-The habeas corpus case of E. P. Boas, ex-cashier of the Reading Saving-Balk was heard Thesday by Judge Hagerman. The Court decided that there was sufficient evilence to austain the charge, and Boas was reld for trial in his former recognizance of \$25,000,

-It is a and sight to see an intoxicated person on the street. How much more so is it to see a dull and sickly baby rendered so by the use of dangerous opiates? Dr. Bull's Baby Syrup contains nothing injurious and may be given to the most delicate baby. Price 25 cents.

Price 25 cents. —Rev. James A. Little: Who has been for nine years past successfully ministering to the Presbyterian congregation of Hoken-dauqua, was presented on Christinas Day with a very valuable set of Chambers' En-eyclopadia, in ten volumes, a surprise gin-from Hockendauqua friends.

From Hockendauqua frienda —That old and popular reviedy, familiar in every household throughout the land, known as Dr. Coxe's Hive Sympt is now superceded by Dr. Coxe's Wild Cherry and Seneka which ranks above all other modi-tions for coughs, colds, and croup. 25 and In series are both. 50 cents per bottle. -We notice that our old friend, E. A.

Benedict, has returned to his first love, and again joined with his brother, Geo, W., in the publication of the Scranton City Journal, We appreciate the Journal in its new form, onsidering it quite an improvement, and wish the two brothers all the success their efforts merit. --Dominick McGlynn was arrested at

Hazleton, Tuesday for circulating counter-feit five-dollar bills on the Bank of Hanover, Pennsylvania. Other well executed coun-terfeits on the First National Bank of Ta-maqua and the Third National Bank of Buf-

magan and the Third National Bank of Bur-falo have been freely circulated in that place within the past week. The prisoner was held in \$500 bail. —The entertainment in the public echool hall, under the anspices of the Lehighton Lyceum, on Wednesslay evening, was not a success financially. The reading of Prof. W. H. Wilson, were unexceptionably good ; while his rendering of Ports "Laven," is pro-moment to have been unexceptionably. The nounced to have been unsurpassable. The foliate on the "Enfranchisement of Woman," between the Prof. and Mr. A. Woolover, was highly appreciated by the audience.

Frank Fredricks, a young man residing and packerton, on Sunday Inst. hired a horse and sleigh, in order to take his lady-love out and sleigh, in order to take his halv-love out riding; they had just taken their scats in the sleigh, opposite Packer's Park, on Beav-er Run, when the elks came rishing down to the fence, bellowing and started the horse, the young lady seized the reins, and caused the horse to swerve on one side, upsetting sleigh and occupants. The young lady es-caped with very slightingury, but Fredricks was hadly scratched and cut about the head and face. und face. ---Mr. Dennis Gallaghor of Yorktown

says he is one hundred and four years of age. Recollects well the days and times of

Ninety-eight, and other revolutionary eras in Ireland. The old gentleman is yet healthy and lively and as full of frolic as a a youth of twenty; and gives promise of liv-ing for some years to come. He furnished a youn of wenty, and gives promise of nv-ing for some years to come. He furnished one son for the Union who was killed at the Wildorness. About two years ago Mr. G. applied to the government for pension, and found that for twelve years somebody had been drawing from the government the pension which he ought to get.—Hatheten Neature!

 Jension - Scatterday merining last, Mr. Samuel —On Saturday merining last, Mr. Samuel Shiffert, a horse dealer of Ashland, was on his way home from Pottsville, having col- his way home from a sale of horses. When
 his way home from Pottsville, having col-lected money on a sale of horses. When near Flowery Fields, about two miles out, four men confronted him and directed him to dismount, stand and deliver. As he did not respond immediately to the demain he was knocked off his horse by a blow from a club which stunned him and cut his face terribly. The robbers then heat him un-mercifully. He was left for dead after his pockets had been rifled of a large sum of money and a valuable gold watch. This is the third highway robbery in this vicinity within a month. There is no clue to the robbers.

