-The six Fenian prisoners who

made their escape from the British penal colony in Western Australia, ou board the American whaling ship Catalpa, arrived safely in New York on Saturday of last week.

--- In accordance with the retrenchment legislation of Congress, about 140 employees of the Interior Department and thirty-nine clerks in the Post-office Department will be discharged on the 10th of October next.

- It may be interesting to School Directors in this section to learn that Judge Elwell has recently decided, in a suit arising in Columbia county, that repairs to school buildings already erected, cannot be paid for out of a special tax for building purposes.

--- Colou-1 Con. Maguite, who is serving a six months' sentence in the county jail at St. Louis for complicity in the whiskey frauds, publishes a "card" in the Evening Despatch of that city, which concludes thus : "When I again have the privitege of meeting my fellow citizens, which will be before the election, I shall have a little vindicating to do, and I may be able to show that some of our would be Republican leaders, engaged in preaching morality and reform, ought to have striped suits on and with their heads shaved be serving out a term in the ponitectiary."

-The Attorney General of this State has just notified the Eric Railroad Co. that it must rebuild the bridge across the Delaware River connecting Port Jervis, N. Y., with Matamoros, Penna , which was blown down during a violeat gale eight years ago. When the bridge was destroyed, it seems that James Fisk, Jr., obtained legislation in Pennsylvania which was supposed to release the Erie Company from its obligation to build and maintain the bridge. This legislation is now discovered to be void. The Lebigh and Eastern Raifroad, it is stated, will use the Matamoros bridge to connect with the Erie Railroad.

-The New York Liberal Republican Convention, called by John Cochrane, Chairman of the Liberal State Committee, and other supporters of Hayes and Wheeler, met at 11 a. m., Wednesday, at Saratoga, and was called to order by John Cochrane. The following resolutions, offered by Burt Vanhorn, of Niagara, seconded by W. A. White, of Livingstone, were adopted :

## Obituary-Michael C. Kerr.

Hon. Michael C. Kerr, speaker of the United States house of representatives, expired on Saturday evening last, at wenty minutes past seven o'clock, at last half hour was painless and peaceful-a death he eraved constantly during the past few weeks. He was surrounded by wife and son, and his faithful secretatics, Messrs. White and Scudder, and Mr. Cox and wife. On Friday he conversed in whispers, conselously and intelligently giving directions. to his secretary on private matters, and words of cheer to friends and consolation to his wife and son.

Hon. Michael C. Kerr, representative from the Third district of Indiana, and who was elected speaker of the Forty-fourth congress in December last, was a native of Pennsylvania, having been born in Titusville, Crawford County, in 1927. The foundation tion of his education was laid in the common schools of Crawford county, but he subsequently studied at several academies, in the meantime teaching school and improving his mind by a course of steady and profitable reading. Having taken up his residence in Ken-tucky Mr. Kerr studied law in the unlversity of Louisville, where he graduated with marked honors. After a short residence in Kentucky he removed to New Albany, Indiana. Here his talents and ability soon brought him into notice. In 1856 he was elected to the legislature of Indiana for two years. In this position he enhanced his reputation and popularity both by votes and speeches. His judgment was sound, and he had the courage to vote for the right no matter what influence was brought to bear upon him from interested parties. Besides serving in the legislature Mr. Kerr also acted at different periods as city attorney, and prose-cuting attorney of Floyd county. In 1862 he was chosen reporter of the supreme court of Indiana, and edited with great ability and clearness five volumes of the reports of that body. In 1863 Mr. Kerr made his appearance on a national platform, having been chosen to the Thirty-ninth congress. He was also re-elected in 1860, 1868, 1870 and 1874. In congress the career of Mr. Kerr was true to the principles which he professed. He opposed all lilegal schemes for abstracting money from the national treasury, insisted upon public officers being held to a strict account, urged the discontinuance of needless office-holders, and recommended bringing the government back to the early rules of economy. Being an impressive speaker, and at all times fortified with facts, Mr. Kerr commanded the attention of the house whenever he His record is that of an honest, spoke. upright and consistent democrat, firm in his principles without partisanship.

-The New York Republican State Convention at Saratoga Wednesday nominated ex-Gov. E. D. Morgan for Governor on the first ballot. The vote was 242 for Gov. Morgan, 126 for Mr Evarts, 24 for Mr. Robertson and 18 for Martin I. Townsend. A. B. Cornell was prevailed upon by his friends to withdraw, and his letter to that effect was circulated in the convention. He was named for Lieutenant Governor, but George William Curtis attacked him, and he was again withdrawn. Sherman S. Rogers was nominated for Lieutenant-Governor, and George F. #### Our Philadelphia Letter.

