Letter from Mauch Chunk. Mauch Chunk, Pa., Aug. 9, 1876. "The world moves," so at least it is said, but in so far as Mauch Chunk is concerned this appears to be a fallacy.

Yet still we live, and move, and have our being; in other words we vegetate, individually and collectively, but beyond this there is scarcely aught to communicate, so excessively dull are all our surroundings.

What is ails, gentlemen? Is the race of self-sacrificing patriots extinct? Please don't, for the life of you, much longer resist "the repeated and most earnest solicitations of those numerous friends," but come boldly forward, and let the people know who you are and what you want.

The death, on Sunday afternoon of Major Edwin Schertz, seemingly called for something more than a passing notice, I shall try to ascertain the particulars of his long and useful career and give them to your readers in extenso.

The contents of Mr. Frank Deborde's jewelry-shop were, on Wednesday last, disposed of at Sheriff's sale, the whole realizing, as we are informed, some sixty dollars. Poor Frank!

One great obstacle in the way of educational progress, is the employment of teachers who take no live interest in the work. This evil is gradually passing away. Directors see the importance and advantages of trained professional teachers over those untrained, while teachers themselves are beginning to realize the fact that if they wish to maintain their places in the teachers' ranks they must come up to the standard required.

The County Institute was held at Lehigh, in the latter part of November. The attendance of teachers was larger than at any former Institute held in the county. During the day and evening sessions the room in which the Institute was held was well filled with citizens of Lehigh and vicinity, who manifested their interest in the work by their presence.

Visits by patrons of the schools are more frequent than formerly, but still there seems to be a great apathy on the part of many parents to visit schools where their children are required to spend a large portion of their time between the ages of six and sixteen years, these are the persons who most frequently find fault with the schools.

On the Docket. It's nothing to get into a scrape, but to get out of it—there's the rub! For the edification of persons interested in such matters, I append a list of delinquent names, with the specific crimes laid to their charge, as I found them in a recent perusal of the Commonwealth's Docket.

All of the above, will not, of course, be acted upon until October term, and as yet nearly two months will intervene between this and that, we may confidentially expect a considerable increase in the number of criminal actions to be brought. Besides, since it would not do for Carbon to be in anywise behind adjoining Counties, we have the sweet consolation that quite a number of criminal actions, founded on "True Bills" yetumber the Docket.

Nesquehoning. Mr. Thomas McElvar, a member of the Anti-Monopoly Ring, attended a meeting in Mauch Chunk, on Saturday last; on arriving in Nesquehoning on his return, he started the inhabitants by throwing off his wearing apparel and challenging an ex-Commissioner in front of his residence and then getting into the pugilistic arena in Jacob Buss' hotel. Constable Crossan will take him to Mauch Chunk on Monday to answer charges preferred against him.

What punishment should be inflicted on a man who drove a blind mare from Mauch Chunk a distance of five miles, in 30 minutes, and then left the animal in the stand in his yoke three hours, in the open air? We think there is a law against cruelty to animals, wherein the violator should be punished.

schools equal to the best in the State. It is sincerely recommended to other districts, favorably situated, to try the experiment, or rather follow the example of Mauch Chunk Township. It will pay. The investment will prove good and amply pay for all the costs attendant thereon.

The schools in Banks District made very commendable progress under a progressive class of teachers, sustained and encouraged by a Board of Directors who are working faithfully to promote the best interests of their schools, by paying liberal salaries to teachers, employing and retaining those who only prove themselves worthy.
