The 中 -The postilence of the Lower Valley of the Mississippi is at last, owing to the coming of cooler weather, on the wane. It has been a terrible offliction, not only for the South, but the whole country. It is probable that some \$500,000 has already been givon by the North to relieve the suffering citics, and a larger amount of profit has probably been lost by the serious interruption of the Fall trade caused by the fever.

-The term Nihilist given to Russian radicals, was suggested by the Latin word wikil, nothing, and was first used by the novelist Tourganiell'in his novel " Peres et Enfants," (Fathers and Sens) published in 1862. Tourganeiff travelled in Russia during 1860, before the radical party existed, and met a young doctor named Andreteff, who believed in nothing, despised his fellow creatures, saw nothing in the world but hypoerisy or illusion, and wrapped himself in complete indifference to individuals or events. It was he who suggested nihilism to Tourganeiff, who found him to be the type of a class. Andreteff is now dead.

-- In the industrial arts the United States has carried off the palm at the Paris Exhibition. The Tribeac sums up the result in these comprehensive words. "In agricultural implements we take all the highest prizes, all the second, and a majority of the third; In machinery, scales, instruments of precision, and parlor organs, we rank first; in dental instruments we, as usual, pass all competitors in books we take three of the five prizes in gold work, street cars, printrosser, sewing machines, canned goods, the highest honors," This is all the more conditable to our citizens, from the fact that our government delayed action on the matthe to so late a period that it seemed doubttal whether we should have any representation at all.

will no doubt feel much pleasure in the wetion of the Republican convention on Tucsday last, in the re-nomination for the Legislature of our estimable young townsman, Hon, W. M. Rapsher, Mr. Rapsher has served one term in the Assembly very acceptably to our people, and it is but a mark of the appreciation of our citizens that the convention should again place him before them for the same office. His course has been manly and uprights in all his speeches and votes he favored the best interests of the laboring men who comp se the bulk of his constituents. Being a man of the people, (having raised hims if from obscurity to his present exalted position, by sheer industry and indomitable perseverence.) he is justly entitled to the suffrages and respect of his follows without regard to political proclivities. That Mr. Rapsher will be reelected there is no room for a doubt, all parties ac knowledging that he has proved himself to

be one of the most prominent of our represen-

tative men.

... The Democratic State Convention of Massachusetts met in Worchester Tuesday and was captured at the very beginning by the Butler delegates and their outside mob of adherents. The State Central Committee finding it impossible to control the Convention, Mr. Edward Avery, was appointed by it to declare the Convention adjourned until the 25th inst. Mr. Avery, after great confusion and uproar, made the anouncement and then left the hall. The Committee on Credentials reported 973 delegates present, representing 309 cities and towns. Richard S. Spoffard, of Newberyport, was elected permanent chairman. John L. Rice, of Springfield, nominated Benjamin F. Butler for Governor, and a Boston delegate, named Cook, seconded the nomination, amid great enthusiasm. John C. Galvan, of Stoughton, protested against the nomi nation of Butler, who was not a Democrat. Three groans were given for Galvan, and three cheers for Butler, and General Butler was then nominated for Governor without a dissenting voice. The ticket was subsequently completed and a State Central Committee chosen. The resolutions adopted condemn the Electoral frauds, denounce monopolies, sympathize with the laborer, and reproduce the State Democratic platform of 1865. The State Central Committee will hold the "regular Democratic Convention" in Fancuil Hall, Boston, on Wednesday of next week, under the protection of a strong police fores to prevent a second coup d' etat by the Batlerites, and will nominate a straight Democratic ticket. The Boston Post, organ of the Democracy, repudiates

the action of the convention held Tuesday. -Thomas Harrison, a boy exhorter, is conducting a remarkable revival in the Foundry Methodist Church, Washington. He is 18 years old. His entrance to a meeting is thus discribed; "Crack! snap! crack! sound upon the waiting air with the thrilling sound of pistol shots in rapid succession. The explanation appears as the evangelist comes in slapping his white hands from excess of nervousness. He is dressed in a tight-fitting black coat, whose skirts are so long as to give it the air of a priestly robe. A white tie shows above the close-buttoned coat. A chained tiger is not more restless. He is never still. His feverish unrest infects his audience. The never failing wonder of what he will do next and the failure to correctly anticipate keeps up an unflagging in-terest." He uses simple language, and expresses his ideas clearly, but has none of the style of a trained speaker. But his energy is tremendous, and his power over an audience wonderful. His description of a sulphorus hell for sinners are terrifying to most of his hearers, and the excitement is always great by the time the sermon ends with an appeal to sinners to go forward for paryers. One reporter gives the following account He ran down from the platform and stood on the front seat. He was pule with excitoment. He outstretched his hands downward, and the heads went down in front of him as if impelled by the weight. Then he said in a low voice z "The spirit of God is present with more remarkable power. than I have ever felt in all my experince." Fervid exhortation followed. Persons began to quit their seats and rush forward. in a minute the front seats were full. Old and young struggled with each other to be first. The leaders met each new comer with a handshake and a shout. One fashionably attired young woman fainted, but a friend near her caught her, and she fell prestrate over the chancel rails." Harrison is from Boston. He has been remarkably successful in inciting religious fervor wherever he has worked, and is in great request by Methedist churches. He is said to be so engrossed with his mission that he often breaks into exhortation at hotel tables, in street cars, and anywhere else that his impulse seizes him.
