In this borough, was very generally kept by our people. Services were held in the several churches, and all the stores were closed, except the toy and candy establishments, which latter seemed to do a good business. In the evening, having occasion to go up town a short distance, we were astonished at the number of CHILDREN we met staggering drunk upon our principal street. In passing a distance of less than two squares we met at least 12 or 15 young boys, varying from perhaps 14 to 18 years of age, bearing unmistakable evidence that some person had been supplying them with intoxicating fluids. At what place they had been furnished with the means of getting drunk, we know not, but we do know this, that whoever he be he deserves to lose his license and be incarcerated in our common prison. In the case of Cornellos Stewart & Son vs. the Lebigh Valley Hallroad Company judgment has been reversed by the Court of Errors and Appeals. The case was as follows: Cornelius Stewart & Son leased thirty-two boats of the Morris Canal Company with the understanding that they were to have a "drawback" of fifty coots per ton upon all freight carried by them for a period of five years. For the first three years the Stewarts were allowed the stipulated drawback, but at this timethe Morris Canal passed into the control of the Lehigh Valley Railroad, by lease; and the company refused longer to allow the "drawback," except on blast, furnace No. 7, which had been the thirty-two boats purchased of the lying idle for a long while, having been canal company. In the spring of 1873 the railroad company entered suit ing very satisfactorily. One after against the Stewarts for the fifty cents per ton on all merchandise carried by their boats except those leased of the Morris Canat Company, and obtained Judgment In the Hudson County Court. The Stewarts appealed to the Court of Errors and Appeals and the decision of the Hudson County Court was reversed and judgment given lu favor of the

The Cost Trade. We have nothing important to add to our last weekly report of the anthracite coal trade. The oversupply of coal bills, and Jerry S. Keiser, our estimable that caused suspension of mining still continues, and pretty much all business connected wit i the trade continues now as a week ago. Prices have not been advanced in consequence of suspension nor is it probable that they will be during the present winter. There is some little mining of coal in the Lehigh coal region, and any prospect of a material reduction of the present output will stimulate production. But at present the coal trace is very quiet. The Publisherphia and Reading Coal and On Christmas, p. m., while the Pho-nix and Hibernian bands were discourse to mounced the following as the prices of Richmond for the month of January ; White ash-Lump, \$4.55; stembeat, \$1 65; broken, \$4 50; erg, \$5 15; slove, so 66; and chestout, \$4 45. It is now well established that there will be at least a partial suspension in the Wyoming coal region, beginning early in January. The great amount of coal on hand with the continuance of mild weather is one reason for it, while another is the necessary annual repairs to the mines. The suspension will, however, not be more than two or three weeks and will not extend to the individual operators of the valley. Is their intention to push operations othes and overcoat valued at sixty | The miners are excited over a reported reduction of ten per cent. on their wages, but there is no reason for it.
