ALBRIGHTVILLE, April 2.

Are the Mollies Colonizing?

During the investigation of the commission appointed by the Pennsylvania Legislature to investigate the cause and effects of last Summer's labor riots at Scranton, last week, the following astounding revelation was made by the general superintendent of the Lackawanna Coal and Iron Company, W. W. Scranon: That the Molly Maguires, driven out of Schuylkill and Carbon, had come in large numbers to take refuge in this region, and were organizing anew among the mountains of Luzerne, in the mining settlements between Wilkes-Barre and Carbondale. Of this fact the witness stated he possessed the most trustworthy information. The statement produced a great sensation, and its narration was listened to with great interest by the large crowd that presided closely around the table of the committee that it was with considerable difficulty that it could proceed with its work. This was the most exciting fact brought out by the investigation. Scranon detailed his connection with the case that did the firing on the 1st of August last, and said that his instructions were that every man who fired should shoot to kill, as that was the most effective way to put down a riot. The witness had learned from what he saw of the New York riots in 1863, and, judging by the temper of the times, the Scranton mob was not to be trifled with.

The testimony of Scranon relative to the Mollies accounts for the organization and equipment by the company of which he is superintendent of a strong force of Coal and Iron police, similar to that which has distinguished itself in Schuylkill during the past few years hunting down the Molly Maguires. This force is composed of the company's employees, under command of one of its foremen, and in all the secret organizations of the workmen throughout the valley detectives are at work, so that every incident is promptly reported at headquarters.

A Question of Damages.

In the Supreme Court, at Philadelphia, on Tuesday last, the arguments in the following case from this county were heard: Samuel C. Bunting et al. vs. Nesquehoning Valley Railroad Company. Error to Common Pleas of Carbon County.—In 1869 the Nesquehoning Valley Railroad Company, without giving bond or instituting proceedings under the act of Assembly, entered upon the property of the Bunting estate near Mauch Chunk. An action of ejectment was brought against them as trespassers in 1873, but they nevertheless continued to build their road and lay down tracks in spite of the pending action. On April 24, 1874, when the case came for trial, the railroad company confessed judgment, and at their request the Court below ordered a stay of proceedings until the filing of a report of viewers appointed under the act of Assembly authorizing the taking of land by railroad companies. That jury, on August 22, 1874, fixed the value of the land taken at \$2,853, and the damages to the premises by reason of the construction of the road at \$2,590. An appeal was taken from this award, and in the lower court the owners of the land claimed that the land was to be considered in their possession on the 3d of April, 1874, at the time of the judgment in ejectment, and that the damages for the land taken were to include not only the value of the land, but everything needed on it, or in other words, that in assessing the damages, the fences, rails and buildings the railroad company had put on the land prior to April 24, 1874, were to be considered as the property of the owners of the land. With this view the plaintiffs offered evidence to prove the value of the land, including the fixtures erected thereon by the railroad company, and asked the Court to instruct the jury that the measure of damages was as above stated. The court below excluded the evidence offered, and directed the jury to disregard the fixtures entirely and estimate the value of the land without reference to said fixtures, because the plaintiffs could not recover for the improvements which the railroad company had put upon the land if they had occupied it for the purpose of constructing the road, even though such improvements were erected pending the action in ejectment. The jury found for Bunting et al. for \$1,874.41. The latter thereupon took their writ of error, assigning the ruling above cited as ground for a reversal. They contend that they were owners of the rails, ties and other structures erected on the land by the railroad company prior to the date of the judgment, and therefore they were entitled to damages for the taking thereof by the Nesquehoning Railroad Company or any other corporation which might proceed under the act of Assembly for the condemnation of the land for railroad purposes. The defendants in error contended that the true measure of damages for the taking of land by a railroad company for the construction of its road is the difference between the market value of the whole property through which the road passes and its value after the railroad is finished. That the entry on the land of Bunting et al. was made in 1869, the injury for which damages were payable accrued at that time, and it was for damages sustained by the land as it then stood, and not as it stood years afterward when the ejectment suit was settled, that recovery could be had. Under advisement.

