-It is announced that, until further notice, the President will not receive visitors on business until after twelve o'clock daily, as he is busy packing up his papers, preparatory to leaving the White House.

-We are in receipt of a colored chromo, representing twelve styles of the new German Pansies, ranging through all colors, white, black, carmine, yellow, bronze, etc. The work is exceedingly well done, and the varieties of this beautiful flower as shown by the chromo, are entirely novel and distinct. This chromo, together with their book of "Everything for the Garden," numbering nearly 200 pages, is mailed by Peter Henderson & Co. Seedsmen and Florists, 35 Cortlands Street, New York, on receipt of 25 cents.

-Commenting upon the strictly partisan decission of the commission to decide the points of disagreement arising in the count of the Electoral vote for President, in the Florida case, the N.

Y. Sun of Monday says: One thing, however, the House of Repres tives, even under this unconstitutional bill, has still the right to do, and we adjudge it to be so sum the imperative duty of the House, which should not be emitted: It has the right to adopt a resolution that Enthford B. Hayes has not been elected President of the United States, and that the Trest ent of the Senate ought not to declare him elected.

This would leave the title to the office open to be contested before the Courts. The only trou-ble about that is that we have not, any longer, a Supreme Court of the United States. The fury of an honest and indignent popular opinion however, rising, as it assuredly will, like a whiriwind and a storm, may safely be trusted to drive the present nominal judges from their places upon the bench, substituting a judiciary for that pontical body.

-The decision of the Electoral Cemmission in the case of Fiorida was rejected by the U. S. House of Representatives Monday by a party vote. The Senate and House then re-assembled in joint convention, and the votes of Florida, Iilinois, Iowa and Kansas, were counted for Hayes, and the votes of Georgia, Indiana and Kentucky for Tilden. When Louisiana was reached, two sets of certificates were opened, and objections were presented, whereupon the Houses separated, and the papers in the case were referred to the Electoral Commission. The Commission met at half-past four o'clock in the afternoon, and received the certificates and accompanying papers. The case was argued Tuesday, Senator McDonald and Representative Jenks appearing for the Democrats, and Senator Howe and Mr. Shellabarger for the Republicans.

-The following letter from Hop, W. M. Rapsher, relative to the bill offered by him in the State Legislature, asking an appropriation for the benefit of those counties having suffered operous and extraordinary expenses in the prosecution of the Mollies, will be read with much pleasure:

HOUSE OF REPRESENTATIVES. Harrisburg, Pa., Feb. 15, 1877.

Te the Editor of the Cannon Advocate:

DEAR Sig.—Since the t-upayers of Carbon
county have a special interest in my bill asking
an appropriation to and and encourage such nace in trying the unfortunate Molite Ma guire coses, I am pleased to be able to inform you that the Committee on Appropriations a read, last night, to report said bill with an afirmative recommendation for the sem of twen-ty thousand datars, with a suggestion that such furtuer amount may be obtained, at some future time, as we may be justly entitled to. That th oun now allowed to us is all that can possibly be apportioned at this time, on account of the depressed condition of the firmness of the Commonwealth. I think, with this recommenda-tion from the Committee, there is no doubt at all but that the tall will pass at an early day. Very respectfully yours, W. M. RAPSHER.

From our especial Correspondent. Washington, D. C., Feb. 11, 1877. The highest picch of excitement was reached at the Capitel yesterday at a little past noon. The House held as atlimated discussion of two hours tength, we tim against the decision of the Electoral Commission in the Florida case, and sent the report to the Senate with the announce ment that the R once was to rendice a to receive that body; whereupon the two houses met in joint Convention for the second time this sension. Considerable disappointment—pleasure, able and otherwise—was felt when the vote of llimals was read and no objections were made. Setting further of note occurred till Louisians was reached when, as was anticipated all over the country, objections were made by both ite

cans and Democrats, which put an end to

The Ox Roast.

The ox roast which came off at the public house of Leopold Meyer, at Lehligh Gap, on Tuesday, was a success. The ox was furnished by Mr. Amandas Schaffer, the Cherryville butcher, which weighed 350 pounds dressed, and was placed over the fire at about one o'clock p. m. While the roasting was in progress, a hickery pole, measuring 96 feet, furnished free of charge by our friend, Mr. David Best, of Wainutport, was raised. About fifty feet above the ground was attached a fine banner and flag, which measured 1614 feet, manufactured by Mr. J. F. Kleppinger, of Beersville, which was one of the hand-somest we ever saw. After the pole was placed in position, the ox was dished up, and the crowd wended their way toward the roasting place, where they found a heap of roast meat. About an hour later all that remained was the skeleton. The Cherryville Cornet Band was in attendance and furnished some choice music. About 700 persons

were on the grounds. The celebration wound up by an old fashion country dance in the evening, in which the Blue Mountain girls figured conspi-ciously.—Statington News.
