Mahoning Items.

-There is not much stirring about in Mahoning at present. Times are rather dall. Some people are studying out plans to meet that dreadful for, "the first of April," which is so rear at band, while others again are studying about the trial of Kelly which come off next Court term, and there are still others again cutting out plans to get up birthday celebrations, etc.

The only thing of any importance is the singing school at Pleasant Corner, which Is progressing finely and undoubtedly continue to do so, while under the instruction and leadership of our friend Elias Hoppes, who is well adapted to that position. School Directors.

Some time ago we published a section of an act of Assembly requiring School Directors to publish an annual statement of the finances of their districts in January. On closer examination we find a supplement to that act, approved April 11th, 1875, which changes the time of publication to the end of the fiscal year, which will be in June. The act requires that the authorities of the district shall then prepare and publish in at least two newspapers of the county a statement showing in detail the actoal indebtedness, the amount of the funded debt, the amount of the floating debt, the valuation of the taxable properties therein, the assets of the district, with the character and value thereof, and the date of maturity of the respective forms of funded debt thereof; and a neglect or failure so to do shall be a misdemeanor, punishable by fine not exceeding one thousand dollars.

By reference to the advertisement of T. D.
