The Carbon Advocate.

H. V. MORTHIMER, ... EDITOR.

LEHIGHTON, PA.:
SATURDAY MORNING AUGUST 14, 1875.

—The rain storm of the present week was wide-spread, and did an inestimable amount of damage, principally however in the West, where bridges were swept away, crops destroyed, railroads washed, buildings demolished, and the people rendered miserable and unhappy by reason of the general devastation of their property.

—For the information of those interested we publish the following :—The new constitution forbids all persons from voting unless they have been assessed at least two months and paid their taxes at least one month before the date of the election. No one of foreign birth can vote, unless, in addition to the above, he has been naturalized a month previous to the election.

The date of holding the next election is Tuesday November 2d.

Wednesday, September 1st, is the last day on which voters can be assessed.

Friday, October 1st, is the last day on on which they can pay taxes.

Friday, October 1st, is the last day for taking naturalization papers.

THE STATE FAIR.—The State Fair will be held in Lancaster during the last week of September The gates will be open on Monday, September 27th, at high noon, and the exhibition will continue through Monday, Tuesday, Wednesday, Thursday and Friday. The books of entry will be closed one week before the time fixed for opening the fair, and all entries are free except those of horses entered for speed, which are charged the usual ten per cent. No premiums will be awarded to reaping, mowing, or sewing machines, or musical instruments.

— Superintendent Bangs, of the U. S. post-office department, has perfected arrangements at New York, for his projected mail train for the north and west. The first train will leave New York at 7 o'clock, a. m., on the first of October, and every morning thereafter at the same hour. No passengers or freight will be taken. The run to Niagara Falls will be made without stopping, at the rate of 40½ miles per hour. To the cars will be fitted patent appliances called "catchers," which will deposit and pick up mail bags at every station without stopping. The time will be lessened 24 hours, and the expense will not be increased.

— The remains of three ex-Presidents, says the Springfield (Ill.) Journal, rest in Tennessee—Andrew Jackson, James K. Polk, and Andrew Johnson. Five — Washington, Jefferson, Madison, Monroe, and Tyler—repose in Virginia. Two—John Adams and John Quincy Adams—in Massachusetts. Two—Van Buren and Fillmore—in New York. William Henry Harrison in Ohio; Zachary Taylor, in Kentucky; Pierce, in New Hampshire; Buchanan, in Pennsylvania, and Abraham Lincoln in Illinois. In all we have had eighteen Presidents, filling twenty-two Presidential terms of four years each, of whom only the present incumbent survives.

— Mr. Beecher once spoke or wrote of the "ruinous defence" he received at the hands of his friends. The expression is recalled to memory when one reads that Mr. Shearman, one of his most devoted friends, said to the British public that it is "a custom in America for ministers to kiss their female parishioners, and that Mr. Beecher had been more cautious in his relations with ladies than is usual among the clergy of America." Mr. Shearman's speech is being treated by some English journals with the contempt and ridicule it deserves. Mr. Shearman also said, which may be true, that "he loves Mr. Beecher more than any human being; his wife he loves, his friends are very dear to him, but none on earth take so high a place in his heart as Mr. Beecher." The Pall Mall Gazette comments on this passage as follows: "When a man holds such sentiments his jealousy will only be aroused when he catches a stranger kissing not his wife but his pastor." Some sentimental objections have been made to a renewal of the trial which made it possible for such a "ruinous defence" as this to be made. But it is a matter of grave importance that the fellows on one side or the other who gave rise to the trial should be punished, and this result may be reached by a trial of both issues, especially if the trials should be conducted as suits at law instead of dramatic displays.

— Reports from the Batavia insane asylum state that Mrs. Lincoln's condition is unchanged, and the prospects of her ultimate recovery are not encouraging.

THE FLOOD YEAR.

FLOODS IN EUROPE, ASIA, AUSTRALIA AND AMERICA.