Says the Beaver Meadow correspondent of the Harlston Section : A petition to the Board of Pardons for the release of Niel Paul, who has now spent three years in jail for participation in the killing of Niel Melbrids, at Beaver Meadow, four years ago, is being erroutated and extensively signed in this county by all classes, who look upon the cause as a drunken brawl in which Paul became the unfortunate victure of circumbeame the unfortunate victim of circum-stances. Bad whiskey and bad company have proven unfortunate associations for older and wiser men then Paul before now; and the article in a late issue of the Cost Gaugite of Manch Chunk is not only unfair

# Letter from Mauch Chuck.

EXPLOSION. January Sth .- " Did you hear of the ex dosion ?" Such was the general inquiry a I entered upon my usual rounds on Monday morning. I hadn't, but as I have since heard a dozen or more descriptions of it, may as well inform you of what transpired, and what were and might have been the effects of the affair : On last Sunday morning the explosion of a range in the kitcheri of the E. A. Douglas residence caused considerable excitement in the neighborhood of Race street and Broadway. From what has transpired, it appears that at about 7 o'clock a. m., while the servant girl was at work peparing broakfast, the water-back of the range-in front of which sho was employed --exploded with terrific force, causing a gen-eral scatteration among things insuinate. After the catastrople not a pane of glass, door or window-aash remained entire about that kitchen, but, strange to say it, the cook, although in close proximity to the range at the time, remained uninjured, escaping with a slight scalding of one of her arms. After the scare, the kitchen in question presented a sorry sight, and the Doughts fundy were compelled to apply for breakfast closewhere. A frozen water-pipe, in conjunction with a dry and over-heated water-back, did the damage by causing the explosion, the report of which was such as to aronse the nost pro-found sleeper. For the rest of that Sunday morning and throughout the day the Doug-las dwelling continued the principal attrac-tion about town. transpired, it appears that at about 7 o'clock

## THE ICE BUSINESS.

Ice of sufficient thickness having formed, dealers and others are briskly at work secur-ing a stock for the coming assoon. In thick-ness the ice made is not above 6 inches. ness the ice made is not above 6 inches. That ice gathering is not without its dangers is demonstrated by the fact that a horse be-longing to a Mr. Shoenefeldt, of Upper Mauch Chunk, emme within a hair offnaling a watery grave this morning. It was only saved by the almost superhuman efforts of the parties at work near by, who eventually succeeded in bringing it ashore.

#### SUDDEN DEATH.

tion about town.

SUDDEX DEATH. The sudden and mysterious death at Upper Lehigh, of Monsieur Jno. F. Fabla, on last Monday morning, causes adness to prevail among the many to whom deceased was particularly known. Monsieur was univer-sally esteemed a prince of good fellows, hence the regret. For some years he had been Superintendent of the bar of the Mansion. Superintendent of the bar of the Mansion, but for the last year or year and half he kept Leisenring's Boarding House at Upper Le-high, where, just suiting the kind of custom he usually entertained, he was greatly ap-preciated. Monsieur was a main of polite manners and knew to perfection how to put on airs, but a good fellow withal, whese loss will be long felt. He belonged to the Mauch (Durk Division of Knights of Honor, many of whom attended his funcerial uture of whom attended his funeral at Upper Lehigh on Wednesday afternoou.

COMBINATION.

And so it appears as if we were to have a combination afternil. At last runners to that effect are quite numerous here, and that they are willingly credited here is just because all parties desire it (a combination.)

### INCENDEARDER-A BURNING MINE.

The worse than Mollics who fired No. 4 The worse than Mollics who fired No. 4 mine at Summit Hils, where a conflagra-tion is raging since hast Thursday noon would fare badly were they to be caught. Indeed Fraching would be their only lot if the popular mind would be considered or that mind should have time to develop or demonstrate fixelf at the time of explure. Well informed particles claim that there is a clue respecting the originators of the fire, and that the proper authorities are on the track of the incendrate. I here this may be even that the proper animorphies are on the tracks of the incendratics. I hope thick may be even so, and that when enight Judge Lynch will assert his away as Courts of Iaw are entirely too slow and unreliable in such an emer-gency besides Judge Lynch's is the more economical tribunal of the two. Already the economical tributal of the two. Already the effects of this fire are being severely felt, nearly 460 men and boys being thrown out of employment thereby. Its final ex-tinction is more a matter of speculation than probability, and experts predict the utter impossibility of preventing its further spread above the water level. Notwithstanding a heavy force is level at work, day and utini. avy force is kept at work, day and night attempts to smother it.

