

FARMERS' COLUMN.

The Need of Practical Education.

For future business men, says a writer in the Springfield Republican, less Latin and Greek and more French and German for future wives and mothers less Latin and Greek and more cooking and practical knowledge in every way.

Interesting Backwoods.

Backwoods being mostly grown, succeeding on poorly prepared soil, giving a quick return, and generally yielding a remunerative harvest, is a favorite crop with inexperienced farmers.

After the weather has laid for a few days for the grain to ripen, the buckwheat is raked up into bushes, and these are set up in gravel or loam stools, without being bound: the tops being gathered together as much as possible.

When the buckwheat is sufficiently cured and dry, and the unripe grain has matured, it may be thrashed by treading out with horses, with the flail, or the thrashing machine.

It is frequently thrashed in the field, by making a bed of cleanly swept ground and beating the swept surface as hard as possible with a rammer made of plank. The gravels are placed in a circle upon the bed thus prepared, the heads towards the centre, and to a depth of two feet.

A pair of horses are ridden around over the bed until the straw is freed from the grain, when it is removed and a new bed is laid down. When the whole has been thus tramped out, the straw is raked off, the fanning-mill is brought out, and the grain cleaned up at once.

When the whole has been thus tramped out, the straw is raked off, the fanning-mill is brought out, and the grain cleaned up at once. When the whole has been thus tramped out, the straw is raked off, the fanning-mill is brought out, and the grain cleaned up at once.

Butter Making. "If I have made a discovery, or if every body knew it before me, I will tell it just the same. As soon as the cream shows signs of coming, pour into the churn two or three quarts of water—as near ice-cold as it is possible to get—and the butter will gather a great deal quicker and come hard and firm. I tried the cold water (ice water) on the start, and found it made the cream too cold and kept the butter from coming; but put in at the last end it is a capital idea, and will save hours of churning in the course of the season.

Early Pasture. Raise winter rye for feeding in May before your cattle get a good bite in the pasture. This would enable you to keep your cattle out of the pasture until June, then in May or June put in corn in rows to feed in August and September.

Notes. Cooking soda, dissolved in water to saturation, is as fatal to potato bugs as Paris Green. The Newburyport Herald knows this to be a fact.

The Scientific American says an old fruit can be preserved with one or more pin holes, and then sunk in the earth near the roots of strawberry or tomato or other plants the pin holes to be made in such a way that when the soil is filled with water the fluid can only escape into the ground very slowly.

A Maryland farmer thinks he has found a "sure cure" for the Canada thistle. It consists in sowing the land infested by them with buckwheat early in the spring, allowing it to grow tall in the spring, allowing it to stand and again sowing with the same.

Daily Excursion to Cape May AND RETURN THE SAME DAY.

The FAVORITE, Tri-weekly Steamer "REPUBLIC," leaves Race St. Wharf at 10 A. M., arriving at Cape May about 12 P. M., returning, leaves Cape May at 8 P. M., giving ample time for bathing or a drive on the beach. A full Brass Band and Orchestra play during the day. Refreshments and light refreshments in abundance. Dinner and Supper provided. Oysters and Fish served for Supper a few moments after taken from the water.

Fare for the Round Trip, One Dollar. P. S.—A Broad Gauge Steam Railroad will convey passengers to Cape Island in 5 minutes. Tickets for sale at all Railroad Stations.

Daily Excursion to SEA BREEZE!

The splendid Sloop Steamer "JOHN A. WARNER," leaves Chestnut Street Wharf Daily at 8 1/2 A. M., for Sea Breeze, (about 45 miles), down the Delaware Bay, arriving back to the city early in the evening. This is one of the most pleasant Excursions out of Philadelphia. A Musical Entertainment and Dancing will enliven the trip. Refreshments in abundance. Dinner, Supper, &c. All the conveniences for Salt Water Bathing, Fishing, Boating and other Amusements are provided.

Fare, 60 cts. Children, 30 cts. June 25, 1876.

Very Respectfully, JOHN G. BIERY, Agent For the Weissport Planing Mill. P. O. box 63. Jan. 4 y1

The Best and Most Popular Pulmonic is

Hale's Honey of Horehound & Tar.

It favorably Cures Coughs, Colds, Hoarseness, Sore Throat, Asthma, Whooping Cough, and other Affections of the Breathing Organs.

Its soothing influence upon the irritated lining of the air passages is due to the fact that its ingredients are the most efficacious pulmonary stimulants known to modern botany. The honey of the article is the HONEY OF THE HOREHOUND PLANT, chemically mixed with the medicinal principle of the ALEX. BALASMEA of Halls of Great Britain, which has the property of retaining its medicinal qualities when combined with the honey.

Those who have used it say that HALE'S HONEY OF HOREHOUND AND TAR is not only wonderfully refreshing in all cases where the organs of respiration are affected, but also that it cures the most obstinate coughs. It cures the most obstinate coughs. It cures the most obstinate coughs.

A Cough may be very termed the Preliminary Stage of the most serious diseases, and it is therefore, who would arrest the progress of the disease, should delay not a moment in taking a certain specific.

C. N. CRITTENTON Prop'r, No. SEVEN SIXTH AVENUE, N. Y.

For sale by A. J. DURLING, Bank Street, Lehigh, Pa.

Have you a "RAGING TOOTH" Reader? IF YOU HAVE, BUY

Pike's Toothache Drops

And cure the agony in ONE MINUTE. This you do by THE P. O. DROPS. The article will do the business at once, and it is not over it contains no ingredient which is injurious to the system.

C. N. CRITTENTON, Prop'r, No. SEVEN SIXTH AVENUE, N. Y.

GLENN'S

SULPHUR SOAP,

The Leading External Specific FOR DISEASES OF THE SKIN AND

Beautifier of the Complexion. It renders the Cuticle Healthfully Clear and Smooth, and is the Best Possible Substitute for Expensive Sulphur Baths.

It is an Incomparable Remedy for BRUISES, ULCERS, CUTS and every irritable or unhealthy condition of the skin, and is a most successful remedial agent and source of speedy relief in cases of GOUT, RHEUMATISM, and other diseases of the joints. It is a most efficacious DISINFECTANT OF ALL kinds of filth, and is especially useful in cases of Cholera, Typhoid, and other diseases, offering an antidote to the miasmatic influence of the air, when used as a preventive of infection. When used as a disinfectant, it is especially useful in cases of Cholera, Typhoid, and other diseases, offering an antidote to the miasmatic influence of the air, when used as a preventive of infection.
