—"GERMAN SYRÜP."—No other medi-cine in the world was ever given such a test of its curative qualities as Boschee's German Syrup. In three years two million four hundred thousand small bottles of this rited-icine were distributed *free of charge* by drug-gists in this country to those afflicted with consumption, asthma, croup, servers doughs, pneumonia and other diseases of the throat and hungs, giving the Atherican people tim-deniable proof that German Syrup will curre them. The result has been that druggists in every town and village in the United States are recommending it to their custom-tra. Uo to your druggist, and ask what they know about it. Sample bottles 10 cents. Regular size 75 cents. Three doses will re-lieve any case. For sale by A. J. Durling. —Judge D. B. Letter from Mauch Chunks

DECEMBER 5th .- Once more left to itight Mauch Chunk has resumed its usual air of duliness. What little life the recent sessions of the teachers' institute infused, vanished with its close on last Friday, and the only market the average Chunker can now find for his time is to tell and gather tales. In deed gomip is always in order here, but the gossip now in vogue is of such an ordinary, trashy nature that it will hardly bear a renetition.

If it was dull yesterday, it is more so this rainy Wednesday, and everything wears a woe-begone aspect-hotels are empty, barcoms deserted, the basins no longer full of stately craft, all is silent, and the proverbial leech at the law office vainly peers out into the storm for a victim to bleed.

Since the adjournment of the institute the candidacy for the County Superintendency of Messrs. Hofford, Kline, Hollinger and Rowland is being actively discussed, and from what I can learn, I have no hesitaney in declaring that Mr. Hofford appears to have the inside track, with Kline and Hollinger next, while Rowland is scarcely ever named. This may not be a very pleas ing statement to the last named aspirant, but he will find it so in May. What objections there should be to Mr. Rowland I have not learnt, I only know that he is not a favorite either with the directors with whom I hav - conversed upon the subject nor with the general public. But what is this to us You too, no doubt, have heard of the reent wholesale discharge of workmen from

the Packerton shops, a fact hailed by Labor Reformers as just the thing that will give them the ascendancy in this county at next fall's election.

Judging from what I can learn, the num ber of delinquents in the various Building and Loan Associations hereabouts is rapidly multiplying and numerous sheriff's sale may be anticipated from that source. On the whole it is greatly to be doubled whether another building-loan project would ever be received with favor here. They may do in prosperity, but in adverse times they tend only to increase the general embarrassment The Lehigh Valley folks are highly elated at the business done this year by their line. The more sanguine ones among them even go so far as to predict the declaration of the

regular 11 ber cent, dividend for the closing quarter. I hope this may be so, just for the sake of those holding Valley stock. In consideration of the fact that so far but

two criminal cases grace the Criminal Docket for January term, I feel like compliment ing the community on this real or fancied improvement of public morals, were it not that the four or five weeks to elapse before Court, may yet bring Heaven knows what. The fact is, nevertheless, a pleasing one, and well deserving of notice. The cases referred o are : Com. n. Joseph and John Otto, ac used of assault and battery, with intent to kill and and rob, and Com. vs. Geo. Ludwig. held on a charge of lareenv.

After the late splurge, all is quiet in the matrimonial market; hence I know of but ne couple of whom it is said that they have, the hardihood to contemplate a splice.

Mauch Chunk's pet society, the Athenceum n fast Tuesdáý evening, gave a representation of Dickens'" Pickwick." The affair, as my informant expressed himself, was "exquisite," a complete success; and, by the way, did you ever hear of anything that took place here that was not " exquisite " er has been a failure?

On Saturday, the 14th inst., navigation is set down to close for the senson. Had it closed shortly after the break at Durham Creek, our hardy navigators, would, no loubt, have been the better off. This has been the most disastrous season beatmen have had silide the great freshet in 1862, and how they have managed to keep themselves and their teams from starvation is a riddle. Rev. Edsall Ferrier, certainly the most oted speaker hereabouts, announces a free lecture, in the lecture-room of the 1st Pres-

A Poor House and Farm. A second meeting of the Overscers of the

or of the several boroughs and townships of lower Carbon, was held at Reber's Hall, in the Borough of Lehighton, on Saturday afternoon, December 1st, 1877, at which the following places were represented : Le-highton, Parnyville, Ponn Forest, Towamensing, Franklin; L. Towamensing, Mahoning and East Penn.

On motion, Hon. DENNIS BAUMAN, of Parryville, was elected President, and Harry V. Morthimer, of The Carbon Advocate, Secre tary. The minutes of the previous meeting were read and approved.

The committee appointed at the first meet ing to carry out its objects, having reported, at the request of the meeting, Hösl, W. M. RAFSHER, in a very elaborate manner, explained the law and the mode of procedure under its provisions to be pursued in order to secure the formation of the contemplated Poor District. The first step, he said, was for the Overseers of the Poor to select a Comnissioner from each borough and township, whose duty it would be to select real estate suitable for the purpose of the contemplated farm and poor house, ascertain the conditions and terms of purchase, and submit their report to a regular term of Court, whence the the matter would be referred to two success sive Grand Juries or the legal voters of the townships and boroughs interested for concurrence. Upon the conclusion of Mr. Raper's remarks, it was

Resolved, That the Overseers of the Poor of the said boroughs and townships appoint Commissioners in accordance with the pro-visions of the Act of Assembly.