neary intro is kept at work, day and high, in attempts to smother it. Should the fire continue to extend, it would be bad indeed for the tradesmen of Summit Hill, a majority of whem would necessarily be compelled to suspend business. Up to yesterday hopes were entertained that the fire might be subduid by walling the burning chambers up, and thus, by the ex-clusion of all air and the turning on of steam, amothoring it. But off to this time (Thursday morping), little headway has been made in that dimethod; as smoke and sulphur prevent the mon from accomplish-ing much below. Indeed the task is so dif-ficult that many when titken out, were so it that many when this out, were at nearly overcome as to be unfit for all future work that day. Nevertheless such work as are the mine, if periods and the presented by relays, and all that experience and trigineer-ing skill may suggest will be resorted to be ave the mine, if penible. No. 4 is said to be the best working mine in the region, and within the last three years large sums have within the last three years large sums have been expended on a third slope with a view of increasing its capacity. How theraughly the inconduction have done their work, is attested by the present extent of the fire at the east and west of No. 1 Plane. The ex-citement is great, and prospects are anything but reassuring. However, let us hope for the best.

otherwise under that clause of the National otherwise under that clause of the National Banking law, which says that "no dividend shall be made to an amount greater than the net profits then on hand, after deducing therefrom all debts due to the Association upon which interest is past due and unpaid for a period of six months, unless the same shall he well secured and in process of collecshall be well secured and in process of collec-tion," is plain. The perfect soundness of the concern is, of course, not to be questioned. Its surplus fund amounted, on the 5th inst., to \$20,000 and its undivided profits to \$9787.50.

#### TRAVELING PACILITIES.

TRAVELING FACILITIES. The increased facilities for travel over the Jersoy Central give vory general satisfaction here, and both reads appear to be well patronized. Conductor Hora again runs between Easton and Mauch Chunk, and Chas. Fury the train on the Taimaquabranch, Both are favorites and very naturally will command their share of travel.

## MISCELLANEOUS.

The M. E. folks acress the river are con ducting a series of extra meetings for the benefit of sinners, but as yet the latter are slow in availing themselves of the boon oftered. The Packerton shop hands were paid on Inst Saturday; but pay-day was not followed

his Swarray and pay day was not onlowed by the usual star. The work of auditing the County necounts will be commenced next Menday, wherefore the afranal statement may be looked for about the last week of this or the first week of next month.

For the accountedation of parties having For the accounting the particle in the particle in the particle in the commission of the particle in the parti

....

### Will it Pay 1

Will it Pay 1 Mr. Entrop.—The question is often asked does farming pay 7 I make the assertion that farming does not pay on an average over six per cent on the amount of money invested, unless it is made on the increase of the value of the land. There seems to be a diversity of opinion in regard to localing the proposed Foor Hoose on improved or unimproved land. By taking a fiminelal view, I think the matter is easily settled in value the matter is easily settled the uniproved land will increase in value while the improved will remain at about the same value. If our well conducted farms do not pay more than six per cent on the do not pay more than six per cent on the capital invested, where shall the margin come from, if the poor district buys a high priced farm and pays six per cent for money invested? I think the answer must be, it will not pay anything beyond the labor fur-nished by the institution, except one good and practical farmer. Some object to utim-proved land, because nothing can be raised by it for some time to some French the on it for some time to come. From the above it would seem immaterial, if it costs ninety-four cents to raise a dollars worth of nimety-four cents to raise a dollars worth of produce, and pay six cents interest on the same, it would appear to make but very little difference whether all is bought or raised. 1 think the saving must come from having the psser all kept at one place under the supervision of a good man. the place selec-ted by the Commissioners is well adapted for the location of the Poor House; in the first place it is very nearly central, about four miles from East Mauch Chunk and about five from Weissport, with plenty of excellent water and soil, which can be clear-ed for inside of the dollars per acres. The place can be put in a good condition to ac-commodate all the poor in the district for a sum not exceeding eight thousand dollars, by comony in the ercetion of the buildings. Yours, &c., Jun. 10, 1878; Z. D. O.

