

A correspondent of the Massachuse Ploughman writes some good hints about the management of poultry to answer to an ar- church this evening, and you can't imagine ticle on that subject:

ed, the light Brahma or white Cochiris best and admired them. In a moment or two for that purpose. An experience of ten years a mosquito came sailing along, humming with fewls of different breeds has not brought the refrain of a hymn the congregation had about such a conclusion with me, I keep just sensed singing. This startled me a litfowls for the eggs-black Spanish, white and the, but not very much, because I always bebrown Leghorns — and have no trouble lieved that the St. John mesquitoes sould about their laying in winter. I find as sing if they would. Well, this fellow sailed much trouble in keeping fowls cold in sum-mer as I do in keeping them warm in winter. on, passed me, then he turned and came back, and I cherved that he had a wicked I keep Brahmas for batching. They dis- look in his eyes, although, I reasoned, that count all other breeds in that line of busi- was no more than one might expect of a ness, and their motherly qualities are with- mosquito that flew around on the Sabboth. out a rival. I find the expense of food for Presently, still humming "Broad is the road twenty black Spanish, white and brown that leads to death," the bird made a few Leghorns, to be the same as that for fourteen circles and lighted on my alippered feet, Brahmas. There is no question in my mind making his landing about an inch above the but what the Plymouth Rock excels all slipper. much in their praise, when we consider because I know your harmlessness and your full line of the number of good laying breeds with which stupidity. But your impudence is mere they have had to compete. A hen that lays detestable than your imbedility is touching one hundred eggs in a year is not an unprofitable one. Still she cannot be classed as a Tliffed my other foot to crush him, and I rery profitable one. A hen to be in favor may live a thousand years if that mosquito with me must produce from one hundred didn't get the drop on me. investment, besides the cost of food.

"If it is desired to obtain a stock of hens side my shoe. for laying eggs to sell when they bring the highest price, I like the hatching to take shot, I looked down, and that mosquite had place the first week in May, if of the black his hind legs bent under him, his front legs Spanish, white or brown Leghorn breed. stretched out and braced against my foot, They will lay as soon as the tenth of October. while the venomous wretch, holding his From that time until the first of March is mouth full of epidermis and stocking, leaned when I find it a good time to sell eggs. In back, pulled, and shook his head savagely the matter of leeding, feed so that your hens like a bull terrier, without ever breaking shall be healthy. The healthy hens are his hold. Just before I kicked him he let those from whom we may expect eggs, and go and sailed around behind my head, not those who are extremety fat. When a while he was joining the congregation in hen does not lay four months in succession. singing : I know no way by which she can be made to make up for lost time, any more than I can tell how a farmer can be made to make up the loss of two day's time per week in a grocery store discussing his neighbor's business. As for a hen not being profitable to thought in my soul it would pull the leg off keep for laying after she is two years old, I cannot endorse it, as I have been that are four years old and still continue to deposit one dozen a month. Still I prefer young with great affectation of feeling,

thought in my soul it would pull the second me before I could shake and kick it loose. And then it dodged about my ears, snapping at them as it went by, and humming with great affectation of feeling,

A. J. DURLING, P. from those hene in your flock that you know I would not five as a system of the second are continually laying. Black Spanish, white and brown Legborns, are not of much account for the table. To kill them for the All through the service this inhuman banmarket is folly."

Gapes.

We have learned to jest at gapes by making a free use of Camphor. We give to a chicken in a very bad case a pill the size of sweeter." And close to the bone it was. I a garden pea. As soon as we see symptoms kept up a regular tattoo with my feet, until of gapes we give the birds water to drink which is strongly impregnated with camphor, thus giving to the chickens that which phor, thus giving to the chickens that which was a favorite medicine with our great granding the good points in a sermon. Then I held my feet off the floor and kicked them seems to explain itself. The gapes or the gaping is caused by the presence of small red worms in the windpipe. No medicine can reach them unless in the form of vapor. An hour after the chicken has swallowed the window. I held wondered the window. the pill it smells of camphor. Camphor is me out of the window. I had wondered a very strong vermifuge, and the worm dies. -Rome Herald.

"Boy," demanded Boniface terribly, "why ferent from what was first planned out. The proper mode of cultivation on a farm is seventeen years, in cordurous and smock The good farmer is he who plans to allow a variety in modes, as necessity may demand—change of mode, change of seed are as necessary as tillage itself. We fitten calves and all young stock by change of feed or pasture, and if we adhere to set rules or do as our fathers did before us, and only because they did so, we violate the laws of administration. The boy looked down at the boots, then bent and lifted one of them into the light of a distant window. It was certainly an exceptional body received the according to the contraction of the light of a distant window. ble here, and the man who allows rate in "W-a-a-l," grunted the clown, looking up of patronage in the future his land is on a bad read, but he who does with a dubious light struggling upon his not learn from what names before his eyes grimy visage, "come to see 'em in ter lois every season should go another quarter to und 'ey be summat loik boots; but, bless night school, and be sure to take a candle and save us, I could 'a swor'd; intertim tay-

BURDETTE AND SOME MOSQUI-TOES ATTEND CHURCH-

But down at Musquash. Last Sunday night we all went to church down at Musquash, and heard Mr. Hopper preach, a quash just pressed him into their service for one day. Well, I had been treut fishing all the day before and had waded down the river a few miles, and Saturday night I poured a bushel and a hulf of outs into each of my boots, and all the bright, sunny, Sabbath day they set out in the sun and basked, while I lounged around loosely shod in slippers, and extremely happy. I went to how easy and comfortable were my slip-"First, you say, if eggs in winter are want- pered feet. I thrust them out before me

and thirty to one hundred and eighty eggs I haven't felt anything like it since seven a year. At the latter figure I can make years ago, when I tried to mend the family them pay three hundred per centum on the washbeiler, and poured a tablespoonful of sizzling, glowing, bubbling solder down in