The following named gentlemen were hereupon appointed Commissioners ;

Lehighton, Daniel Olewine; Jongaron, Jamier Owenne; Weissport, Francis Yundi; Partyville, Hon. Dennis Bauman; Franklin, J. K. Richtert; Penn Försst, John W. Reed; Towamensling, Paul Kresge; Withdre

Kidder, _____; Mahoning, J. T. McDaniel; East Penu, James D. Balliet; L. Towamensing, Hon, John Craig. The Commissioners will hold their first neeting at Rober's Hall, in this borough, to-

day (Saturday), December 8th, at 2 p. m. Albrigtsville Items.

The Reading Savings Bank.

At Reading on Wednesday marning last, udgments were entered in twenty-nine suita which were brought before Alderman Becker by depositors of the Reading Savings Bank in sums of \$100, and the constable levied upon what articles he could find thereabouts. The same afternoon E. P. Boas, late cushier of the bank, was arrested on charge of misappropriating the funds of the bank. A writ of habeas corpus was taken out, and a hearing was fixed for Wed-

needay, Dec. 12. Bail was entered in \$25,-000. The information was made by one of the depositors, and a warrant was granted by Aldorman Mengel. It is understood that the depositors are going to make common cause of the proscention, and for that purpose have retained J. H. Jacobs, Col. S. S. Young, and P. D. Wanner. It is rumored that other arrests will follow. Proceedings in bankruptcy will be instituted. Over 1, 200 names have been signed to the petition, representing almost \$400,000.

byterian church, for this (Saturday) evening. He will be greeted with a full house, of course, and next week the Mauch Chunk papers will be filled with a glowing account f the losture.

Having already stated that business generally speaking, is extremely dull here, I must in justice add, that the Sheriff and Prothonotary are about the only individuals who have no reason to complain on that score. "'Tis an ill wind that blows nobody good."

I was just going to attempt writing you number of items, but what is one to do when there is really nothing to write about. If any have " shuffled off the mortal coil," I don't know it, and they have probably died as happily for all that. A record of goers and comers, or the departure of this or that Miss Flora McFlimsey, you don't want, hence what am I to write about from a place as stale as the pool of Bethsoda without its redoeming virtues?

Chance would have it, that a few days ago I should find myself in company of a dosen r more of some of the most substantial men in the Democratic party. Politics was the theme of conversation, and the merits or demerits of this and that prominent individual were talked about. At last the subect of the future judgeship was touched upon, and it was then that I first heard the name of our worthy County Commissioner; Henry Boyer, Esq., mentioned in connection with the office. The announcement, or rather suggestion, of the Squire's name was well received, and ere that party separated nearly everyone declared his determination to do his utmost to further his nomination at the proper time. And sure, a better choice could not well be suggested, as Mr. Boyer is in every respect just the man for the office. In the course of conversation the Foster and Hazle township annexation scheme was also broached, but, I am sorry to say, it found very little favor among those present. Re-specting this measure, marchy urged for the special benefit of a few hungry politicians, there is indeed very little hope. Yours, etc., W. S.

The Coal Trade.

The fiscal year of the Reading Railroad The incar year of the Leeding Rairoad Company and its several connecting works and of the Lehigh Valley Rairoad Company and its connecting roads ended on Friday evening, the 30th ultimo. Each of all the New York coal companies runthe fiscal year with the calendar year, and thus cause a jangle in the annual account of the coal traffe. It would be a great attrifaction if the several companies could be induced to work in unity on this point. The trade closes with the companies that have ended their in unity on this point. The trade closes with the companies that have ended their fiscal year quite as fit for ably as was expect-ed. It is true the suction sale of coal at New York has week was not as satisfactory as was previously anticipated, the prices be-ing off a little from the last previous adles, when an advance at this time was generally hoped for. The few slays of cold weather, however, have improved the tone of the market, one New York company having is-sued a eiffular amouncing higher prices, and the trade generally having advanced equal to the circular amouncing of the in the canals within the last three or four drys, and the scopping of work in the mines of several individual operators from too much water in some instances and lack of orders in others, are facts that lend strength to market prices and to the demand for coal. An examination of the shipments thence have considerably exceeded the receipt, so that the stock on hand is considerably reduced amount remaining was 84,000 tone, against 0,000 tons on hand at the same time last 0,000 tons on hand at the same time last on the evening of the 30th altimo the amount romaining was \$4,000 tons, against \$1,000 tons on hand at the same time last year. While the amount on hand this year at the close is \$2,000 tons more than at the close of 1876,it is to be remembered that the about 600,000 tons greater than last year. The total anthracite tonnage east of Mauch Chunk for the year to November 30th ulti-me was \$4,55,557 tons, being an increase over 1876 of 19.34 per cent.; the coal ton-nage of the New Jerney division was 1,400,.
