Ferguson's Adventures.

A STORY OF PARTISAN DAYS.

This for the gallant Ferguson !" The foregoing five words had institu-ted a reign of terror in one of the loveliest districts of the Pamietto State—a district watered by the Catawba and Parcolet rivers and their gentle tribu-

taries. In the month of September, 1780, Cornwallis detached the notorious Col. Ferguson to the frontiers of North Carollua, for the estensible purpose of en-couraging the tories of that region to take up arms for the king. Ferguson's force consisted in part of the most profligate and abandoned characters of the partisan days, and his march was marked by atrocities of the most shocking description. The hardy men of the Carolinas, Kentucky, and Virginia, rose against the marauders, and, led by Boone and other back-woods worthles, gave them a decisive defeat at King's Mongraty. Farguson was slain in the Mountain. Ferguson was slain in the battle, and his fellow foragers number-

oattle, and his fellow foragers, humber-ing about one thousand, were nearly all captured or killed.

This conflict revived the hopes of the Southern patriots, and forced Corn-wallis to return to Charlestown discom-fitted and cost down. fitted and cast down.

We shall have rest now,"the pairi-said, after the battle. "Ferguson, the dreaded, is dead, and the few tor-les who escaped with their wretched lives are not strong enough to do us

Everywhere in the vicinity of the battle-field the Americans breathed freer, and the loyalists in whose interests Ferguson had marched to his death, curbed their loyalty, and in secrecy swore revenge.

But the settlements were soon to learn

that the victory of King's Mountain had

nerved the arm of a foe more terrible than any which they had hitherto known. The existence of the new terror was discovered by a boy one morning about a foreright after the battle. He found the family of Archibald Mettson mur-dered in their own house, and to the

corpses had been pinned a paper bearing these words:
"This for the gallant Ferguson !" This terrible atrocity aroused the country, and the excitement was quick-ly heightened by the finding of the body of another murdered patriot. On the cold breast, which had been pierced by

pistol balls, was the palld paper and its works of terrible import, and the country knew that a fearful vengeance would be taken for King's Mountain.

During the week that followed the discoveries I have more than the country that the country is the country to discoveries I have mentioned, the work of the Avengers was terrible. They fell upon patriot houses at the dead of night, and left on the bosom of their victims the five words which had already terrorized the country. It was in vain that the patriots summoned their ennning and energy for the capture of the band of demons, which, as it had been discovered, numbered six men, masked, and mounted on black horses They came and went like ghosts, but always left behind the terrible sentence Business, I am prepared to furnish all kinds of which had made their existence execrable. At times they fell upon their

hunters, and left them by the roadside marked with the sign of vengeance. Fear began to paralyze the Carolinians; many abandoned their homes for the sake of their families; and it is probable that the entire district would have been depopulated in a short time, had it not been for the courage of one

Her pame was Alice Beauchampe. It was a dark night in the last week of November, when the heroine of my story left the house of a friend. Her own house, which had been deserted for several days, was not far away, and she had determined to return to it for

the purpose of securing an article of apparel left behind in her recent flight. Before she set out on her journey she was warned of the dangers that vironed it; but she smiled, and de-clared that she did not fear them. She could enter the old house through the kitchen, in the rear, find the garment without a light, and return safely to

her friends. The path she had often traversed was barely discernable; but she made good headway, and reached her home without incident. The slience of the grave hung about the forsaken place, and the lifting of the latch sent a chili of terror to the young girl's heart. Through the kitchen, across the desert-ed parlor, and up the stairs, she crept to the room where she had left the ob-ject of her nocturnal quest. The drawer of the old bureau yielded with-out noise, and Alice was drawing forth

the garment when the voices of men She started, dropped her prize, and with her heart in her throat crept to the window that overlooked the poarch in

front of the house.

She could see nothing, for the night was too dark; but the voices of men, mingled with the champing of bits, con-

tinued to salute her ears. "This is old Beauchampe's house," said one. "It has been deserted for several days. The daughter, frighten-ed by the manner in which we treated the father, has fled somewhere for protection."

These words drove every vestige of color from the listener's face; they told her who the men below were, though she could not see even the outlines of the could not see even the outlines of their persons. One week prior to her visit, her father, one of King s Mountain heroes, was found dead in a paimable to define the could not see even the outlines of doing its accustomed work on all save the could not see even the outlines of doing its accustomed work on all save the could not see even the outlines of doing its accustomed work on all save the could not see even the outlines of doing its accustomed work on all save the could not see even the outlines of doing its accustomed work on all save the could not see even the outlines of doing its accustomed work on all save the could not see even the outlines of the could not see even the outlines of doing its accustomed work on all save the passion of the could not see even the outlines of the could not see even the cou

etto grove, and the words of Ferguson's Avengers lay on his breast. Then she had deserted her home, knowing that the hand that had struck the father would not spare the daughter.

Well might the lone girl tremble when she found herself so near the dreaded scourges of the country, and she did not move until she heard the front door opened by a kick, and heavily booted feet in the room below.

Then a calm thought of her situation drove fear from her heart, and Alice

Beauchampe prepared to perform one of the most daring deeds of the Revolutionary War. The noise in the house increased, and

oaths and rude jests preceded and fol-lowed the lighting of a fire on the hearth. Alice, who had longed for a sight of the dreaded six, crept to a spot near the bureau, where there was a crack in the floor. Then applying her eye to the peek-hole, she saw six wild looking men directly beneath her.

