Tarantula Items.

—Work is progressing at the old Shaft Colliery. It is expected that by August 1 the colliery will be in working order, when operations will be commenced.
—About 845 Sunday evening a cry of fire disturbed the quietness of our borough. It turned out to be a pile of burning brush on Dutch Hill. No great damage was done.
—Nothing special took place on the Fourth. The fire companies, the Continental and Pennsylvania cornet bands, and the returned soldiers, paraded our streets in the morning. In the afternoon the Fantastics, who created considerable laughter, paraded our principal thoroughfares. The Pennsylvania silver cornet band held a picnic in the Pines.
—A shooting affair occurred in Upper Mauch Chunk, about 11 o'clock Wednesday evening last, the particulars of which appear to be about as follows: A skin dig or what some call a ball had been held on the hill, when some wrangling occurred between some boatmen and George E. Williams; at about the time stated Williams left in company with a friend, and proceeded on his way home, when he found that he was being followed, and turned around and fired striking a young man named Charles Smith, a boatman, residing at Redding in the back. Williams proceeded to his house and to bed. Thursday morning, in company with his brother he returned to the hill, and gave himself up to the officers of the law, and was committed to await the result of the wounded man's injuries. Such are the facts so far as we could learn from the many conflicting stories going the rounds. Dr. Irwin attended the wounded man, and at first entertained but little hopes of his recovery, but later on Thursday, he informed us that he had rallied, and that his chances for recovery were 100 per cent. improved. Smith was sent down to St. Luke's Hospital, at Bethlehem, on the 2:30 p. m. train Thursday afternoon.
The local Gazette in speaking of the affair says: Early on Thursday morning, Williams gave himself up to the authorities and was held to await the result of Smith's injuries. By the advice of counsel he abstained from saying anything about the shooting. This terrible occurrence should be a warning to all young men. The lesson to be learned is "Don't touch whisky."
George Williams is a good hearted man. While a sailor in the United States Navy, in which he did gallant services for the Union cause, he contracted the habit of drinking. He came home and after some years he saw the evil of his course and like a man he stopped drinking. His spree of Wednesday night is said to be his first for nearly five years.
The affair created a great deal of excitement and caused much comment. While the community with the scarcity of facts before it, does not condone the crime, great sympathy was expressed for Williams, who has an excellent reputation as a sailor, soldier and police officer.

Packerton Ripples.

—The statement of the Independent School District is out and the Taxpayers can now see what use has been made of their money.
—Andrew Elliot and family will not remove to Philadelphia; being a first class mechanic arrangements have been made by which he will be retained.

—The railroad men's meeting Sunday afternoon was conducted by the Rev. Mr. Vincent, of Mauch Chunk. The Rev. Pick-up assisted; Gen. Charles Albright was present. Services are held every Sunday afternoon.
—There has been some little excitement here caused by the attachment of a certain man's wages by one of our merchants. It seems the debt was contracted in 1875, since which time there has been no disposition to pay. The merchant seems determined to collect and the debtor seems as determined not to pay. The proceedings will be watched with interest.

—The glorious 4th passed off quietly here. A very animated and somewhat striking discussion was held on the road below us (so we were informed); which party got the best of the argument we cannot say, though one of them seemed entirely overcome for the time. The Methodist Sunday School had a picnic in the Park woods, a very pleasant and enjoyable affair. The Rev. Pickup made a short address.
—The Packerton Christian Association held its regular meeting Friday evening, June 29th. Owing to the absence of L. Babcock, John Bohm presided. The Budget was as usual interesting. John L. Beers and Sadie Barton favored the Association with some select readings; H. F. Beers gave correctly the names of the County officers, the population and debt of Carbon County; John L. Beers gave a short sketch of the settlement of Pennsylvania; Jennie Irwin gave a short sketch of Mary, mother of Jesus; Bertie E. Stiles, a short history of the three persons cast into the fiery furnace by Nebuchadnezzar. Quite a number of questions were given to be answered at the next meeting. A proposition to purchase an organ has been made, a thing much needed by the association.
—We understand Prof. Snyder, principal of Lehigh School last year, will teach again. We hope he may apply for the Packerton school; he has the best of recommendations and is a practical teacher. Let the directors of our district engage his services if possible. Yours, &c., ASOS.