Myths are but Symbols of Truth.

As the scholar sees in the vain but beautiful mythologies of the ancients, the embodied expression of the hungry human soul, blindly groping after the infinite, so the physiologist sees in that popular myth of the sixteenth century, the fountain of perpetual health and youth—an expression of the longings or suffering humanity for a remedy that should forever prevent the incursion of disease. The wilds of Europe were ransacked for this wonderful fount, and Ponce de Leon sought for it in the cypress-swamps and tangled overglades of our sunny Florida. Men have searched for it everywhere and in vain, but where it really is—in the human body itself. The blood is the real fountain of perpetual health and youth. When this source is corrupted, the painful and sorrow-producing effects are visible in many shapes. The multitudinous forms in which it manifests itself would form subjects upon which I might write volumes. But as all the varied forms of disease which depend upon bad blood are cured, or best treated, by such medicines as take up from the fluid and excite from the system the noxious elements, it is not of practical importance that I should describe each. For instance, medical authors describe about fifty varieties of skin disease, but as they all require for their cure very similar treatment, it is of no practical utility to know just what name to apply to a certain form of skin disease, so you know how best to cure it. Then again, I might go on and describe various kinds of rheumatic fever, fever ague, white swellings, enlarged glands, and ulcers of varying appearance; might describe how virulent poison may show itself in various forms of eruption, ulcers, sore throat, bony tumors, etc.; but as all these various-seeming manifestations of bad blood are cured by a uniform means, I deem such a course unnecessary. Thoroughly cleanse the blood, which is the great fountain of life, and good digestion, a fair skin, buoyant spirits, with strength and soundness of constitution, will all return to you. For this purpose, Dr. Pierce's Golden Medical Discovery and Purgative Pills are pre-eminently the articles needed. They are warranted to cure tetter, all rheum, scald head, St. Anthony's fire, rose rash or erysipelas, ring-worms, pimples, blotches, spots, eruptions, pustules, boils, carbuncles, sore eyes, rough skin, scurf, scrofulous sores and swellings, fever sores, white swellings, tumors, all sores or swellings, affections of the skin, throat and bones, and ulcers of the liver, stomach, kidneys, and lungs.

EGGS FOR EGG PRODUCTION AND PROFIT ON BROWN LEIGHBORNS FOR WHITE OR BROWN LEIGHBORNS HATCHING. SOLEABLE PRICES. WHITE FOR PRICE LIST. A. S. MILLER, Pottsville, Pa.

—AN ASTONISHING FACT—

A large proportion of the American people are today dying from the effects of dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a simple bottle for 10 cents to try. Three cases will relieve the worst case. Positively sold by all druggists on the Western Continent, and A. J. Durling in Lehigh.

—WHY SUBMIT TO THE DISCOMFORT, and humiliation entailed by a local disease of the skin, when GLENN'S SULPHUR SOAP will rid you of it with certainty and despatch? It is a remedy which never fails to relieve cutaneous diseases, and the occasional itching, often debility of the complexion, is equally reliable. The benefits arising from the use of Sulphur Baths, in cases of skin disease, and of rheumatism and gout are well known, but the cost is too heavy to be incurred by many persons who would otherwise take advantage of them. Glenn's Sulphur Soap answers the same purpose, and is both inexpensive and convenient. No one need stir around in search of a sulphur bath who has this admirable means of providing one indoors. It is incomparably the deodorizer and disinfectant of clothing and bed linen in use, and prevents diseases of an obnoxious nature caused by contact. Sores, ulcers, bruises, scalds, cuts and sprains are promptly remedied by it; and its cleanly, healing and soothing properties constitute it a far more desirable remedy for scrofulous taintments than ointments of any description, spongy ointments, compound ointments, liniments, ointments, and very rarely indeed any permanent good. Sold by Druggists. Price 27c. per cake. 1 Box (5 cakes) 75c., sent by mail, prepaid, on receipt of price, C. N. CRISTEY, Prop'r, 7 Sixth Avenue, New York. HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.
