Dill, of Union county. For Justice of the Supreme Court, Henry P. Ross, of Montgomery county. For Lieut. Governor, John Fertig, of Crawford county.

For Secretary of Internal Affairs, J. Simpson Africa, of Huntingdon county. The platform declares against further contraction, and for a currency of gold, silver and legal tender notes at par, the legal tender notes to be received for customs duties and remitted as fast as received; favors the substitution for National bank notes of United States notes exchangeable for bonds of small denominations bearing a low rate of interest; condemns the Republican reduction of the tariff in 1872; declares that the public lands should be reserved for actual settlers; declares for a thorough investigation of the Electoral frauds, but opposes any attack on the Presidential title, and severely arraigns the Republican policy in Congress and the State Legislature. Hon. B. Milton Speer was chosen Chairman of the State Central Committee.

THE PLATFORM. United States Senator Wallace, Chairman of the Committee on Resolutions, read the report of the Committee, as follows: The Democracy of Pennsylvania unanimously declare that the Republican party, its measures and its men, are responsible for the financial distress, the misery and want that now exist. It has had control of the legislation of the country, and has enacted and perpetuated a policy that has enriched the few and impoverished the many. Its system of finance has been one of favors

to moneyed monopoly, of unequal taxation, of exemption of classes, of high rates of interest and of remorseless competition, which has destroyed every enterprise that gave employment to labor. Its present hold upon federal power was secured by fraud, perjury and forgery. Its laws are unjust and its practices are immoral. They distress the people and destroy their substance. The only remedy for these evils is entire change of policy and the dethronement of the present power; and we

Resolve, That entire contraction of the volume of the United States legal tender notes is unjust and unnecessary. They should be received for customs duties and remitted as fast as received. Gold, silver, and United States legal tender notes at par therewith, are a just basis for paper circulation. A close connection of the Federal Government with the business interests of the people through National banks, to create monopoly and centralization, but in changing the system, uniformity of notes, security of the note-holders and protection of the capital invested should be provided for. Treasury notes issued in exchange for bonds bearing a low rate of interest is the best form in which the credit of the Government can be given to paper currency. Labor and capital have equal demands upon and equal responsibilities to law. Commerce and manufactures should be encouraged, so that steady employment and fair wages may be yielded to labor, whilst safety of investment and moderate return for its use belong to capital. Violence or breaches of order in support of the real or supposed rights of either should be promptly suppressed by the strong arm of the law.

The Republican party, by its legislation in 1872, which reduced the tariff upon bituminous coal from one dollar and twenty-five cents to seventy-five cents per ton, and upon iron, steel, wood, metals, paper, glass, leather, and all manufactures of each of them, ten per cent, struck a fatal blow at the industries and labor of Pennsylvania.

The public lands are the common property of the people, and they should not be sold to speculators nor granted to railroads or other corporations, but should be reserved as homesteads for actual settlers. Our public debt should be held at home, and the bonds representing it ought to be of small denominations, in which the savings of the masses may be safely invested.

Thorough investigation into the Electoral Fraud of 1876 should be made; frauds should be exposed, truth vindicated, and criminals punished; but we oppose any attack upon the Presidential title as dangerous to our institutions and fruitless in its results. The Republican party, controlling the legislation of the State, has refused to execute many of the reforms of the new constitution. Among other things it has neglected and refused to compel the acceptance of all its provisions by the corporations of the State; to prevent undue and unreasonable discrimination in charges for transportation of freight and passengers, and without adequate freight or drawback to any, to give to all equal means for transporting the raw material of the State in such manner and at such points as they may prefer; and to publish, in good faith, monthly statements of where the money of the people was kept.

The Republican party creates new offices and adds enormous perquisites to others, and fills them with favorites whose chief duty it is to manage its political machinery. Its administration of the State government grows more expensive each year of its rule. Legislation has been directed by republican lobbyists, who in turn manipulate and control the nominations of the republican party, and its candidates are the creation of a junta whose decrees are accepted as the irreversible mandate of absolute hereditary power. We denounce these practices, these nominees, and these men as unworthy the support of an honest and a free people, and we invite all of every shade of political opinion to unite with us in delivering the commonwealth from their hateful rule.

Each resolution, as read, was warmly approved and adopted unanimously. Your attention is directed to the sheriff's sales advertised on the second page.