They were, beyond doubt, the Avengers of Ferguson's death, fer several masks lay on the table, along with three or four bottles of wine which they had taken from some patriot's cellar Tall, rough, devil-may-carelooking fel-lows they were, armed with pistols, carbines, and sabres, the kind of men who never court the smiles of mercy of listen to the pleading of innocence. Just such fellows as they were, Alice had supposed them to be, for she had seen many of the prisoners taken at King's Mountain, and she longed for the presence of a band of patriots. There were true men in South Carolina at that time who would have given their right arms for a chance to exterminate the Avengers, and Alice knew where a little party of patriots lay, but alas

"We'll rest here and finish that wine!" said one of the leaders of the band, whose face told that already he had imbibed freely. "Bring in the poultry, and on old Beauchampe's hearth we'll prepare a feast."

At his command, one of the men left the house, but soon returned, bearing with him a duck and several chickens, from whose freshly wrung necks the blood was dripping.
"How's the horses," asked one of

the Avengers, as the man flung the poultry on the table. "Standing like rocks," was the reply. "Such horses as they are don't need watching, and, beside there isn't a rebel within ten miles of this accursed

place."
Why,there's the Widow Hartzell,"
Why,there's the Widow Hartzell, " I didn't think of her," was the re ply. "How bitterly old flartzell hated us, but we caught him at last,"

' And presented him with a breast pin! Ha! Ha!" And the laugh went round the room Alice Beauchampe did not wait until the laugh was ended; while vet it filled the house with its devilish echoes, she glided across the room to a window that looked out upon the dark palmetto grove, behind the building.

There was no sash in the window, and the cool winds of the night kissed the

darkness beneath the window; but or endeavors, she crept over the sill, resolved to trust to fortune for The distance to the ground was not great, and the darling girl alighted

without injury. Now she was free to make her escap to the friends she had lately left; but immediate flight in that direction was not her intention. " Heaven aid me !" she murmured

as she glided around the old house and

approached the horses which the tories had left tethered to the small trees a few yards from the door.

A glance into the room revealed the forms of the Avengers discussing the wine with oath and jest, or watching the roasting of the fowls. They did not fear danger, for their horrible deeds had completely terrorized the country,

and under the sway of their lawlessner it was fast becoming a desert. Alice counted them before she touched a single rein; and then in a brief period of time she loosened the horses and quietly led them into a small copse not far away. The steeds did not refuse to obey her guidanceship, and when she had reached the copse, she struck them with a whip which she had found beneath a saddle. It was a smart blow that she administered, and the horses started forward and disap-

peared in an instant. Thus in a few moments Ferguson's Avengers had been deprived of their

Fiushed with triumph, Alice Beauchampe returned to the house, and again looked in upon its hilarious ten-

Buts. She now held a pistol in her hand— a weapon which a holster had granted her, and she crept to the end of the porch before she halted. There was the dash of vengeance in the dark eyes of the partisan girl while she gazed up-on the party beyond the threshold. Once or twice she raised the weapon, but lowered it again, as if playing with the life of the leader of the six, whose burly form was revealed by the light

of the fire. She saw the fowls, smoking and well burned, placed on the table, and watched the greedy men crowd around for their shares. Their tongues and move-ments told her that stolen liquor was

"Comet enough of this!" he suddenty cried, rising from the table, which had been dragged to the centre of the room. "Get up, boys, and let's be going. I told you at Wiley's that you had wine enough, but you must bring some here and dring yourselves stuped. Tom Scott, and you Blakeson, I am ashamed of you! What would we do if a gang of rebels should catch us in this condition? You know the mercy we would get, and yet you sit there as careless as statues—drunk as old Bacchus him-

Then an expression of contempt passed over the man's face, and, stoop-

But his cry of alarm did not infuse much life into the men at the table. One or two heads were raised, but the drunken leer that made the faces hide ous was enough to provoke a smile, even

from the mad tory.
"Men!" he sneered, contemptuously. "Dogs! every one of you. I've a mind to ride down to the Pacolet swamp and tell the rebels hiding there that the men they hate are in their power. I have thought that I commanded man, not drunkards!" and he manded men, not drunkards !" and he struck the table with the butt of his pistol, but could not rouse his stupid followers.

The next moment, with an oath on his lips, he strode to the door, which he jerked open, and stepped upon the "Curse such dogs as I lead;!" he

hissed. "I suppose I must lead the horses up, and tie each fool in the sad-He was stepping from the porch for the purpose of attending to the horses which he supposed were still tethered at the trees, when a form rose before

Down on your miserable knees, Godfray Lang, and beg for the mercy you have never granted others! Down, I say!" Perhaps the shadows of the window

sash did not premit him to see the pistol that was clutched in the hand of the fearless girl, else his rashness might "Kneel to you? Never!" he cried.

" Now for the swamp !" she cried,

Alice Beauchampe's velce had fired the hearts of a patriot band for ven-geance. On her way to the swamp she had encountered the partisans who had captured one of the flying horses, and were following the trail. The conflict between patriot and tory
was brief and almost bloodless.