The following summary of the numerous heavy rainstorms and floods that have characterized the last three months will show that unusually heavy rains and destructive inundations have occurred over a large extent of the world since the beginning of June. Except Africa, from which nothing has been heard, and a wide belt of the nearest part of which is a rainless region, all the great divisions of the globe have suffered. Within two months there have been floods in Europe, Asia, Australia and America. In the United States the damage done (and the property damage has been very great) is mainly in the valleys of the Ohio, Mississippi and Missouri, including the river bottoms of the tributaries of those rivers in the States of West Virginia, Ohio, Indiana, Illinois, Kentucky, Tennessee, Missouri, Iowa, Wisconsin, Kansas, Nebraska and Arkansas. Of these, the central and southern parts of Ohio, Indiana and Illinois have suffered much loss in the destruction of crops, the sweeping away of movable property along the valleys of the streams and rivers, and by the breaking up of railway tracks and bridges. The Western State floods, as mentioned a day or two ago, where the combined result of continuous, but not violent rains, for a week or two (according to locality), down to about the 20th of July, when the earth being thoroughly saturated, so as to hold no more water, a series of very violent rain storms set in, which overflowed all the water courses and turned them into wide-sweeping and destructive torrents. The money losses in the Western States will aggregate not less than $2,000,000 and possibly $5,000,000. Happily there was no loss of life.

Tennessee, May 4th.—Floods in Knoxville, Tenn., bridges demolished and carried away.

Canada, May 19th.—By the bursting of Government dams on the Upper Gull's River, Ontario, the village of Minden is flooded.

Indiana, June 1st.—Heavy rains and floods in Indiana; railroad bridges and culverts washed away; railroad accidents and loss of life ensue.

June 3d.—The White River and other streams near Indianapolis, swollen by recent rains, overflow their banks and flood portion of their city. Railroads damaged and bridges swept away by floods in other sections of the State.

France, June 9th.—Severe storms in the region of the Pyrenees, France; houses swept away and eleven lives lost.

France, June 23.—Heavy and continued rains are melting snow in the Pyrenees cause an unprecedented overflow of the River Garanne. The suburb of St. Cyprien, containing 25,000 people, in the environs of Toulouse, is inundated, houses and buildings of all kinds are untenantable, the inhabitants having to fly for their lives, and several hundred lives lost. Two bridges carried away and over twenty-thousand people rendered homeless. The overflow of the Garenne extends from the Pyrenees to the fields in the vicinity of Toulause and below, destroying crops of all kinds and devastating villages on its banks. Heavy rainfall at same time causes an overflow of the River Tarn, in France, and the little towns of Monsaic and Tremouillit are inundated, only two houses out of four hundred in the latter remaining standing. The village of Falx and two other villages overflowed. The river Adour also overflows its banks from heavy rains and melting snows, and floods the surrounding country and the town of Bagneres de Bayonne. Great damage to crops and farm property.

United States, June 27th, 28th.—A two days steady rain, accompanied by high winds, caused the flooding of fields, destruction of crops, carrying away of bridges, and demolition of barns and houses in portions of Wisconsin, Minnesota, Michigan, Nebraska, Iowa, Missouri and Southern Illinois.

Hungary, June 29th.—A terrific hail storm, followed by heavy rain and extraordinary fall of water, swept over Buda-Pesth, Hungary, inundating the streets and carrying moveable property of every description into the river. Houses are flooded, and some thirty lives lost.

Australia, July, 3d.—Great floods in Victoria and Australia, whereby railroad construction and farm cultivation are impeded. Property damaged by overflowing of mountain streams.

Switzerland, July 8th.—Geneva Canton, Switzerland, is visited by a fearful storm, flooding farm lands and injuring many persons.

England, July 22d.—Heavy rains in England, inundation at Leicester, Greenfield, Forest of Dean and Godmanchester. Railway travel interrupted and growing crops destroyed. Floods on the Trent river, overflowing a portion of the town of Burton on-Trent, and submerging the track of the Great Eastern Railway for three and a half miles.

