-We are reliably informed that when —We are reliably informed that when the wages of the employees of the Car-bon Iron Company was reduced 10 per cent. a week or so ago, that the Com-pany at the same time reduced the rent of their houses 10 per cent. This is right, and shows that the Carbon Iron Co., at least, is willing to give and take with their employees in the present de-pressed condition of trade.

—John C. Helper, a Berks county farmer, has adopted a novel plan to get his fields cleared of potato bugs. He pays boys who will enter in the work 5 cents per 100 bugs caught. The boys are supplied with cans half full of water, in which they gather them from the plants wherever found. Some 5,000 bugs have already been captured, and as fast as they are brought in Mr. Helper burns them.

 —Last Monday, 21st was the longest day of the year, 14 hours and 55 minutes. It marked the summer solstice, the time when the sun is farthest north, the time when the sun is farthest north, having reached the Tropic of Cancer, and on that day summer really began in the northern hemisphere. It was the centre of the "long day" north of the Arctic circle, and the "long night" in the Antarctic, or South Polar regions, where winter is now at its height. For the next six months the days will gradually shorten until Dedays will shorten until days will gradually shorten until December, when they will again com-mence to lengthen.

—The "region board" of the miners of the Wyoming district called upon President Parrish, of the Lehigh and Wilkesbarre Coal Company, Tuesday, and requested that the officers of the Union, who had been refused employment for their part in stirring up the strike, be permitted to go to work. Mr. Parrish granted the request, but said he wished it distinctly understood that the Miners' Union should no longer dictate who shall be employed or discharged, and that men shall not be forced to join the Union in order to enter the mines. -The "region board" of the miners the Union in order to enter the mines. ## Our Mauch Chunk Letter.

MARCH CHINK PA. June 26, 1878. MAUCH CHUNK, PA. June 28, 1878. With the thermometer ranging among the nincties, I must appeal to your humanity and hope that you'll excess brevity. The Courts having been in session since Monday last, things have been somewhat more lively than they were at my last writine, while the advent of the heated term promises to keep them so for some time to come; landlords, as least, seem to be of that opinion. Let us hope that their expecta-tions may be realized. This tiving in hopes is certainly a great thing. It makes one feel good -for a while at least, and enables us to hear, and whistle at, advarsity. For particulars of noteworthy events, or my own deductions and observations, I refer you to the notes annexed. Yours, &c..

## Ten Nights in a Bar-Room.

The production of the above-named inrilling domestic drama, by Lebigh Hook and Ladder Co., of this piace, on Priday and Saturday even ings of last week proved a decided success both financially and in the superb manner in which it was put upon the stage. The characters was a admirably chosen and the representations thereof were fully equal to that of the next troupes travellor. The house on Friday evening was not as good as it should have seen, but on Saturday night, it was literally peaked that about \$50 months it is roughly cafoulated above expenses. We see pleased to announce that the Company, at the digest solution of a number of citizens have consented to reproduce this really interesting and instructive digma this (fisturally) evening in saddition to the performance of which they will produce the side splitting farce of "The Fersecuted Dutchinan; or, The Original John Schmidt." —We observed a pair of jackasses, in a carriage, passing through the streets of Lehighton, Thursday evening. At least, their attempts at braving would seem to indicate an intimate acquaintance with the jackass. We'll bet a five cent cigar the genuine jackass conidn't have made a worse noise.

—Quite a large number of Manch Chunkers were in Lehighton Monday evening. The late train on the Lenigh Valley road is an inducement for "love-making," thus far having proment for "love-making," thus far having pro-

will be announced in due season—after the cooing and billing is over.

—The proprietors of the Tamaqua Courter
evidently mean business, to judge from the foliowing circular, which dropped out as their "X"
was opened in this office for percast:

"Times are hard. We cannot carry 'deadheads.' Unless you pay up we will be compelled to stop your paper. Respectfully.