Plunder Recovered.

After a search of several days on the track of the thieves who carried off the iron safe, containing \$27,000 in cash and securities, belonging to Michael Richards, an old farmer, residing about ten miles from Reading, the officials succeeded Friday in finding the safe, which had been buried in the woods and the place covered with leaves and brush. The thieves had broken into the farmer's country seat, and failing to open the safe while the family slept, they carried it bodily from the house, placed it on a wheelbarrow and departed. It was a small safe, and it is supposed the thieves were inexperienced and knew very little of the business of safe breaking. They carried it to the woods, where they buried it without opening it. The officers traced the thieves to the woods and two days afterward found the safe. All the money and securities were unharmed in it. There is a clew to the thieves, but no arrests have as yet been made.
—On Monday afternoon a young son of Eli Sowerman, residing a short distance south of the Lehigh Valley depot at Slatington, while on the left of the barn, fell through an opening to the threshold floor beneath, sustaining severe internal injuries.

Serious Church Difficulty.

Schuylkill county in general and Shenandoah in particular is noted for the large number of Poles who within the past five or six years have swelled the population. It is estimated that there are 5,000 of them in that county at the present time, one fourth of whom reside in Shenandoah. While it is generally believed by the people that they are all Poles it is nevertheless an error, as they are composed of two distinct factions, the first being Poles proper and the other Lithuanians or Littlehans. These two classes of people, it seems, speak two distinct languages and neither can understand the other. They are all Roman Catholics, and three years ago succeeded in erecting a comparatively handsome church. The first pastor assigned to the charge of this disunited people by Archbishop Wood was Rev. Andrew Strupinski, who occupied the position of priest among them for a period of two years. He spoke both languages, Polish and Lithuanian, with fluency.
At the expiration of two years the Archbishop saw fit to suspend Strupinski, as he had proved himself to be a sort of conjurer or sorcerer and had performed miracles by the score. This was contrary to sound Catholic doctrine, and Rev. Alexander Lamarkovich, of St. Patrick's Church, of Philadelphia, was sent among his people by the Archbishop. He can speak Polish only, and the friends of Strupinski, through his agency, have given considerable trouble to the new pastor and the Archbishop ever since. They claim they cannot understand him, and after many petitions sent to the Archbishop for his removal without success, Sunday morning they determined that he should not enter the church to celebrate mass.
Before seven o'clock a crowd of about five hundred of the Lithuanians surrounded the church and locked the gates of the small pious enclosure with heavy padlocks. When the sexton came to the church the crowd drove him off and he at once informed the priest of what was going on. The priest, in company with Chief Burgess Whalen, then repaired to the church, and to put the term mildly, both were terrorized to see such a large crowd at such an hour. The priest tried to enter the church gate, but was roughly pushed back by those in front of the gate and insulted. He tried, as a good pastor should, to remonstrate with them and to treat the evil effects of their conduct with the mildness of a mission. He then informed the Chief Burgess he wanted them all placed under arrest, and that official in a short time had the whole police force on the spot.
Some portion of the congregation in the meantime had filled their pockets with stones, and as the police advanced upon them they gave them a volley of the dangerous missiles. The police then drew their revolvers, and the opposing party seeing this some of them pulled out knives but did not use them. The police fired a volley into the air, which had the effect of terrifying the rioters. About fifty of the disturbers were women, who were quite as demonstrative as the men, and one of them fought hard with the officers. The police succeeded in arresting thirty-five of the men and ten women. The rest of the crowd then fled. The lock-up was crowded so densely that some of the women fainted with the heat. One-half of the prisoners were then removed to the County Jail, and a strong guard placed around the building.
During their confinement one of the party turned State's evidence. His name is Chas. Miller. He stated that a meeting was held on Saturday evening in the woods on the outskirts of the town at which were present some five hundred Lithuanians from Shenandoah, Mount Carmel, Gilberton and the surrounding country. A man by the name of George Miller, alias George Muscovich, acted as chairman, and with Andrew Marousky and Peter Cukovich, told the meeting they had legal advice to the effect that they could remove the pastor, and if he would not go they could make him go. Miller denies the story and says he is innocent. He is, however, under arrest.
Rev. Father Lamarkovich says that Miller is a fire-brand, and that he never goes to church except to destroy the peace and good will of his people, and that he never consents to the support of the church and says that he will support them all to the full extent of the law. He has taken out warrants for their commitment as inciters to riot. All those arrested are still in custody (Monday) and the greatest excitement prevails. Large numbers of their friends in bodies paraded the streets Sunday evening and in consequence of this fact the whole police force was on duty guarding the prisoners.