Silesia, July 22d.—Severe storms at Warmbrun, in Silesia, destroying bridges, houses and crops.

July 23.—Sudden rise in the waters of the river Neue at Peterborough, England, by which houses along it were flooded and four thousand acres of land are overflowed.

United States, July 23.—Heavy rains in Ohio and Indiana, crops destroyed, railroad travel impeded, and bridges and buildings carried away. Tornado at Cambridge City, Indiana, washing away a bridge and 250 feet of railroad track. Storm of rain and wind in Missouri, causing a rise in the river.

July 29, 30th.—Rains continuous and heavy fall in Ohio and Indiana, causing floods in rivers and streams and destruction of railroad and farm property. Similar storms visit Southern Missouri, whilst in Eastern Nebraska a deluging rain submerged railroad tracks, and damaged a single track to the extent of $100,000.

August 1st.—The heavy rains continue on the Ohio and Mississippi valleys. The Ohio, Scioto, Miami, Wabash, Vermillion, Illinois, and other rivers emptying into the Ohio, Mississippi and Missouri become swollen into destructive floods, some of which rose to a greater height than ever before known, causing damage to the crops, to farm and railway property to the extent of several millions of dollars. Railroad travel had to be suspended in portions of Ohio, Indiana, Illinois, Missouri, Kansas and Nebraska. West Virginia, Tennessee and Kentucky also suffered. The Mississippi and Missouri rivers become effected by the rise in their tributaries, and increase in volume and velocity, threatening extensive damage.

August 2d.—The rains continue in Ohio and Indiana, and the Wabash, Ohio and Monongahela rivers rise rapidly. The Gas Works at Athens, Ohio, are flooded and other towns on the river banks are swept away, railway tracks damaged and farm lands submerged. Farm property in Central Illinois is damaged to the extent of $1,000,000; railroads in Kentucky are injured, and rivers in Arkansas overflow their banks. In West Virginia the town of Farmington is overflowed, whilst in Illinois the Sangamon river overflows its banks and spreads over the surrounding country.

Aug. 2d.—Floods along the Jersey coast; ocean pier at Long Branch carried away and railroad tracks submerged near Seabright.

Aug. 3d.—Continuous floods in the Western States, loss of $500,000 in the Sciota Valley alone and corresponding losses elsewhere.

Aug. 4th.—Alarming rise in the Ohio river at Cincinnatti and Evansville. Crevasse in the Mississippi at De Sota Front. Cincinnatti the centre of the storm, which extends about a hundred miles in each direction. Rise in the Mississippi and threatened inundation of Memphis and below.

Aug. 5th.—The Mississippi still rising, submerging islands and crops in its course.

Aug. 4th.—Disastrous floods in the northwestern provinces of India, destroying many of the dwellings of the natives.

Aug. 5th.—Sudden rise in the waters of the St. Francis river, near Madison, Ark., threatening submersion of cotton lands near Helena, and destruction of 80,000 bales of cotton in the Memphis district; rise in Mississippi and tributaries, and overflow of levees and banks.

—The following is an abstract of reports made to the Comptrolling of the Currency showing the condition of the National Banks in the United States at the close of business on Wednesday, the 30th of June, 1875:

Resources — loans and discounts, $868,509,871 82; overdrafts, $4,422,629 77; U. S. bonds to secure circulation, $375,127,500; U. S. bonds to secure deposits, $14,150,200; U. S. bonds on hand, $12,746,950; other stocks, bonds and mortgages $32,008,388 24; due from redeeming and reserve agents, $89,788,903 73; due from other national banks, 48,513,388 86; due from State banks and bankers, $11,623,647 15; real estate, furniture and fixtures, $40,968,755 55; current expenses, $4,932,909 29; premiums paid, $8,742,393; checks and other cash items, $12,361,281 67; exchanges for clearing house, $88,994,961 68; bills of other national banks, $24,261,903; fractional currency, $2,620,504 26; specie, $16,939,482 80; legal tender notes, $87,492,895; United States certificates of deposit for legal tender notes, $47,350,000; five per cent. redemption fund, with Treasurer, $16,825,011 62; due from Treasurer, other than 5 per cent. fund, $3,274,873 90; total, $1,913,239,201 16

