—The following is the official majority of the candidates in the county.
—Big Dutch John, of the Broadway House, was so stubborn on Tuesday that he would vote neither ticket. John, you had better go to Germany again.

—The following ludicrous scene was enacted on Wednesday morning the result of Tuesday's election returns, Geo. W. Esser, a barrel of apples with Col. Jno. D. Bertoletti that Edgar Twining would not be elected by one hundred majority in the county, and that in case Twining was not elected the Col. was to wheel the barrel of apples on a wheel-barrow to Esser's house which the Col. bravely did by throwing of his evencoat and taking hold of the barrow amidst a cheer of a large crowd.

—The climax of the apple scene was concluded on Thursday afternoon at one o'clock. Precisely at the above hour the freight and express wagon of C. A. Rex was driven in front of Rex's store on Market Square. A large crowd had gathered to witness the fun. Six barrels of apples of the new species were at once loaded on the express train standing in readiness and labelled in large letters as follows: Klotz, Lenz, Esser, Leonard, Kalbus and DeYoung. A small flag decorated the horse's head on either side while six other flags were spread to the breeze from each barrel. By this time Col. Jno. D. Bertoletti was seated by the side of the driver and in a few minutes the train started off slowly down Market street, wheeling left down Susquehanna, and counter-marching up Broadway, while the Col. with that liberal spirit which always animates him was casting the Kalbus apples to the by-standers on either side of the street as the train moved slowly along, when the school house was reached the b'boys and girls infused into the Col. the spirit of the days when he was a schoolboy, and he immediately ordered a barrel to be unloaded and gave 'em to the scholars. The remaining barrels were driven to the Col.'s home and now he has extended invitations to his many friends to come and partake of them.

—Prof. Kindt, teacher of the high school, at East Mauch Chunk, has changed his boarding place from the Broadway House to Mrs. Brodhead's, on Centre Street, East Mauch Chunk.

—Mr. Luther Yeager the efficient clerk in the Post office leaves us on Monday next for Philadelphia, to engage in his old trade, viz: printing. Lu, may you be as prosperous and industrious at your trade as stamping letters, and may success crown your efforts in the wish of your friend.

Broke His Leg.
On Wednesday evening last, Mr. Levi Straum, a teamster for Thomas Weaver, of Packerton, was out with the team on his way to Mauch Chunk, and when near the E. V. depot at the latter place, the wheel struck a stone with such force as to throw him to the ground, causing a fracture of the left leg, midway between the ankle and knee. At Mauch Chunk Dr. DeYoung temporarily bandaged the limb, when he was sent to his home in this place, and was then taken in charge by Dr. N. B. Reber, and at last accounts we learn that he is doing well.

—No singing school at Pine Run on Saturday evening on account of the severity of the weather. Mr. Seam did not put in an appearance.

—A series of protracted services commenced on Sunday evening, under the auspices of Rev. S. Breyfogel, of Parryville, and will continue during the week, and longer if indications are of accomplishing any good.

—Last week's ADVOCATE was the best and most interesting issued for some time. The introduction of varieties on the first page was a pleasing feature. I would advise all who desire a real live paper to send \$1 for the CARBON ADVOCATE, which sum pays for a year's subscription.

TOWNSHIP, NOV. 5th, 1875.
Bank Robbed.
The First National Bank of Pittston, Pa., was robbed on Tuesday night of \$40,000 in bonds and money. The bank is a one-story building, with a flat, tin roof, and through this the robbers cut a hole and three of them descended by a rope ladder into the vault, leaving two others on the watch outside. The door of the vault is furnished with a burglar alarm, but the robbers avoided this by getting in from the top. They secured their plunder by blowing open two spherical safes. A citizen saw them as they were going off, and an alarm was raised, but they escaped, leaving behind them a full set of burglars' tools. Among the bonds stolen were Lackawanna and Bloomsburg Railroad bonds to the amount of \$11,000; Wilkesbarre City bonds to the amount of \$5,000; \$20,000 in bonds of the Oxford Iron Company of New Jersey, and \$1,000 in Pittston Seminary bonds.

Disgraceful Occurrence.
EDITOR CARBON ADVOCATE—DEAR SIR.—On the day after the election an occurrence took place in Mauch Chunk, which for meanness, filthiness and unprovoked cowardness, is almost too bad to be imagined, that in this State, which is noted for its patriotic and ever loyal sentiment, a soldier, who was his leg upon the battlefield while defending the stars and stripes, should be called a "d—d liar" and a "c—d creep," simply because he tried to vindicate himself from gross falsehoods that had been circulated about him. Such an occurrence took place in Mauch Chunk. Mr. Alrod Whittingham, a true, tried and ever loyal soldier and citizen was as above stated, assaulted by a man (I) who had made it his business to circulate some of the most infamous falsehoods that ever passed the lips of man. Should we not watch such men? Must we, as free men, be sowed down by them, and can we keep quiet and see such an outrage committed on one who has labored to sustain this free government? Mr. Whittingham, may you publish the above, and oblige those who do not esteem it a disgrace to be crippled soldiers.

I am, Sir, A COMRADE.

The Coal Trade.
A striking off in production hereafter to the end of the year is probable, unless there shall be an unexpected revival in the iron trade. While it is not denied that the iron interest everywhere has been greatly depressed for the past two years, this, nevertheless, the depression in anthracite coal, we are satisfied in being able to state that there are now some evidences of improvement at the furnaces and mills in the eastern part of this State. Within two months nearly all the iron works in this section of the State were almost entirely without orders. This is now changed for the better. One largely in the business and connected with two or three works, now informs us that his mill is fully supplied with orders for all the rest of the year for the remainder of this year. This is encouraging, though the trade is still much depressed, and especially so at Pittsburg and the West generally. There is an interest, probably more nearly at the bottom, now and in which those engaged in it are more pinched for ready means to keep afloat, than those engaged in the manufacture and working of iron. The future outlook, however, is now a little more encouraging, and if what is felt to be the crisis of the trade has been carried over, a slow and permanent revival to the survivors may be reasonably calculated upon. There is, however, just ground to fear that a summer who are now striving to weather the critical point will have to yield to the emergency that threatens to engulf them. The end is near.—Pitts. Ledger, 3d.
