LEHIGHTON, PAS SATURDAY, JULY 12, 1878

-According to the records at Castle Garden, five million six bundred and eighty three thousand and some odd hundred emigrants have arrived there since 1847. Of this number four million were German and

-Official returns of the recent election in California show that the Constitutional Convention will be composed of 81 Non-Partisans, 52 Working Men, 11 Republicans, 6 Democrats and 2 Independents. All the delegates at large are Non-Partisan.

-In his Newburyport speech, on the 4th of July, General Butler declared war against the national banks, and laid down his own platform in these words: "My proposition is that we should issue four hundred millions in non-interest bearing bonds of the United States to settle the unemployed laboring men of the United States upon the public lands of the United States." He added: "No more notes of the United States can be issued than the people choose to take, and if they bear no interest these which are issued involve the country in no debt."

-What is characterized as a trustworthy report comes from Washington, to the effect that Secretary Sherman is seriously considering the policy of paying out silver dollors in meeting the current obligations of the Government. In this way it is thought a large sum may be distributed in various sections of the country. No doubt is enter tained that silver can be forced out by this method, and there is no doubt also that much of it will rapidly return through the custom houses. The experiment, it is said, may be made at an early day.

-Benjamin Noyes, the president of the National Capitol Life Insurance Company of Washington, D. C., convicted of conspi racy, in the Essex County (N. J.) Court at 10 o'clock on Saturday last was sentenced to 18 months' imprisonment at hard labor in the State Prison, and to stand committed until the costs were paid. The costs are said a pretty strong negative evidence that they to amount to about \$1500 Ex-Secretary Robeson arose and made a touching and tender appeal to the court for mercy. He was followed by Mr. Parker, both urging the release of Noyes on payment of a fine. But this Judge Depue would not assent to, and the imprisonment penalty was imposed.

-Would be "leaders" of the democracy in this county, who wish to make unholy alliances simply to advance personal inter-ests or the interests of relatives, must take back seats this year. The sentiment of the party is that individual axes must not and can not be ground at the expense of the party, and thus jeopardize its success.

The above paragraph we clip from the editorial columns of last week's Mauch Chunk Democrat. In view of the fact that a few weeks ago this same paper advocated an alliance with the Republican party, in order to best the National Greenback-Labor Anti-Monopoly party, the expressions in the above paragraph may be considered decidedly cool reading in this hot weather. An old adage says, " Consistency, thou art a jewel!" but the editor of the Mauch Chunk Democrat will never be able to plead guilty to wearing that jewel in his crown. Not any!

### Points in Politics.

-Thurman is crowding Tilden off the

-Kearneyism is showing its head in New Orleans.

-The Pittsburg Dispatch says there is no danger of a Communist uprising.

-The republicans hope to gain one congressman in New Hampshire.

-Joe Johnston wishes to go to Congress from the Richmond district.

-Private Dalzell says that the democratic

party always does worse than any man can predict. 'n Westmoreland county, Pa., the na-

tionalist party seems to be absorbing the greenback faction. -The Congressional campaign seems in all parts of the country to enlist the active

interest of the electors of both parties. -Boston Transiller (rep.) :- "There is no doubt that New England and New York

will wipe out the present democratic majority in the House." -Cincinnati Inquirer (dem.) :- "Move

the boundary line from the Rio Grande over to the Pacific coast. More empire is peace." -Shenandoah (Pa.) Hereld: -"Ex-Governor Curtin's candidacy for Congress is meeting with considerable opposition from straight out democrats in his district."

--- Washington Post (dem.) :- "Eliza Pinkston gave birth to the present administration, but Agnes Jenks swears she prevented it from being changed in the cradle by Jim Anderson.'

-Kanus City Times (detn.) :- "Mr. Tilden is a dead cock in the pit. He may have the power to give New York to the republican hard money candidate in the next election, but that is all,"

-Harrisburg Patriot :- "The indications are that there will be two republican candidates in the Congressional district now represented by Russell Errett, who is a candi-

date for re-election." -There is indication that the "greenback" movement in Maine is lacking in "staying power." If it were otherwise those "Down-Fasters" would belie their world-wide repu-

tation for shrewdness. -The Baltimore Genetic (dem.) delights to ridicule Montgomery Blair. It says that "the silence which he is keeping now is so dense and fog-like that you could cut it with the thin edge of a shingle."

for the Presidential nomination in 1880. He shows fairly on the front, and is the most formidable candidate in the West.

-Some farmers in - hio have been frightened by the threats of the tramping Incendiaries into discarding their reaping and mowing machines. Kearneyism is certainly growing in strength and audacity.

That at any moment war may be precipitated upon the United States by the policy of the federal government toward Mexico is the opinion of the Cincinnati Commercial. With almost any other country it would have commenced long ago. -Savannah News:-"General Toomba is

reported as saying that there is no danger in this country at present from Communism, but there will be if the government becomes unjust and the laws oppressive. In that case he would be willing to head the attack himself to secure justice,"

-The Harrisburg Patriot (dem.) says that General Grant is unquestionable to be the republican candidate for Presidency in 1880." -Boston Globe (dem.),-" Whatever may be said about it, it is very evident from all obtainable facts in the case that Hayes' civil

service reform is the most veritable humbug of the age." -Baltimore Gazette (dem.):-"Don Cameron who, six months ago was rummaging around the dictionaries for hard words and wondering why more oaths had not been invented so that he could use them on

Hayes, has been reconciled at last." -The Washington Post is badly scared. If General Grant is elected President again it believes he" would never leave the Executive Mansion until he had completely overturned the government or had been driven out of it by an indignant people."

-Janesville (Wis.) Gazette:-" Many think the expressions at the Iowa and Illinois conventions in favor of Grant ill-timed. but from the present indications it seems probable that in 1880 a condition of things will exist which will make it necessary to put that quiet, still man in the front. The signs of the times are not altogether myster-

lous." -The republican journals which have contended that the Potter investigation could not possibly find out anything for which they might blush have suddenly become less ready with their sneers. This is recognize the damage inflicted on the reputation of the party and of some of its leaders.

-Senator Hill, in an interview reported in the Atlanta Constitution, spoke as follows of his political relations with the President: "I made several suggestions to the President that were based purely on the fitness or unfitness of the supplicant, as I judged from my own knowledge. I put myself out of the way to do this. And with what effect? Why, the President has never acted upon a single suggestion that I have made—he has never shown any disposition to do so. While he professes great respect for me as a public man he is governed almost entirely by men for whom he can have no respect. When I saw that he took the suggestions of such men as Kellogg before he would take mine I felt that my own respect, and the respect I had for my people, and for the position I hold, would not allow me to go any further. I have, therefore, determined to make no further suggestions and to hold no further communication with him upon the subject of appointments. All this rumor about my having an influence with the President is false."
