-Chas. Zeiner has opened a livery stable on Race St. in the stable formerly occupied by Dr. G. B. Linderman.

-The potatoes in this section have been greatly damaged by the rain.

He was in a Hurry !

He was is a Burry : Beans, potatoes, corn. tomatoes, bread and butter, and a large piece of roast beef, were dis appearing with institung-tice rapidity. for it was evident the diner was it a great hurry. 1 never saw a man est faster in all my life and that's asying considerable, for Tm not back-word as far as eating is concerned, but inis chap fairly test the callos off the bush. Could be be haven to marke a train i Was he going to be married or what's These and many other thoughts passed through my boyb brain, as I inverse over my piete of hash, and gaaed with reptare upon the 2:6 easter. Still the kuife and tork kept fashing and fying to and fro from the plate to the espacious mouth off the wonder. fork kept flashing and flying to and fro from the plate to the capacious mouth of the wondor. In cater Presently the waiter wont back to order liver and beans for a customer, and at that moment some one came in and encaged in conversation with the cashier, when up jumped the gored individual and bolter out of the res taurant at a single bound. 'Check, sir," and the cashier, as he caught sight of the cost-tail of the heavy cater. But he was not waiting to be checked, not a bit of it—he was in a hurry, clear through to the back-hone, for he had made his dinner, and was evidently starting out to make his supper-in the same way. clear through to was evidently such that dinner, and was evidently such that anno way. The same way. Yours truly, MARCUTIO.

The Coal Trade. The coal trade has moved singgishly in all its departments during the past weez, excepting only the sale of coal for demestic purposes-which has been moderately softre in all the markets. We believe it is no longer expected that there will be a revival in the iron and other manufacturing interests in the iron and other matkots. We believe it is no longer expected that there will be a revival in the tron and other manufacturing interests in time to cause an in-crease in the coal trade. The regular monthly advance on coal as agreed upon by the associa-ted comparise has been announced. There is not one of our grast productive industries that is more dependent on the general prosperity of the country. The ways are innumerable in which its consciption is lessened. When the "times are out of joint" of course manufactu-rese use less, while domestic constmers econo-mise in every possible way. These causes are now operating with greet force to make the provide the works are included by the the interest of the course in constituents are now operating with greet force to make the prosting with greet force to make the interest and coal trade as unnucually light one shipe the resumption of mining. The shipments of intere are listed and but for the voltar intere are been and the vortice is com-provered.
