## Letter from Mauch Chunk.

MAUCH CHUNK. July 26, 1877. That the ons thing uppermost in the minds of our people should be the, since yesterday, prevailing strike on the Central Railroad of New Jersey, is but natural; for so long as similar movements affected only places at a distance, nobody seemed particularly to care. But already the question is asked, Will the employes of the Lehigh Valley Railroad Company follow the example set them by the men on the other road ?a question which is answered either in the affirmative or negative, according to the sentiments of the individual in terrogated. However matters my terminate, the Lebigh Valley Railroad has, for the time being at least, aiready ceased to be a trunk line, as its business since the beginning of the week has been of a purely local nature.

The Jersey Central men went out quietly, with a piedge to the public that they will at all times be found ready to defend the company's property. The suspension of railroad traffic was, of course, followed by an entire suspension of all mining operations in Panther Greek Valley, where, to avoid all diffi-cutiles or destruction of property on the part of ill disposed persons, a majority a, the more reliable class of men have o canized vigliance committees, whose members are now guarding the L. & W. Coal Company's breakers and other preperty ; and in this they are wise, as any other course would be only too like-ly to seriously interfere with their ly future prospects. Ever since early in the morning efforts have been making by Superintendent Polhemus and Sheriff Raudenbush to induce the men on strike to move or suffer the removal of trains accumulated here, but up to this time (9 a. m ) without success. Passenger traffic on the Tamaqua branch and on the main line south continues unin terrupted, and the trains-containing few passengers, however-arrive and depart nearly on time. Mauch Chunk, always quiet and or

derly, is decidedly so now ; in fact it is nimost too quiet for engurance. But this may only be the calm before the storm, and it would be useless to deny that considerable uneasiness exists in the community at large with regard to the future. On the whole, however, all classes are agreed in this that, happen what will, they will see to it that order is maintained in the town. Generally speaking, discreek men keep silent, while fools prate shout what they are going to do if this or that should come

pass. The brass cannon which had hitherto been kept in the rear of the county house, was last night removed to the town arsenal-the county jail. In business matters all is quiet, nobody seem-ingly caring nor expecting to do much.

The fuberal of the late John Shields of East Mauch Chunk, who was acci-dentally shot on the 10th list, by Thos. Patton at Bristol, Pa , took place this forenoon, with the contrite Patton among the chief mourners. The re-mains of Shields were taken to Laurytown, whittier they were followed by a large cortege.

3. P. M .- Affairs along the L. & S. Division are rapidly assuming their former shape, coal trains running up and down Fanther Creek Valley as and down Fauther Creat the many usual, greatly to the joy of the many hore waiting for cargoes. It boatmen here waiting for cargoes. was, however, only after much difficul-ty that a sufficient number of men were secured to man the trains. The de-parture of the Tamanend freight was stoutly resisted by the striking brake-men, and they only succeeded in start-ing the train on arrival of Sheriff Raudenbuch and a number of C. & I. police, who dispersed the turbulent brakemen. "It's ill wind that blows nobody good," and while it promises to furnish

them all the freight they may desire, the railroad strike is considered a regular God-send by the masters of boats in the besins. Loading is more brisk at Coalport than it has been for some time, and will continue to while the railroad strike shall last. The strikers are evidently doomed to come out second best, perceiving which they are peiling down their pledges to protect the company's property and now threaten that, in case of as emergency, they will leave the corporation to defend it themselves. Poor corporation ! But, then, who wouldn's feel sore about it 'Left to the uselves, and wanting the sympathy of both the citizens and miners, no wonder they should grow desperate and threaten all sor.s of vengeance. A lad named James Feeley, of Milford, N. J., belonging aboard of a boat lying in Cattish Pond, whill attempting to cross the railroad track ahead of a backing train was, to day, run over and instantly killed near the Conlport sebute