# Reorganizing a Coal Company.

The consolidated stockholders of the Le high and Wilkes-Barre Coal Company adopted a plan, Friday of last week of reorganization. This is the company for which

pails, went below and proceeded to the scene of the fire. By this time the heat was in-tense, the strong currents of air being sur-charged with the fiery vapor to such an ex-tent as to make it impossible for the minure charged with the hery vapor to such all ex-tent as to make it impossible for the miners to get to the burning pillar. Efforts, how-ever, were begun, and the men set to work with a will, throwing water on the burning places that could be reached, which quickly turned to steam and came back upon the miners with hissing fury, in some cases overpowering the colliers. All day and all night this system of fighting the fire was here up, but no knowledge of the progress made could be determined, as the hot cur-reuts of steam prevented the lamps from burning anywhere in the heighburhood of the fire. To-night the superintendent and his men are doing all they can to prevent the fire from spreading, but improved meth-ods for mastering it will have to be indepted before a hope can be entertained of its final aubigation. The origin of the fire is un-

before a noise can be entrinned to be a subjugation. The origin of the fire is un-known. It is thought that a small body of gas must have been ignited, but by when remains to be assertained. As yet the loss cannot be estimated, as the fire is still raging furiously and may result in the total destruc-tion of thousands of tons of coal, if not of the entirely colliery, before it is extinguished.

### Malioning Items.

-To fill the ice houses is in order now. -Snow appeared at last; yet the sleigh selfs seem to be playing on E. flat.

-Willoughby Frantz, a subscriber of the Cannos Apvocars, who has been very fil for some time, is about again.

-Our Mahoning school teachers have organized an Institute, at the Pleasant Corner school house. Time of meeting: every Fri-day evening.

-How is the metal business at De Run 7 It ought to speak for itself by this time. If they would start up a car wheel manufactory they could sell their nickel right at home.

-People who are always inclined to push — reduce who are always included to push things allead, and to see something new, should not forget to stop at J. T. McDaniel's, and see his hall, which by appearate is among the first-class. A committee of three sleighing parties examined the place, and their report thereof is as above stated.

-On the morning of the 1st of January last, a party of young men from the uppe part of Mahouing, assembled to carry ou that superstitious practice, (yet prevailing in some localities), called The New Yohr Schits the result was an explosion of a gun belong-ing to a young man named Kistler, who had his face and neck fearfully cut. "Take heed and be wise."

Mahoning, Jan. 9, 1878. ALTHA. REPORT of Horne's School, Mahoning Valley, for the month ending on the 31st of December, 1877 :

\_"GERMAN SYRUP."-No other medicine in the world was ever given such a test of its curative qualities as Boschee's Gottman Syrap. In three years two million four hundred thousand small bottles of this medhumined information and a state of the block icine were distributed /rm of charge by drug-gists in this country to those afflicted with consumption, asthma, croup, severe cougle, pneumonia and other diseases of the thront and longs, giving the American people un-deniable proof that German Sy up will cure them. The result has been that druggists a secset torse and will are in the United sists in this country to those afficted with consumption, asthma, croup, severe congis, pneumonia and other diseases of the thron and lungs, giving the American people un-deniable proof that German Sy up will cure them. The result has been that droggist, and ask what it cure the Bar." The Society through on the the start in every town and village in the United States are recommending it to their custom-ers. Go to your druggist, and ask what it so curt the gar. Three does will re-lieve any case. For alle by A. J. Durling

Genetic of Manich Chunk is not only unfair to Paul, but an injustice to his little eisters who depended on fiim for support, and unfair in the estimation of every reader in this place who knows aught of the killing, the coroner's injuest or the trial. Fairly, Paul has puid afready a severe penalty for his participation in a crime where there was no instantion to kill.

