Democratic County Convention.

The delegates to the Democratic County Convention assembled in the Court House, at Mauch Chunk, on Monday morning last, at 11:15 o'clock. The convention was called to order by the Chairman of the County Committee. Col. Robert Klotz, in a brief speech advising harmony in making the nominations.

Dr. R. Leonard, of Mauch Chunk, was chosen Chairman; upon taking his seat the Dr. made a very neat little speech-advising the members to choose candidates in accordance with the old Jeffersonian principle - " capability, fidelity and honesty." The Dr.'s speech was received with much applause. Nathan Belford, of Mauch Chunk, and John S. Len'z, of Lehighton were chosen Vice Presidents and took their seats. F. P. Semmel, Reuben Horn and Jos. Lynn were made Secretaries.

The credentials of the delegates were then called for, and full delegations from each district responded to their names.

A motion was made for the appointment of a committee to revise the rules governing the party, said committee to report at next County Convention. The motion was carried, and the Convention adjourned for dinner.

We have no hesitation in saying that no better choice could have been made for the office.

The Coal Trade.

The coal trade continues quite large for both authracite and bituminous, and a very large amount of coal is being sold at the pre vance in prices. We hear of some anthracite purchases by the iron furnaces, but, independent of this, the shipments of coal from the coal centres, memby for domestic uses, is very large. The retail demand for coal in this market, is very active, and is likely to continue so for the next two months. Notwithstanding all this, it is believed that never before has there been so much economy observed in coal consumption on the railroads and in homes. The latest reports from Boston and most other New England ports is, activity in coal at prices ranging from \$7 to \$5 k per ton. The Schuylkill Coal Exchange announces that the pariles drawn on Septem-ber 3d lost to mraish prices of cost on which to base rates of wages to be paid for that month, makes the following returns; Lawrence Merkle & Co., \$2 52.79; Shenandosh City Colliery. \$2 57.-50; Gilberton Coal Company. \$2 62.53; Girardville Colliery, #2 52,70: Hammond Colliery, #2 52,70. The average of these prices being #2 57,-12 100, the rate of wages to be paid for September will be two per cent advance on \$2 50 basis. The supply of chestnut coal has become so largely in excess of the demant that it has become necessary to restrict the quanty sent from the mines.—Leder, 4th.

The following table shows the quantity of coal shipped over the Lehigh Valley Raircoad for the wesk ending October 2d, 1875, and for the year a compared with the same time last year;
