## The Curbon Advocate.

H. V. MORTHIMER, . . . . EDITOR

LEHIGHTON, PA.: SATURDAY MORNING, SEPT. 22, 1877.

#### Democratic Nominations. STATE TICKET.

Supreme Judys-John Trunker, Venanga, Anditor General-William B. Schell, Heafard, State Tressurer-Amos B. Naves, Chinton.

## Republican Nominations.

STATE TICKET. Supreme Julge - Ja. H. Stevrett. Alleghouy. Auditor General - J. A. M. Passmore, "chayfaill State Treasurer - Wm. B. Hart, Montgomery.

-The Republican Delegate election will be held; to-day (Saturday). The polls will be open at the Hotel of Thos. Mantz from 7 to 9 o'clock p. m. 'The Convention will be held in the Court House, at Mauch Chunk, on Wednesday the 26th, at 2 o'clock p. m.

-The State Convention of Greenbackers met Wednesday in Williamsport, adopted a platform, and nominated the following ticket: Judge of the Supreme Court, Benjamin S. Bentley, of Lycoming county; Auditor General, J. E. Emerson, of Beaver; State Treasurer, James L. Wright, of Philadelphia.

-Gold opened in the stock rooms, at Philadelphia, on Monday morning at 103%, the closing price on Saturday, but soon dropped to 103, and after a bound up to the opening figure, settled again to 103, where it stood at noon. This is the lowest quotation of the precious metal since the suspension of specie payments in June, 1862. With gold at 103, the paper or greenback dollar is worth a bare trifle under 97 cents and 9

-Official returns from all the cities and towns in | Main, except 14 small places, received in the office of the Kennebec Journal, show that the total vote was 101,451, the largest with one exception since 1860. Connor, Republican, received 53,665 votes : Williams, Democrat, 41,835; Munson, Greenbacker, 5188, and 763 were scattering. The Constitutional amendment limiting the franchise to those who have paid a poli tax within two years was defeated; that limiting the debts of corporations was carried.

-A courier has arrived at Bozeman, Montana, with an official despatch from General Sturgis. The latter reports that the Nez Perces flanked him and went to Clark's Fork ; after two days' pursuit be overtook them on the Yellowstone, seven miles below the mouti; of Clark's Fork, and fought them nearly a whole day. The result of the fight, which seems, as usual, to have been indecisive, was the killing of "a great many Indians, and some soldiers." The Crows captured 150 horses. The Nez Perces had burned a mill and several ranches,

-An eastern bound passenger train on the Union Pacific Railroad was robbed by thirteen masked men at Big under guard, and then robbed the expassengers of about \$1300 and several gold watches. They escaped northward. A reward of \$10,000 is offered for their capture.

-The Democratic Delegate election takes place to-day (Saturday), at the Carbon House, this borough. The polis will be open from 2 o'clock till 7 p. m. The Convention will be held at the Court House, Mauch Chunk, on Monday, 24th inst. The only nominafor which position there are two aspirants: Peter J. Mechan, Esq., a rising and gentlemanly young lawyer, and the present incumbent of the office, E. R. Siewers, Esq. The effort to secure the Delegates from the several districts is very strenuous, and at this writing the prospects at the lower end are decidedly favorable for the nomination of Mr. Meetat, who is well and favorably known among our people.

-The New York Herald has received a despatch from its African explorer and correspondent, Henry M. Stanley. He had reached the western coast of Africa, having had a fearful journey, enduring great privations, fighting his way through and losing a large number of his men. He has solved one of the African problems, having proved by actual exploration that the Lugiaba river and the Congo are identical. His journey through Africa was one of the most perilous and heroic on record. The last of his white assistants, Franels Pacoek, an Englishman, was swept over the falls of the Massassa on the Brd of June last. His faithful companion, Kalulu, was also lost.

-Potter's American Magazine is rapidly advancing to the front of American Monthlies. The October number is replete with evidences of progress, and shows that the publishers and editors are wide awake to the interests of the can Monthlies. The October number is are wide awake to the Interests of the reading public. This periodical possesses a value and supplies a place which no other publication does, and being devoted chiefly to subjects of intrinsic worth and interest to American readers, the fostering of American talent, the improvement of American art, it should be in every American home.

We notice in each number new contributors of recognized ability. " The Writings of George Elliot-their Merit and Influence," by J. R. Haskins, is a paper of more than ordinary excellance. The leader, the fourth paper on " Civic and Scenic New England-Springfield as it Was and Is," will well compensate perusal, possessing as it does a semi-historical interest. Rev. William Hall gives us " The Ancient Sleepy Hollow Church on the Hudson ;" Mrs. Elizabeth Oakes Smith supplies the third paper on "The Amazons of Mexico," a story strangely novel and and the subject liberally lilustrated.
"The Morristown Ghost;" "Science and Revelation;" "A Classic Mystery;" "Glimpses of the Pepsy Diary;" "Presentment," and "The Mysterious Promise," are also entertaining and instructive articles. instructive articles.