When fields of waving grain will replace the present barrenness.

Perhaps the most beautiful view to be had of this region of our State is that of the Quakake Valley, and as it appeared this morning, bathed in warm sunshine, with the soft blue haze around the hills, it presented one of the loveliest landscapes to be seen, after leaving the Wyoming Valley—in fact, in some respects, the Quakake is fully up to the Wyoming. The excursionists, many of whom had never been in this region before, expressed themselves in the most extravagant terms as to its beauty.
Admired, in the Lehigh region and not far from Hazleton, was also visited, and the train stopped long enough to enable the visitors to examine one of the breakers and inspect the latest improvements in preparing coal for market. Hazleton was reached at half-past 1 o'clock and a stay made long enough for dinner at the Central and Mauch Chunk. Mauch Chunk was reached by 4 o'clock, and the entire party made a trip over the Switchback and enjoyed the grand and beautiful scenery which has delighted so many. The fame of this exciting trip has spread all over the country and large numbers of visitors pass over it daily, while large excursion parties from Philadelphia are of frequent occurrence.
The excursion, taken altogether, has been the most delightful character, while at the same time it has accomplished good in bringing the coal dealers of Philadelphia together, and thus enabling them to become better acquainted with each other, and better understand those who work in the mines as well as those who own the breakers.

Miners' Work and Wages.

The Beaver Meadow correspondent of the Hazleton Daily Sentinel, writing under date of July 2d, furnishes the following interesting statement:
Coleraine, Jeannette and Beaver Brook are working this week. Treskow, Honeybrook and Yorktown are idle. Some of the collieries have done some work in June for July. The number of days worked in June is: Honeybrook, 4 and 5, 17 days; Jeannette, 10 days at both places; Treskow, 2 of which were for this month; Jeannette has worked 16 days at No. 5 colliery, and one or two more at No. 4; Beaver Brook has worked 14 days at No. 2, none at No. 1, but most of all those who were employed at No. 1 are now working at No. 2; Treskow, none; Coleraine, 10 days at No. 1 and 15 at No. 2. This month the amount of days' work and shipments will be a little less than for April and May. We give the statement of one miner, working in the Wharton, at one of the collieries, showing about the average earnings, and one from the big vein. The Wharton miner says: "I worked thirteen days, in ten days of which all the breaker worked. I sent out sixty cars of coal at seventy-nine cents per car. I burned three kegs of powder at \$2.25 per keg; one gallon of oil at 80 cents; one box of fuses at 50 cents, and paid my laborer for ten days' work at the rate of \$8.16 per week. Now you can see how I am piling it up, and I assure you I do as well as any of the men in the colliery." All of which shows the following statement of account:
Sixty cars at 79 cents... 474 40
Three kegs powder... 18 75
One gallon oil... 80
Ten days' labor... 18 00
Total... \$211 50

Common Sense.

Many imagine all advertised medicines to be worthless nostrums, and indiscriminately condemn them; but is it not an injustice to the thousands of respectable citizens who give voluntary evidence of benefits received, to this question and doubt their veracity and integrity? Fairbank's standard scales are extensively advertised. Does it necessarily follow that they are inferior in make, and less accurate than others? Have they not been demonstrated to be among the best? Again, is it common sense to suppose that a physician with capital could be induced to hazard a name and hard earned reputation upon a worthless article? R. V. Pierce, M. D., of the World's Dispensary and Invalids' Guide, Buffalo, N. Y., is the proprietor of the most popular family medicines in the market. His reputation as a skillful surgeon and physician has been fully established for many years. Would physicians and clergy, after having tested his medicines thoroughly, unite in commending them to the afflicted, if they possessed no merit? The undersigned take pleasure in recommending Dr. Pierce and his Family Medicines to all who may need them.