Liabilities—Capital stock paid in, $501,568,563 50; surplus fund, $133,169,096 70; undivided profits, $52,160,104 68; national bank notes outstanding, 318,138,406; State bank notes outstanding, $786,841; dividends unpaid, $6,105,519 34; individual deposits, $986,478,639 48; U. S. deposits, $6,714,238 70; deposits of U. S. disbursing officers, $3,459,061 50; due to national banks, $138,914,828 39; due to State banks and bankers, $55,714,055 18; notes and bills discounted, $6,21,464 45; bills payable, $5,758,299 75. Total, $1,913,239,201 16. Number of banks 2016. The amount of circulation outstanding on the 30th of July, as shown by the books of this office, was $351,869,908, which amount includes the notes in circulation of banks which have failed, are in liquidation and have deposited legal tender notes under the act of June 20, 1874.

—A gentleman of Wilkesbarre, Penna., has recently discovered a process for glazing earthenware without the use of lead, which is a very important matter, the poison of the lead being dangerous when care is not observed in the manufacturer of the ware. The new glazing is claimed to give greater smoothness and still be as durable.

—The Twenty second Annual Session of the State Teachers' Association assembled at Wilkesbarre Tuesday morning. Four hundred delegates were present, and W. W. Woodruff, the President, occupied the chair. Rev. D. Copeland opened the proceedings with prayer, after which Hon. H. W Palmer delivered an address of welcome and H. N. Eastbrook responded on behalf of the Association.

—Josiah Deemer, an old resident of South Easton, committed suicide on Monday evening by taking a dose of laudanum. The deceased leaves a wife and three children.

—The Catasauqua Manufacturing Company has put up notices that the wages of all the employees will be reduced 10 per cent. from and after August 16. The company will in turn reduce the rent of their houses 20 per cent. from that date.

—The superintendent of the Allentown Rolling Mill has notified the employees that their wages will have to be reduced from ten to thirty per cent. on account of the decrease in the price of manufactured iron.

—Apples do not promise to be very plenty.

"$160,000"

Made in Two Months. A Wall street Operation. The Banking-house of Alex. Frothingham & Co., No. 13 Wall-st., who deal in Stock Privileges, have paid this enormous sum to their customers during this short space of time. Some persons have made as high as $6000 from only $100 originally invested and many have made $1,000 and over from only $5. They paid in a single day over $40,000, for which only $1,000 was received, or $37,000 net profit to various people. They employ continuously from twelve to fifteen competent bookkeepers and assistants. With this strong force they are often compelled to remain at their work until midnight. This energetic firm well deserves the credit of being the leading house in their branch of business, it is most wonderful to acknowledge that they have established this business in the short space of five years.

They have customers who reside in nearly every State of the Union, the Dominion of Canada, from the Island of Cuba they receive orders from persons who are continually dealing in stocks. Their business has become so extensive that two experienced correspondents are employed to attend to their advertising accounts. Their cards may be read in every first-class newspaper published in the United States. To this they attribute a portion of their success. We advise those desiring to place their business with a firm possessing the very highest record for uprightness, and who conduct their business upon honest principles, to deal with this house. They also issue a weekly report of the condition of affairs in Wall street, which they are good to mail free, for one year, to any one who desires and contemplates speculating.

Send for it.—Evening Mail, N. Y. July 31

WONDERFUL, BUT TRUE! Whenever I get a BOTTLE OF YOTTH OR MONGOLIAN BALM, ROSE TINT, or a BOX of LILY WHITE, or anything in that line to beautify the complexion, at DURLING'S DRUG STORE, it seems to be nicer and better than I can get anywhere else. May 6.
