LEHIGHTON, PA.: SATURDAY MORNING, JUNE 50, 1877.

-Robert Dale Owen, the famous socialist reformer and spiritualist, died at his summer residence at Lake George, on Monday last.

-Before being sentenced Frank Beamish, of Luzerne county, said "Before God, I am gullty of no crime, and I thank God that I have good health and strength to endure the sentence that may be pronounced upon me; and this court and my persecutors may yet acknowledge the great wrong that bas been done me. 4 * The most vindictive of my accusers will yet exonerate me of all crime."

financial engagements maturing in the for interest and rentals on leased lines. For the convenience of the bondholders receipts are now being given for the which receipts will be exchangeable the 2d of July. The latter can be obtained at the office of the company in in Philadelphia.

-Rand's New York City Business Directory for 1877. The second volume of this valuable and indispensable work has just been issued by the Publishers, Messrs. Walter Heugh & Co., of 3 Park Place, New York. No pains or expense has been spared in the production of the present volume, to make it complete and reliable. In typographical appearance and binding, certainly it is a fine specimen of book-making. It contains over one hundred pages more matter than the last year's volume, which has added largely to the cost of the production of the work, and compelled the Publishers to issue hereafter only the full cloth bound edition at one dollar per copy, upon the receipt of which sum they will forward the work to any address in the United States or Canada, by mail, postage pre-

-A Washington dispatch of the 26th inst., to the New York Sun, speaking of the complexion of the next Congress, says: "A copy has been made of the pay certificates for the Forty-fifth Congress, as furnished by Clerk Adams to Sergeant-at-Arms Thompson, and constituting his vouchers in account with the United States Treasury, and given to some Republican papers as the roll of the next House made out by Adams. The list stands precisely as it did when an abstract of it was published in the Sun the first week in April, showing a Democratic majority of sixteen, with seven members to hear from. No further changes have been made, and none will be until the time comes for making up the roll. What that will be no one yet knows. In the Colorado case the law is all against Belford, and Patterson's title to the seat turns on the construction of an enabling act. The Supreme Court of California has given Pachero, Republican, the sent in the Fourth District of that State, and Wigginton has appealed. The contest in the courts over the Third District in Missouri is in much the same shape. The record of Fiorida, and the Fourth and Sixth Districts of Louisiana are covered by conflicting certificates from the rival Governors. Adams will probably follow the example set by Hayes in this matter, and recognize Nicholls and the Democratic Congressmen."

-Fifteen hundred operatives, we are told, have struck against a reduction of wages which has been made in several of the large iron establishments in this and the Susquehanna valleys. The reduction ranges from five to twenty-five per cent., and has been impending for some time, the manufacturers declaring that it is impossible for them to make anything by Iron manufacturing in the present depressed condition of the trade, and that if wages are not reduced work must cease altogether. This intended reduction has been discussed for several weeks, and it does not appear that all the working people object to it, though a large number of them, in certain branches of the trade, make most serious objection. The men on strike are but a small proportion of the whole number of operatives in the iron mills of this and the Susquehanna region, but the mult of the strike will be taken as a guide, not only by all of those here, but also by iron workers generally throughout the State. It affects one of our greatest industries. This strike has come at a time when, according to the

lower wages rather than none at all. The season is at hand when it is customary to "blow out" furnaces, so that this may be an additional reason for yielding. The employers are said to be very firm in their intention to cease operations altogether if the reduction is not promptly accepted.

- It is announced by the best authority, that the negotiations between the Lehigh Coal and Navigation Company and the receivers of the Central Rallroad or New Jersey and the Lehigh and Witkesbarre Coal Company have progressed very satisfactorily, and have culminated in an arrangement accept able to all the parties, which had been signed by the proper officers, and presented to the court Monday for confirmation. The varied interests which had to be consulted, and the delicacy of the position of the receivers, together with the legal points which constantly -The Philadelphia and Reading arose, have caused these negotiations Railroad Company will meet all its to be somewhat protracted, but the settlement now arrived at will be an month of July, and the payments will adjustment of all the questions recently include over a million of dollars in cash | brought into litigation. The object which the Lehigh Coal and Navigation Company has had steadly in view has been precisely the same as that stated coupons for which scrip is to be issued. In its last annual report, viz., "to preserve the alliance between the comfor the coupon certificates on and after panies un'il brighter times, in the belief that the best interests of all would be promoted," and this adjustment will give those companies which are in the hands of receivers ample time to perfect their arrangements for reconstruction, without the embarrassments of pending litigation. Meanwhile the Lehigh Coal and Navigation Company receives the whole of its back rentals, including a payment in money of \$400,-000 and a reduction of its debt on construction account of over \$600,000. thereby relieving it of an interest payment of over \$12,000 annually. This settlement places the company in a position of financial case, and Is on all accounts a just subject of congratulation to its stockholders. The above terms of settlement have been confirmed by the Court.

-Following are the signs and passwords of the Mollie Magnires during the present quarter :

the present quarter:

When two strangers are introduced—
Question—The entering question is likely to be
sottled without bloodshed.
Answer—I think not. War for the present
may be avorted, but the Turkish, problem can
early be solved on a European battle field.
Question—In the event of war between Russia
and Turker, what belief would him faild pursued.
Answer—She would steredly and the Turks,
because her poicty has been to unbest twinny
abross while she belief demonated it at home.
Quantum to may.—Question—Don't get yoursail into bronies.
Answer—I by triends will get me out.
Regue—Butha hand on right dip.
Heijfy heim—Furchiere and tambe of left
hand extending how of left ear.

Washington Letter.

From our Special Correspondent. Washington, D. C., June 27, 1877. I saw an interesting statement, recently mode up in the Trenamy Department, especialized tain expenses for the conveyance of the votes tain expenses for the conveyance of the votes cast at elections of President and Vice Presi-dent to the a at of Government. It ameans that no a implation has ever been made excepting at the election of George Washington and the last of Governi Grand's. The cost of conveying the votes of the different states to the engital in the former case was \$1,60, and in the inter \$15,173

A thorough investigation has been going on in the financial branch of the Treasury, which has resulted in the report of the fact that fractionel currency to the amount of from earlit to tionel currency to the amount of from e.gtt to ten million deliurs has been lost or destroyed. Secretary She man has submitted the question to Attorney General Devens whether to can legally make up the loss by testing the same amount it silver coin, since it is believed that

the above are all more to prescribed for redeempton.

Death from Hydrophobia.

Death from Hydrophobia.

Mr. George Fisier, a young gentleman of excellent character, clerk of the First National Bank, Mahanoy City, and 22 years of age, was bitten on the outer case of the left band even months ago by a black and tan dog with which he was payling. The wound healed quackly, causing little or no pain. The day autor Mr. Floter was bitten toe dog was seen playing with a ball of worsted, and as he died a day or two later with symptoms of choosing it was supposed death was caused by his hiving swallowed or having attempted to swallow some of the worstell.
