

FAILURE OF T. D. CLAUS. We are extremely glad this week to have announced the business failure of one of our most enterprising business men and merchants, T. D. Claus.

Mr. Claus, up to about five years ago, had been a business partner with his brother, Granville, now deceased. In settling up the estate of which he was executor he took a high rate of valuation in addition to which he had about \$21,000 outstanding on their books.

—The suit of Mrs. "Oliver" against Hon. Simon Cameron, for alleged breach of promise, ended Tuesday in a verdict for the defendant.

—The public debt statement for April 1st shows an increase of \$292,724.

SPECIAL CORRESPONDENCE.

LETTER FROM ILLINOIS.

MR. EDITOR—More than a year has elapsed since my last letter. We have enjoyed very good health since living here. As yet we have not regretted the change we made.

TEACHING.

Says the Southern Journal of Education: The teacher who has no love for his pupils, no enthusiasm for learning, no knowledge beyond the daily lesson, no tact to win affection, no power to arouse zeal for study, no principle to inspire goodness, no earnest longing to make men and women of those in his care, no ambition to improve his own mind—that person is better fitted for digging than teaching.

TEACHING.

Teaching has two great enemies in the training of the intellect and in the growth of the heart; and the greater of these is the latter. The teacher who can do but one thing is only a half teacher and there are many half teachers in the world.

OUR LETTER FROM WASHINGTON.

What a beautiful day!—The bill for the reorganization of the Executive Department of the Government, passed at a third reading.

OUR LETTER FROM WASHINGTON.

Washington, D. C., March 28, 1879. The prominent subject of our correspondence is the exchange of bonds to take place in April.

General Fitz John Porter's Complete vindication, says an exchange, by a Court of Inquiry composed of such soldiers and patriots as General Schofield, Terry and Getty, valuable as it must be to one who was in danger of passing down into history as a traitor to his country, is, after all, of greater value to the country itself, which cannot afford to have an injustice to a brave soldier done in the heat of party strife, expounded later to the truth than has been exposed.

—The bill for the reorganization of the Executive Department of the Government, passed at a third reading. The bill provides that the Aldermen, Magistrates and Justices of the Peace in the Commonwealth shall have concurrent jurisdiction with the Courts of Common Pleas of all actions arising from contract, either expressed or implied, and of all acts of trespass and trover and conversion, wherein the sum demanded does not exceed three hundred dollars, except in cases of real contract, where the title to lands or tenements may come in question, or action upon promise of marriage.

THE PHYSICAL PARADOX.

It has been said that "the blood is the source of life." It is as truly the source of disease and death. No life, that is to say, no healthy tissue can be generated from impure blood, no organ of the body can continually perform its functions when supplied through the system.

Congress has now been in session nine days. The object of the extra session was to pass an appropriation bill for the support of the troops at the polls. The bill was passed in three or four days. The army bill is the only one upon which some headway has been made, and which is practically passed except the section relating to the reorganization of the Executive Department of the Government.
