—On Monday, Sheriff Breisler, in company with deputy sheriff Pealer took James Harvey who was convicted of stealing \$150 from the firm of Mumpster & Co., to the penitentiary to serve a term of two years either at hard labor or solitary confinement. The way of the transgressor is hard; but then, the difficulty is, they don't steal enough in order to employ special police to seal the testimony from the District Attorney's office and trump bogus telegrams, etc.

—E. R. Siewers, Esq., was on Tuesday subpoenaed before the Court at Wilkes Barre to testify in a case against Jabez Alsvor, Esq., of Hazleton, for the alleged detention of certain moneys.

"Ah Cow's" Reply—"By Marcellus.

—Come hither, gentle—"Ah Cow." And see if I can tell me how, Or at any rate why, When you chit-chat me abroad, you like to be away from the scene of your toil, In your own native soil!

"Ah Cow," with a laugh, Which sounded like that of a calf, It probably meant, "I'll be off, but without further ado."

"Master, if you wish to know, I will tell you true and sure, IT'S BECAUSE CHINA SELLS MAXIM!"

Death Warrant Issued.

—Governor Harrington Thursday issued the warrant for the execution, on the 6th day of June next, of Edward Kelley, convicted in our county Court, on the 14th day of April, 1874, of the murder of J. P. Jones, and sentenced April 22, 1874, to be hanged.

Some Shooting.

—We clip the following account of a shooting affair at Coalport, near Summit Hill, from the columns of the Shenandoah Evening Herald:

—We have information that during a dance at Coalport on Friday night, 14th, two men were shot, one of them accidentally. This accidental shooting happened through one man's having a "shooter" in his pocket, which, during the dance, was pulled a slant from his pocket.

—The other affair was between two men who were in a quarrel, which was broken up when one of them pulled a slant from his pocket, and shot the other, who at last accounts was not expected to recover.

Foot Mashed.

—John Bartholomew, conductor of a freight train on the L. V. Railroad, and a resident of this borough, while making a coupling of cars just below the depot at Mauch Chunk, on Wednesday afternoon was thrown by the sudden jer of the cars between the bumpers with both feet, the right foot being so severely mashed and deformed as to require the operation by tracing of the injured member, which was helped above the ankle joint, after which he was helped to his home in a palanquin. At the present writing we learn that he is progressing favorably.

The Systematic Dictionary.

—The above is the title of a new work for the use of Primary schools, handed to us by Miss C. A. Baker, a few days since. It is published by Mr. Geo. H. Hoffman, a graduate of the Keystone Normal School, and is calculated to be of very great help to young pupils. We believe it is the first attempt made by any author of school books to classify words in a simple and concise manner to be readily studied and comprehended by the younger scholars in our schools. The labor of Mr. H. in preparing this useful little work we trust will meet with due encouragement. Price 30 cents.

Whitewashing.

—This being the season when tidy house-keepers and cleanly disposed persons improve and purify their premises, by the literal use of lime and the whitewash brush, the following receipt for preparing a first-rate whitewash for walls, fences, etc., will be of interest. It is recommended by the Scientific American: Slack about one quart, mixed with four gallons of water, keep it covered during the process, strain it and add a peck of soft dissolved lime, mix it with a quart of water, and add a little oil and a little turpentine, and mix it together, and let the mixture stand for several days. Keep the wash thus prepared in a ke of tin, and use it as you wish, and you will find it as good as any other whitewash or lime wash.

Fatal R. R. Accident.

—Tuesday evening about half past eight o'clock, a freight train, the watchman on the Lehigh Valley railroad at Cata-sauqua, was leaving the depot on his usual trip he discovered the almost lifeless body of a young man lying at the side of the track, partly underneath the platform. He at once summoned aid and the body was conveyed to the depot, where an examination there found it to be Thomas, the son of Mr. William Hopkins, superintendent of the Cata-sauqua Manufacturing Company's mill at that place. Accidents were not infrequently met with in the examination of all injuries, and we are glad that they were so soon a notice that it is possible to do for the young man. He was taken to the residence of his parents, where it was possible was one for him but to no avail. Death followed him of his sufferings at three o'clock Wednesday morning. It is supposed the young man had jumped on a coal train, and in attempting to jump off missed his footing, and thus met with this fate.

A "Big" Pigeon Story.

—A wilderness known as the Beech Woods covers a large portion of western Pike county and northern eastern Monroe county, this State. In the depths of the woods a few days ago when they were started by a sudden darkening of the sky and a noise like a heavy gale of wind, all at the same time the trees about them began to rattle and shake as if by the wind, and a loud noise was heard in the air as if by the trees. They settled down in the trees as thick as bees, not in an irregular manner, but in a regular way, and seemed to be living in masses of pigeons. They lighted in the trees in such numbers that they seemed to be a living mass of pigeons. They seemed to take no heed of the men, and crowded the trees under their feet, and on the ground they were seen in great numbers. They were seen to take no heed of the men, and crowded the trees under their feet, and on the ground they were seen in great numbers. They were seen to take no heed of the men, and crowded the trees under their feet, and on the ground they were seen in great numbers.

—The lumbermen and others, when told by Bennett and Waters of the wonderful sight they had seen, exclaimed a "big" pigeon. Dozens of men were sent out to look for the birds, and they were seen to take no heed of the men, and crowded the trees under their feet, and on the ground they were seen in great numbers. The Coal Trade.

—The anthracite trade for the past week is without special feature. There is some demand for particular sizes of coal, in which some little increase of business might have been done had the supply of cars been as fully as desired. A good many loaded cars have been detained for want of dumping room. But these obstructions are probably but temporary and will be comparatively narrow fields. As to the price of the trade it waits upon that of the market generally, and the price particularly, so long looked for. The operations at the mines are so very more than half time. The return of the trade from all the regions for the week ending the 14th instant totals 22,222 tons against 198,500 tons for the corresponding week last year, showing an increase of 164,278 tons. The total quantity of anthracite mined for the year is 2,200,000 tons, against 2,200,000 tons for the year 1875, an increase of 200,000 tons.—Lehigh, 1776.
