The Carbon Advocate. H. V. MORTHIMER, EDITOR

LEHIGHTON, PA.: SATURDAY MORNING DEC. 25, 1875.

A Merry Christmas,

To morrow (saturday being thristmas Day, we have leaned our paper one day series in es-der that ourselves and employees may enjoy the tentrities or the day. The ADVOLTE will also be issued on Friday afternose of part work, instead of Saturday. Persons taying advertisements or other matter, for insection will please make a note of this fact.

-The "Granger cases," which involve the right of States to regulate the carrying rates of rallroads, will be further argoed in the Supreme Court of the United States on the 11th of Janusry. As they cannot come before the Judges for consultation until after that time, the published statement as to the nature of the decision is erroneous.

-The Immigration to the United States during the last fiscal year numbered 227,498. This is a failing off of 84,841, compared with the previous year, and of 232,205, compared with 1873-3 The decline in two years, it will thus be seen, is slightly over onehalf. The Chief of the Bureau of Stafistles, Dr. Young, gives, as the principal reason for this decline, the general prostration of business in this country since 1873, which has caused a diminution in the demand for labor. It may be noted that the heavlest decline Is in the immigration from Germany, Anstria and Contine tal nationalities ; the arrivals from these countries being less than one third C.e number arriving thence two years ago. This is attributed partly to the great efforts made by those governments to discourage the emigration of their people.

--- In the National House of Representatives on Monday last no business was transacted, except the announcement of the Standing Committees by the Speaker. Immediately after their announcement the House adjourned for holiday recess. The chairmen of the eight principal committees are as Ways and Means, William follows : R. Morrison, of Illucois; Appropriations, Samuel J. Randall, of Pennsylvanfa ; Elections, John T. Harris, of Virginia ; Judiciary, J. Proctor Knott, of Kentucky ; Forsign Affairs, Thos. Swann, of Maryland ; Banking and Currency, S. S. Cox, of New York ; Pacific Railroads, L. Q. C. Lamar, of Mississippi ; Public Lands, Milton Sayler, of Ohio. The chairman of the Centennial is James H. Hopkins, of Pennsylvania.

-It is urged, says the Harrisburg Patriot, that it will be impossible to consider at the next session of the Legislature some important measures that were voted down last winter if the position be maintained that the next will be an adjourned session. This is on the parliamentary rule that a bill that has been lost in either house cannot be introduced or considered again in the same section. Among these measures are the appropriations for various charstable institutions, the judicial salary bill and bill relating to the revenues. In regard to the charitable appropriations it is not likely that the Legislature would make appropriations for the year that is past even if the obstruction were removed. But it is easy to get rid of this difficulty. Let the rules

-The visit of the Senators and Representatives in Congress, the President of the United States, members of the Cabinet, Chief Justice and Associate Justices of the Supreme Court, Governors of States, and other distinguished gentiemen, to the Centennial Grounds, took place on Saturday last. After the party had inspected the various Centennial Buildings they sat down to a banquet in Horticulture hall. Mr. Bullitt presided, and, after the opening addrees, proposed the first toast, "The President of the United States." President Grant was loudly cheered and called for, and responded by bowing his acknowledgments. Addresses were then made by Chief Justice Waite, Senator Morton of Indiana, Representative John Hancock of Texas, Governor Bedle of New Jersey, Representa-tive C. H. Harrison of Illinois, ex-Speaker Blaine, Hon. George Bancroft, Mr. John Weish and U. S Commissioner Hawley. At the couclusion of Gen. Hawley's remarks the guests from Washington and Baltimore departed for those eithes According to telegrams from Washington the guests of the Centennial authorities, on their return to that city, expressed themselves much gratified with the manner of their entertainment in Philadelphia, and said their hopes of the success of the Cen-Lennial were much strengthened by acquaintance with the progress of the work. Many members of Congress in listened to the addresses at the banquet promised to support the appropriation asked for to complete the great work, and others privately expressed similar infontions; so that no doubt is felt that Gougress will vote the required motion and a thir douars.