#### ank Officers Elected.

Ank Officer's Elected. At the annual election for officers of the First National Bank, of Ledighton, held on Tuesday last, the following gentlemen were duly elected for the casning cost. Directors —Daniel Olewine, R. F. Hofford, Dennis Bannau, A. J. Durling, Thes. Kemerer, P. J. Kistler, J. G. Zern. President—Daniel Olewine: Vice-President, R. F. Holford, Cashier, W. W. Bowman.

# No Combination Yet.

No Combination Yet. Dr. Linderman and E. O. Wilbur, the committee of the Lehigb operators in the Board of Control, returned from Philadel-phia to Bethlehem Weintesday without reaching any conduction upon the plan of compromise suggested. Prior to their de-parture Judge Humburger, who is intracions to bring about the combination, submitted to bring about the combination, enhanched to them a proposition by which each of the six oldse parties to the compact shall concelle one-sixth of one per cost, giving the Lehigh interest a total of 10 75-100 per cent. This, is is aid, would be acceptable to the Jehigh people; but as several of the other interests have steadihoutly refused to yield, it is not known what the result of this last proposal will be. bring about the combination, submitted

#### Lehighton Lyceum.

Leftighton Lyceam. This Society mut at the appointed hear. Boll was called, alseedness noted. Minimus of previous meeting read and approved. The manys of Miss Chara Hibber and Mr. Frank Chana were proposed; they were elected by acclamation, as active members of this Society. The President new delivered his imaginal adviews—subject Ro er. Burns After the referred questions, the delate "Resolved, that the man of weathin exerts more influence than the man of intellect."

#### JANUARY TERM OF COURT.

JANUARY TERM OF COURT. January term of Court, to open next Mone day, promines to be a lively one, as quite a mumber of cases, remaining over for trial from hast term, will be tried at this. They include all kinds of middenovamors, from as-saults and batteries to fedenies. A F. & B, case, 1 learn, has been withdrawn, the prose-cutive admitting to have committed perjury in saddling the case on the party accused. This, if so, shauld entitle the prossouririx to a cell in the Eastern Percipatary. cell in the Eastern Penitentiary.

#### MATRINOTIAL.

On last Tuesday, Mr. Blasins Sizer, of Borman's, had the hardbood to wed Miss Julia Sourer, of East Mauch Chunk, Rev. Father Heinen tying the knot.

#### BACK PAY

On the same day another 20 per cents of Jersey Central hack pay was distributed among the employees of that read here, hence stamps are somewhat more plentiful and L. & S. men are cheerful. In most cases how-A S. much are encourted. In most cases how-ever creditors absorbed about all the men received, hence drinking individuals were few and for between. Indiced hard times are doing more in the bumperance cause than all the ranters and canters that ever addressed an audience.

#### NO DIVIDEND

Reading Coal and Iron Company, was discovered to be on fire, and in a few hours the breaker, saw mill, and engine house attach-ed were a heap of smouldering mins. The breaker was 100 feet high, and was shipping breaker was 100 feet high, and was an ipping about 100 cars per day to market. It was a manimuch structure, and the fall of the penderous machimery to the ground, mide a crash that was beard for many toiles. The spirks shot up in the nir like so many rock-ets, and ift up the surrounding country. All the coal, consisting of 100 tons, that was in the pockets at the time, cought firs. The hosting engine is twisted and turned, and the design engine is twisted and turned, and

hording engine is twisted and turned, and the clevitors are lying on top of each other, indiscriminately. The breaker was built in 1850 by James Langgan, of Pottsville, and was anlessquently purchased by the Glenville Coul Compeny of Roston. It fell into the hunds of the Reading Coul and Iron Com-pany in 1872. The less is about \$75,900 and 500 men and hows are thrown out of employ-ments.

#### Another Colliery on Fire.

Wilkes Burre, Jan. F, 1878 .- A terrible fire is at present raging in one of the large officies belonging to the Pennsylvania Coal Company and designated as shaft No. 7. located near Yatesville, a few miles from the city. At an early liour yesterday morn ing the fire box descended to make his at ustomed examination of the colliery pri-the entrance of the miners. When arrived at a certain point, about a mile dis-tant from the foot of the shaft, he was suddealy supprised by a current of hot air which aroused his suspicions. He at once proceed-ed in the direction of whence the heat came
