

The Carbon Advocate.

H. V. MORTIMER, EDITOR. LEHIGHTON, PA. SATURDAY, MAY 4, 1878.

William Everts, son of the Secretary of State, died at his father's residence, in Washington, Friday morning of last week, aged 27 years.

In the Republican Convention of Schuylkill County, held at Pottsville Monday, a split occurred, and two sets of delegates were chosen to the State Convention.

It is reported as being the opinion of a portion of the members of the Committee of Ways and Means that the bill to impose a tax on incomes of over \$2000 cannot pass the House.

The Mexican dollars, now finding their way into this country, are not a legal tender, and those who accept them at their nominal value do so at their own risk.

The Allentown Democrat this week, in a very elaborate article, sets forth the claims of William H. Sowden, of that village, for the democratic nomination for Lieutenant-Governor of this Commonwealth.

In the Catholic Church at Milford, Mass., Sunday, Rev. Father Cuddihy severely denounced the Hibernian Order, declared their pews in the church vacant, and warned Americans against them.

Senator John Morriss, of New York, died at Saratoga Wednesday night. John Morriss was born in Templemore, county of Tipperary, Ireland, on the 12th of February, 1831, and came to this country, when only five years of age.

George N. Corson, Esq., the attorney assigned by the Court at Norristown to defend Heinrich Wahlen, the "Elm Station Murderer," has brought suit against Montgomery county to recover \$500 for counsel fees.

In the United States Circuit Court at San Francisco Monday Judge Sawyer refused a certificate of naturalization to a Chinaman, on the ground that he was "not a white person within the meaning of the term as used in the naturalization laws."

The Hayes are in bad odor. Barney Hayes is in jail at Mauch Chunk; Mrs. Hayes has been put out of "the Mrs. R. B. Hayes Temp. Ass.;" and when passing through here last Saturday Rutherford B. Hayes, although he holds the highest office in the land, did not receive a solitary cheer.

English Board of Trade Returns show a great falling off in the export of cotton from the United States—a fact of some significance to the striking operatives at Blackburn and elsewhere.

English Board of Trade Returns show a great falling off in the export of cotton from the United States—a fact of some significance to the striking operatives at Blackburn and elsewhere.

Saturday evening last the Lehighton Lyceum held their last meeting for the season. The exercises were interesting, instructive, and entertaining, as a very good programme had been gotten up for the occasion.

Philadelphia Public Ledger: Some consternation has been created among the coal trade by a bill introduced into the Legislature, passed hurriedly through the Senate, and now on the file of the House, to provide for equality of charges and prevent discriminations in railway freights.

region, who are opposed to the contract of the trunk lines with the Standard Oil Company, by which, it is alleged, the latter company is enabled to transport oil at better rates than other shippers, but, as the bill is a general one in its effect, it is drawn as to prevent any discrimination or even any differences in charges, and it would, if enacted into a law, and not controlled by constitutional provisions, seriously affect the coal as well as the grain shipping interests of the State and the port of Philadelphia.

It is well known that the Reading Railroad Company allows drawbacks on coal shipped to competitive points, to enable the producers upon its line to compete with other regions, and especially with the coals shipped from New York. These drawbacks are open and public, every shipper can get the benefit of them, whether his shipment is five tons or a million tons.

It is certainly a benefit to the producing interests of Pennsylvania to have such drawbacks allowed to them upon shipments to competitive points as will enable the products of Pennsylvania to be placed in fair competition with those of other States, and any successful attempt of the Legislature to impose a rigid and inflexible rule of charges, which is not to be varied under the stress of active competition, would simply result in forcing the products of our State out of any particular market for which the roads of other States, under wiser legislation, become active competitors.

A Debatable Question. While much has been written concerning the use of "put up" medicines, the question is an open one, and demands of the people a careful consideration. The salient points may be briefly stated, and answered as follows: 1st—Are the sick capable of determining their real condition, the nature of their malady, and selecting the proper remedy or means of cure? 2d—Can a physician, no matter how skillful, prepare a universal remedy adapted to the peculiar ailments of a large class of people, residing in different latitudes, and subject to various climatic influences? In answer to the first proposition, we would say, diseases are named and known by certain "signs" or symptoms, and as the medicine does not need a physician to tell her that her child has the whooping-cough, or indicate a remedy so people when afflicted with many of the symptoms concomitant to "impure blood," "torpid liver," and "bad digestion," require no other knowledge of their condition, or the remedy indicated, than they already possess.

Philadelphia Public Ledger: Some consternation has been created among the coal trade by a bill introduced into the Legislature, passed hurriedly through the Senate, and now on the file of the House, to provide for equality of charges and prevent discriminations in railway freights.
