R. V. MORTHIMER, . . .

LEHIGHTON PA-SATURDAY, MARCH 16, 1878.

-Parker's Valley Record asks: "Shall the Democracy swallow the Nationals? Not while there is a Devil-in it!

-The New York World thinks that the words "In God We Trust" on the new dollar has reference to the other eight cents.

-Returns from all but 18 towns in New Hampshire give Prescott, republican, 1,017 majority. The same returns elect 202 republicans and 141 democrats in the House,

-The premium on gold was so low in Philadelphia last Tuesday, that many of the merchants were handing it out in making change with their customers. The premium was only \$th per cent.

-A Herald correspondent writing from Washington under date of Tuesday, 11th inst., says: The city has been full of rumors for some days of a new attempt to oust the President, and it has been generally believed that such an attempt would be made in this direction. It has been rumored that the effort would originate on the the Democratic side, but it has been well known to those who were well informed that Republicans inspired the whole movement, and their promise of support encouraged it. A promisnent Western Democratic representative, who is known to be ready to introduce a resolution of inquiry looking to a writ of ouster, when asked whether he really believed it would carry in the House, replied at once, "Of course it will have very strong Republican support, as I am well assured." There is no reason to believe that it would have Democratic support, however. Mr. Tucker, of Virginia, one of the ablest lawyers in the House, and a strong Democrat, is credited with saying that the movement is nonsensical and has no hope of success or any reason to succeed. In the conclusion of his speech Tuesday on the diplomatic service, Mr. Hewitt made a formal declaration on the subject, which, considering his position in the Democratic party, will attract general attention. Speaking of these rumors of attempts to oust the President, he asked whether the President's will had been paralyzed by the discussions in the House and elsewhere in regard to his title, and took ocension to say that for his part he held that the President's title could not be called in question in any way. So far as he could see his title was irrefragable and sacred. The fraud committed was not his fraud. The trick by which the Democratic party had lost their rights was not his trick, but that it was due to those who in the Electoral Commission had declared that evidence should be received and on the Electoral Commission who had refused to receive evidence. That the only fraud that could be charged against the President was fraud as to his piedges, and that his tenure of office is assured to him, though the first year of his office was a disappointment to those who looked upon a reform of the civil service as necessary to save this country from revolution, because the struggle for a hundred thousand offices every quadrennial period was simply organized revolution. He added that three years still remained to Mr. Hayes in which to redeem his promises and make himself the benefactor of his country. But if he falled to recognize the demands of the best men of the land he would be regarded as a fraud. This explicit declaration is important, because Mr. Hewitt speaks for a large part of the Democratic party, and there is no doubt that the Eastern and Southern Democrats, at least, will refuse to take part

used by them as a cat's paws in an attempt to drag Mr. Hayes from the White House. More about Sweeney's Affidtvit.

The Shenandoah Evening Herold of last Friday gives the the following additional particulars of the Sweeney affidavit, which gained for Thomas P. Fisher thirty days

with the anti-Hayes Republican or to be

James Sweeney says that he does not like to "give the fellow away" who sent him that telegraph dispatch announcing that the last chance of saving Fisher's neck had ar-rived. He told a Herald reporter that it would all come out in a short time, and when the public learns the facts of this case he will not be the object of so much class. It is well known that James Sweeney is one he will not be the object of so much abuse. It is well known that James Sweeney is one of the most enterprising citizens of Carbon county, and were it not for his being tainted with "Modliesm" he would be respected by all his acquaintances. The affidavit he says was made to oblige a number of his friends. There were two crowds operating on him. One wanted Sweeney to save Fisher because they were old friends of his, and the other kept alternately coaxing and threatening Sweeney to do something to give them an apportunity to work in Fisher's behalf in the hope of gaining political influence by it. Sweeney infimated to the Herald reporter that he was besieged on all sides, and he had to do something. In regard to the Governor plasing such confidence in the affidavit, it might be well to state just now where the responsibility belongs. Governor Hartmarft on Tuesday afterneon said that the affidavit of Sweeney was brought to the Exceptive Mansion late at might by Aleck Leisenring, of Mauch Chank. The Governor further Stated that Mr. Leisenring walened him up out of bed and gave him the deciment, it the same time stating that it was very important and should be attended to at once. Mr. Leisenring and the Governor furcher Stated that Mr. Leisenring and the Governor furcher stated that Mr. Leisenring walened him ap out of bed and gave him the deciment, it the same time stating that it was very important and should be attended to at once. Mr. Leisenring and the Governor furcher stated that Mr. S. Quay, the Servetarry of the Commonwealth, and they decided to grant Fisher a reprieve. Governor Harizant said that the fisher had been hung, and or the Commonwealth, and they decided to grant Fisher a reprieve. Governor Hari-rant said that if Fisher had been hung, and it should have subsequently been discovered that he was innocent, the fact of his having in his possession before the execution an af-fidavit proving an alibi for Fisher would place him in an embarcasing position, and he would be universally condemned by the people.

A Book that Everybody Wants.

We have received from the National Publishing Company of Philadelphia the advance sheets of their new work, entitled The Pictorial History of the World, by James D. McCabe, a well known historical writer. It is the most valuable book that has been published in this country for many years. It is the most valuable book that has been published in this country for many years. It contains a separate and admirably written history of every nation of ancient and modern times, and is full of useful information concerning them, presented in popular style, and in a manner that will enable the reader to refer instantly to any subject upon which information is desired. The book is a complete treasury of history, and there is not a question that can be asked concerning any historical subject, but an answer to it can be found in this work. The author does not content himself with a mere dry statement of facts, but sketches the life and manners of the various nations of which he treat, in lifelike colors, and presents to the reader the of facts, but sketches the life and manners of the various nations of which he treat, in life-like colors, and presents to the reeder the causes which led to the prosperity and decay of the great powers of the world. He shows us the various great men—the warriors, statesmen, poets, sages, and orntors—of ancient and modern times, and makes them familiar to the reader; he explains the secret motives of their actions, and points out the lessons which their lives teach. A valuable feature of this work is a complete History of the late War between Russia and Turkey,—the only one in print. The mechanical execution of the book deserves the highest praise. It contains 1200 large double-column pages, printed in the clearest and most beautiful style on paper of the very best quality. The book is embellished with over 650 fine engravings, embracing hattles and other historical scenes; portraits of the great men of ancient and modern times; views of the principal cities of the world.
