The "Ring" Busted.

23 MAJORITY FOR KRISER1-Tuesday was seautiful, and therefore an excellent day for held work. In Mauch Chunk the election seased off as quietly as the day dawned. There was what one would term " a still light". It was all on Counciliana, and all igains; Wm. H. Stroh, chief burgess and light" It was all on Cound'man, and all against Wm. H. Stroh, chief burgess and Coundiman for twelve years. His position was considered influences and of course his election sure. The mast who opposed Wm. H. Stroh was our humble landlord of the Broadway House, J. S. Keiper. Of course few Democrats and no Republicans throught he would win, but Keiser had set down his majority at 20, and he not only hit the mark but had three votes to space. J. S. Keiser is a Democrat, but he was taken up by the in-dependent voters because of his equitable views on all pellical subjects. Ho is no publician, and has never heid office directly received from the voice of the people. He was, however, deputy shoriff during his brother, Poter Keiser's, administration. Mr. Keiser was the man for the occasion. He had 97 Republican majority staring him in the face to overcome in order to assure his election. The battle began at 7 o'clock in the morning, and ended at the same hour in the evening. Mr. Strön was full un-formed, and was at the head of his corps all day. He fought well amidst his shuttered ranks, and never for a moment gave up the victory. His Lieutenant Generals, Pap-Painter and George Williams, deserve credit for their heavier heaver. The battle over credit for their heavier heaver. The heavier areas ranks, and never for a moment gave up the victory. His Lieutenant Generals, Pap. Painter and George Williams, deserve credit for their heroic bravery. The battle over, the ambulance corps began their painful duty of picking up the wounded and bury-ing the dead. At about eleven o'clock p.m. it was officially announced that the total number who participated in the fight in the First Ward was 355, of which number it was found that the 97 Republican pajority had been killed and 23 captured, leaving the army sland on either side as follows: Keiser, 189 ; Stroh, 166. Among the prom-inent Republican Generals killed we find the following: For Auditor, Fred. Berto-lette, Esp., killed by J. T. Stockett. For As-sessor, Alfred Weyhsumeyer by George Eickhoff. For Councilnum in Second Ward. Mr. Fulton, killed by Joeph Weyhenmoyer, and several other lesser, officers whose names we did not have. are runon, attied by Joseph weyneningere and several other lesser officers whose tiance we did not learn. John Faga, haying m opposition, was, of course, elected Justice o the Penec. On the first announcement o the election of Keiser over Stroh the excite ment was tremendous, and, when the news from the hill came of the election of Wey-henmeyer as a second Democratic Council-man, the cheers and the hurrahs wery long and dealening. For fifteen years has the borough been without a Democratic Counillinan, and your readers can therefor igine the loy of the Deniverats at wonderful success at this last election. of course, feel sorry for some of the Republi-an condidates." But, in this tidal wave of the overthrow of parties and the disconfi-ure of rings, we can only say to them, Re-form ! The ring is *busted*, and honeeforth the Democrats and Independents of this bor-ough will have their full quota of officers. Hip, hip, hurrah !

Local Elections. The local election in this borough las Tuesday passed off very quietly. There wa no contest for any of the offices with the ex-

ception of that for Constable, and for this position the old incumbent, Jos. S. Webb was re-elected by 102 majority. The follow ing are the figures : LEBIGHTON BOROUGH.

FIRE AT HORENOAUQUA.—On Saturday night, at about 2 o'clock, the chimns of Hokenilanguh were arcused from their slumbers by the cries of "fire?" The scene of detruction proved to be on Water street, where the flames were pouring from a double building in the occupancy of Messra. Michael Murphy and Patrick McGee. From the headway made at the time of the discovery of the fire, and the fact that the town is without any fire acparatus, it scene be came apparent that to save the house was impossible, and hence the efforts of the peo-ple who had assembled were directed to the saving of the adjoining buildings by apply-ing water with buckets. the dwellings in which the fire started furn-ished lively food for the flames, and it wasn't long before they were entirely consumed, together with all the formiture, the two families escaping only with what little ap-parel they had upon their beeks. Some of the members were wakened at the hour above stated by a dense smoke, which upon examination was found to come from the garret, where some hay and come folder had been stored, and which had become ignited through a defect in the store pipe. The through a defect in the stove pipe. The buildings were the property of Mr. Murphy, upon whom the loss fulls with great severity, as they were his all, the accumulation of many years of hard toil. He had an in-surance of \$1,400 upon the houses until about a year ago, when through the pres-sure of the hard times he was unable to have his policy renewed.—Allentown Demo-cert.

The Coal Trade.

The production of anthracite coal has so nearly ceased that we may characterize the trade as almost featureless, Iso little is there doing in it. Nearly all the anthracite coal regions have come to a stand, and it is generally understood that there will be no very active production untill about the 1st of April next. This will allow of time and opportunity to get rid of most of the old stock of coal and leave the market open for a tolerable full production at fair prices thence to be and and reaves the market spin for a tolerably full production at fair prices thence to the end of the coal-year. Already, we are informed the market shows in provement in increased orders, especially at New York and farther eastward. Just now the inconvenience of the temporary suspension of production is fell somewhat keenly by the companies having interest payments and other fixed charges to meet, but arrangements to this end, we understand, have been fully made, and all serious trouble in this regard will be tided over. The chief point in the year's business, the maintenance of Thefollo ving table shows the quantity or coal supped over the Lebigh Valley hadroad for the wess ensing Fos. 16th, 1878 and for the year as compared the mine time in-typer.

Facewell Sermon.

Forwell Sermon. On Sunday next, Rev. J. C. Bliem, who has had charge of the Evangelical Church, corner of Third and South strests, this berough, will proach his farewell sermon. Rev. Bliem, during his stay in Lelighton, has made many warm friends among the people of the world as well as among mem-bers of churches. The knowledge of his de-parture from our midst is, therefore, the oc-cusion of nuch regret. It was through Mr. Bliem's exertions that the edifice in which Blem's exercions that the edifice in which the Evangelicals now worship was exected. Nor is this the only thing in which the reverend gen leman has proven himself to be an earnest worker for the promotion of Christianity. The number of members has been largely necessed through his efforts, and the Evangetical Church is now on a which foundation solid foundation, in a spiritual and a tight is an
