The Grandest Exposition of Ladies', Gents', and Children's Boots, Shoes & Gaiters' Ever effored in this wienty, is at J. M. FRITZINGER'S, Bank Street, Lehighton, Pa.	Amy Roberts, and asked her to be his wife, she did not hesitate in her reply because he possessed few worldly goods and had his way in the world to make. He was young, strong, energetic and manly, and she put her hand in his, knowing that she was rafe in his keep- ing. And when after a few months of happy wedded life, he broke to her ten- derly his purpose to follow the great tide of adventurous spirits that was setting towards the new western Colo- rado—the Black Hills—she astonished and pleased him by saying that she would follow him and share in his for- tunes. He fully appreciated the fove and gratitude that won this decision from her, but, withal, he did not know how fierce was the battle she waged with her terror at the thought of turn- ing her back on that pretty Ohio village that she had ever known as a home, and where she had always felt asfe and con- tented, to enter upon a new life away from civilized haunts, and among fierce savages, tough miners and adventurers. The Deans, however, were soon settled in their new home. Harry, with his quick judgement, had forseen that, in consequence of the great rush to the new diggings, and of new towns that would spring up like magic, in al- most every guich and on almost every	his glazed eyeballs looking vacanity up to the heavens. These victims had been overtaken and massacred while fleeing. Where then was Harry-her Harry- her beloved husband? Was he lying dead like these men in the mill beyond her sight? Had his life less body been thrown into the stream and washed away? Had he wounded to death, crawled among the siabs or bags to die, with no loving hand to staunch his life blood? At this awful thought, power came again to Amy's limbs, and tottering over the dead bodies she made a few steps but stopped once more; her eyes riveted on an awful spectacle within the mill. There upon the carriage that conveyed the logs to the now motionless saw, and held them in place when be- ing sawed up, halt crouched, half iay, two hideously painted and garbed fig ures that she knew were savages. Their hands were covered with blood, and at the waist of each hung a scalp, bet their heads hung forward and powerless as if some stupor had överfikken them. What could it mean ? Why did these murderous savages linger there ? Sud-	Jokes upon him much to Sam's disgust, and the merriment of the other boarders in the house. Sam and Bill occupied the same room together, and the last joke that Bill played upon him was after this fashion : Sam perceived a shadowy figure approaching him one night after he 1ad-retired, having in its hand a huge jearving knife, which glittered in the uncertain light as the "figure" swung it wildly over his head; this proved too much for Sam's nerves—he gave a yell that would have done honor to a Modoc, and sank to the floor, calling piteously for help. This brought the whole household speedily to the scene, and they assisted the port fellow to his feet, and then, of course, demanded to know what the uproar was all about. He was on the paint of telling them all about the horrible spectre that had menaced him, when he looked np and beheld Bill Smith, with a broad grin on his face, holding the same carving knife (which, by-the-by, was only an imitation one, made of tin foil) that he had seen in the shadowy hand. Sam saw at once that a joke had been played upon him, and so got rid of the astonished boarders the best he could, at the same time vowing vengence on that rascal, Bill Smith. The next morning he fixed a cigar, with a fire cracker inside of it as that it would evolved in the that is cracker inside or it as that it would evolved it on the time vender.	nental States, magnificent as they are to the sight of the peoples whose ideas of glory they foster, and upon whom they entail heavy burdens which they are encouraged to bear, are a standing represent to civilization. They are or- ganized not for defense but defiance, not for protection but aggression, for conquest, annexation, and spoil. Eng- land is being forced into a war with the Ameer of Afghanistan through the reck- less ambition and intrigues of the Czar, or of the military authority behind the throne which seems to be more poten- tial than that of the Czar himself. Eorope, bristling with bayonets, and unid with the flashing of bloodstained swords, is in a condition which only semi-savages could approve, and ra- tional and humane men, to whatever nation they belong, must deplore. The armaments, great before the stringgle between France and Germany, have been further increased since that strig- gle was over. The French army has been reconstructed upou the German model, and Ruesia has added to her al- ready immense legions, and for what purpose? Certainly not for peace. The British army has always ocen small in comparison with the armies of other Powers, but her insutar posi- tion is not as secure as it was before the start of a former time ceased to be effectual for her protection. The evils weighing upon the social condition of Europe affect her position, and compet	 -Which is oddest the man who aska question or the man who answers? The man who asks, because he is the querist. -"Do fishes go crazy?" is a conungram proposed by Seth Green. Sometimes they get in seine. -The class in German grammar is on the subject of genders. "Miss Flora, why is 'mood' masculine in German?" "So that she can go out alone nights, I suppose." -The natives of Lord Howe's Island in the Soph Pacific petitioned for four school masters and some iron pots. The gentle aborigines evidently contemplate giving a party. -Three hundred thousand men and women in New York live at locarding homses, and yet prople wonder that dyspensia is on the increase in this country. -One of Sir Roylo Roche's invitations to an Irish nobleman was rather quivecat: "I hope, my lord, if you ever come within a mile of my fionse you'll stay there all night." -"What," said an interviewer to in mpiedged candidate, "do you listend to do if you are elected?" "My gord-rest," said the poor follow, "what shall I do if I am not cleeted?"