PHILA., Pa., Aug. 23, 1976. DEAR A DVOCATE, -The hungry army of mosquitoes are upon us in full force. they outnumber us by nayriads and we Rockbridge Alum Springs, Va. His are being rapidly devoured. In the early morning the bloated monsters take their places upon the walls of our dwellings and chuckle to themselves as they digest the crimson feast of the night previous. The screnade of the mosquito is abominable, yet the vain little critters follow it up immediately with their bills and draw blood at the first opportunity, whether we wish them or not. According to size the mosquito is the biggest bore I know of, the sole object of his young life is embodied in the following :

Bite, bite, mosquite bite, Bite all night tol broad daylight.

The mo-quito since and the mosquito bites. The mosquito's hunnry these summer nights Bite, bite, mosquite inte, Bite all night till broad daylight.

Last Saturday at least fifty thousand people attended the Exhibition and if the day had been pleasant, it is safe to say that the number would have been more than double. This week's twenty five cent day was a success, and the Com missioners should see that we have more of them and on other days beside Siturdays.

In Machinery Hall, opposite Lyall's som, described in my letter of last ceck, Messrs, I, and J. Dobson, of this loom; week, city, have an exhibit of two looms, one of which is weaving "Body Brussels carpet." Owing to the great variety and the brilliancy of the colors used in forming the designs of these carpets, and the fact that they are in great favor and daily coming into more extended use, this exhibit commands much inquiry and attention. Mr. Bucock the courteous gentleman in charge is ever ready to respond to all questions and is kept busy doing so most every day. Presuming your readers might like to know something about these beautiful carpets and their mode of manufacture. I will say that the pattern is formed by bringing to the surface, at any particu-lar spot, such one of the colored yarns as is required, and they are formed into loops by being turned over wires. These wires are inserted by power under the yarn in what is called "the shading of the warp." The origin of this wonderful machine (wonderful it is) for selecting the colored threads forming the figures or designs of these carpets is well set forth in the following article :

" The most important improvement made in looms was that invented by Joseph Maria Jacquard, by which the most intricate and complicated patterns are now produced by the ordinary shut-This invention was exhibited for tle. the first time in the year 1801, in the town of Lyons, France, and so indigpant did the populance become at his discoveries that his life was threatened more than once, and his loom was destroyed in a public place by order of in the presence of the authorities of the town. He was for a long time compelled to hide himself from the vengeauce of his fellow-workmen. He however, not only lived to see himself restored in the affections of his fellows, but was pensioned by the town of Lyons to the extent of ten thousand crowns yearly. He was also decorated with the Cross of the Legion of Honor, and became the pride and boast of the operative classes. He was born in Ly-ons in 1752, and died at Orleans, France, in 1834, at the advanced age of 82 years."

The Knights of Pythias had their pa-Court of Appeals. The platform was adopted without debate or dissent. Its all that could be desired and the display distinctive features are a declaration of the "F. C. B.'s" was a success

-At a meeting of the Board of Control of the great Coal Combination, held in New York Tuesday, it was desided to dissolve the combination, and the Board adjourned size die. As a result, 500,000 tons of cost will be sold at suction in New York on Tuesday next, on account of the parties to Tuesday's action. The news of the disruption causes much uneasiness in the Schuylkill coal region, as a decline in the price of coal, and a corresponding reduction in the miners' wages are looked for. The miners have lately been mrking only one-half and, in some instances, onehird time, and there is a gloomy prospect for the winter. It is doubted, also, if individual operators will be able to continne production with lowered prices for coal.

-State Senator Van Nortwick, of New Jersey, on behalf of the secret political order of the O. A. U., has written a long letter to Goy. Hayes, of Ohio, regarding the public school plank of the Cincinnati platform. He says "the earnest workers of the O. A. U. have an interest in understanding whether the seventh plank of the Cincinnati platform means business or otherwise. If the resolution be a sham -s mere wordy exhalation-then they must bide their time. If, on the other hand, it means that the school question is a live issue in the present canvase, then they expect word will be passed to the whole line. Until that word is given, and until the movement begins in earnest, they will necessarily feel that they have no part nor lot inthe matter."
