longer, and confessed it to Father Lonergan.

Eight railroad robbers were arrested at Logansport, Ind., on Monday night and Tuesday. One of them, named Kratti, kept a store, and had been sell-ing the stolen merchandise from it; six of the others were railroad employees, and the remaining one was a farmer, itving several miles from the city, who would pick up the packages as they were thrown from the train. The gang had been operating for several months, robbing the different railroads centering at Logansport, their last haul on Mon-day morning being from freight cars of the Pittsburg, Cincinnati and St. Louis roal. A large quantity of the stolen goods has been recovered, including barrels of whiskey and sugar, boxes of tobacco, and packages of boots and