—There is entirely too much of fast driving
through the streets of Lehighton, which makes
it very danacrous for many people, and especially so for the large number of young children
who are daily and hourly to be found running at
large, several of whom were nearly run over a
few days ago. Their escape was most mirnou-

large, several of whom were nearly run over a few days ago. Their escape was most miracu-lous, and should prove a warning against all fast driving in the future.

—To mistake a printing office for a hardware store, is very improbable, to say the least. Yet such was the case Tuesday evening, when a tall, lean be-kwoodsman, no doubt just fresh from the "rootal destricts," stepped indana in-quired if we had any good saws—he wanted to purphase one. Whot told it was a relative quired if we had any good saws—he wanted to purchase one. When told it was a printing office, he said he judged it to be a hardware store from the different pieces of machinery in the room—meaning, of course, the pressee, etc. He was glad to learn the difference, however, and started up town to find the hardware store, which it is presumed he found and then pur-chased the needed "anw."

chased the needed "saw."

—Now that a resumption is conceded to take place at the operators offer, which all know is a reduction on the prices paid in 1874, the next to follow the miners, should be the Rallroad Companies, by a considerable reduction in the prices of freight how charged by them. While reporting the conference between the conference. of freight how charged by them. While reporting the conference between the Operators and Miners, in Hasiefon, January 11th, 1875, we heard Mr. Ario Pardee, chairman of the operator de egates, promise that the Railroad Companies would also bear their portion in the reduction by lower freights, and that it was not intended to come wholy upon the miners. It was, in like manner, promised by Mr. Eckley B. Coxe, and one or two others. This was a very fair proposition—but, so far as we have been able to learn, so reduction of freights has been made by the Bailroad Companies up to this time. A low freight tariff is the only thing new needed to again put in production the furnaces needed to again put in production the furnaces and rolling mills of the Lenigh Valley and give employment to hundreds who are now title working on half-time. By all means let freights working on half-time. By all means let freights be reduced; and, even if the usually heavy divi-dends must suffer thereby, the stockholders will not complain, because it is well-known and beloved in sound business circles, that the ers of large dividends has passed away and must come down—be reduced—as well as later. And so with the necessaries of life, rents, etc.—

The Coal Trade.

There is a visible and marked change of feeling in roal trade circles. The termination of the strikes and lockout in the Schuylkill and Lehigh regions have stimulated active preparators among the operators and transportation companies to make up for the time that has been leat. Nearly six months of idleness finds be marked in a still the money in a still the content. the moners in a pitiable condition. They have issued an address through their recognises or-gan, the Miners and Workingmen's B. A., in which their entire defeat is admitted. The fol lowing extrest from the address exhibits the temper with which the men resume work :

which their curre detect is admitted. The following extract from the address exhibits the temper with which the men resume work:

Our efforts to bring about a settlement of the several matters in dispute upon a basis of conciliation and compromise, though made frequently and in good inith, had, in every mistace, been met with the claim, on the part, not of the Coal Exchange (Leaf, suit of Exchange) informed, they had never once, since the Deginning of the contest, taken the trouble to call the members of the Coal Exchange together to consider our compromise over tures, but after consulting with the king of their ring tacy had taken it upon themselves to respond to each and all of them with contemporous ellence or shameful misropresentation of facts. Now that work has been resumed, it will make lively times, for a while at least, in the regions lively times, for a while at least, in the regions that have been idle. The year's "quota" allotted to the Reading Entiroad Company by the Associated Companies will have to be mined and transported in five months. It is said this can be done easily, but it is doubtful if the market can take all the coal that can be furnished. Certainly it cannot, unless there is a revival in the iron and other industries. The iron masters plead carnestly for lower prices in coal as a conclition of their ability to even attempt a resumption of production. With wages reduced in the coal regions, with tower prices of almost all commedities, it is certainly not unreasonable for not only manufacturers but domestic consumers to expect a reduction of the price of coal to a level with other articles of consumption.—Phils.