The Editorial departments are speci-The Editorial departments are specially attractive, giving us "A Curious Legend;" "A Strangely Beautiful Custom;" "The Eccentricities of Genius;" "The Trade Problem;" "Capital and Labor;" "Book Reviews;" "Art in the Elifer World;" "The Delights and Labors of Literature," "Electrical Influences," and the "Transmirphy of Heat."

the "Transmission of Heat."
The number concludes with a most agreeable intellectual and moral desert on "The Home Circle," "The Witch-ery of Manners," and kindred subjects, in which are mingled instruction, wit

and humor. The broad, open pages, clear type choice matter, variety of subjects, and profuse illustrations make this periodi-cal one of our most welcome visitors. Published by John E. Plotter, & Co., Philadelphia.

-Virginia's experiment with bell punches as collector of taxes on the liquor traffic promises good results in the collection of a large fund with which to meet the interest on the public debt, and this is apparently its whole purpose. An obvious improvement would be to make a punch which should register an effective warning to the would-be drinker not to drink to excess. The direct revenues of the State might be reduced by such a moral agent set up in every tavern and bar-room, but the expenses of penitentiaries and almhouses would also be greatly reduced, and in the end the State would be better off. The chief defect of the law requiring the registering of drinks is that it has been adopted solely for the purpose of collecting a heavy tax, and not for such a purpose as is effected by a good license law-a limitation of the liquor traffic.

-The Philadelphia Times, in discussing the labor problem says: "In Springs, a water station 160 miles east | this country net increase of values each of Cheyenne, on Tuesday night. The year is only about four or five per cent., robbers took possession of the station, and each net earnings per capita only destroyed the telegraphic instruments, about \$18. Therefore every man that compelled the agent to hang out a red has saved more than eighteen dollars light, boarded the train when it stopped, from his year's work has passed the placed the train men and passengers line that divides the laborer and the capitalist, and is to be reckoned as one press safe of about \$65,000 and the of the latter class. There are many inducements to this course which are wanting in the older countries. There the rate of interest varies from one anda half to three per cent., here it is from four to six. The labor her egets only ten to twenty-five per cent. more than in the Old Country, but as soon as he begins to save his surplus earnings and become a capitalist these surplus earnings multiply twice as fast as they would abroad. If he were to go a step further and live as he used to in Wales tion to make is for District Attorney, or Ireland these net earnings might be vastly increased. To keep our expenses always below our income is a lesson that we all need to learn, but it seems as if the workingmen ought to require less instruction, for it is taught him every day of his life."

#### Washington Letter. From our Special Correspondent

WASHINGTON D. C. Sient, 18, 1877. Among the most conspicuous improvements that have been going on in this city, during the past 3 or 4 months, are the placing in position of the new Naval Mounment and the great Bartholdi Fountain. The former is of white marble-two femule figures, one weeping upon the shoulder of the other-what it represents does not appear, but it is unanimously declared a beautiful thing. Some say it means " Peace" others

our great Centennial fountain is placed. It is not yet quite in running order as neither the rock work at its base nor very magnificent wall is also being constructed along the foot of the western park of the Capitol. It is to be on blue gneiss, red granite and buff sandstone and just opposite the entrance to the Botanical Gardens will be erected a drinking fountain of the same materials, handsomely carved and to be supplied with spring water from the hill

Work has been going on also inside Work has been going on also inside the Capitol building, in both Halls of Congress and in the Supreme Court Room, the ventilating and heating apparatus charged, new builers put in new furnishings, etc. The driveways outside have been concreted and are smooth and hard, and all things show that the control of the control that the summer has not been spent in idieness on Capitol Hill.

Last Friday was a great gala day in Fremont Ohio. The President, Secre-tary McCrary, Chief Justice Waite, General Phili Sheridan, and many other noteships was at the control of the cont noteables were there and were received with every testimony of welcome. President Hayes, as President of the Society of Veterans called the meeting to order to elect new officers, but when fascinating. Following these "Bird Life" is most happily brought to view, and the subject liberally illustrated. "The Morristown Ghost;" "Science and Revelation;" "A Classic Mystery;" "Glimpses of the Pepsy Diary;" to order to elect new officers, out when fascined, a was placed in nomination declined, saying, "I am a one term man, you know." He was overruled, however, and re-elected. When Sheridan was called upon for a speech, he said he could give the old regiment a good driver. but couldn't give it a good speech. A letter was read from Gen. Crook which said he should have been there had he not been ordered after Joseph. Gen. Crook is a warm personal friend of the President and his family. The little Hayes boy who died was named George Crook, after the General. To day the Louisville Exposition opens, and the President is there with all his cabinet ministers except Sher-

man, who is the sole representative of the administration now in this city. He might have been with his fellows, but for the fact that his house here is in the hands of the carpenters and painters, who may not be left without superin-tendence. Secretary Schurz returns to the capital to-morrow morning, while the other five cabinet members will acthe other five cabinet members will accompany the President to Chaitanooga,
Nashville, Knoxville and Richmond,
arriving in Washington on or about the
25th. Mrs. Hayes, two Misses Evarts
and several others help to make up the
Presidential party.

A portion of the President's reception
at Richmond will be right musical. It
is to take place in the State House, and
the children of the city public schools
are to be seated in one gallery and will

are to be scated in one gallery and will sing a national air or two, and another gallery is to be occupied by the colored collegiates and students of the colored schools, who will chart at him some of their own sweet melodies. RICHARD.
